Regulating the Collection and Disposal of Swill.

(Code No. 17.08)

Bill No. 128, Ordinance No. 17.081, as follows:

Regulating the collection and disposal of swill in the City and County of San Francisco, authorizing and providing for permit and a license for swill collectors, and providing penalties for the violation of this ordinance, and repealing conflicting ordinances.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. The term swill when used hereinafter shall be applied to and be construed to mean waste food products from hotels, restaurants, hospitals and institutions or food dealers, which waste is kept separate from non-food waste.

Section 2. The term swill producer when used hereinafter shall be applied to and be construed to mean any person, firm or corporation producing swill in connection with or from any hospital, institution, hotel, restaurant, commissary, lunchroom, cafeteria or other eating place or store where foodstuffs are prepared or kept for sale.

Section 3. The term swill collector when used hereinafter shall be applied to and be construed to mean any person, firm or corporation who shall have been duly licensed under the terms hereinafter set down in this ordinance to collect, receive, carry or transport swill as

herein defined, through the streets, alleys or public ways of the City and County of San Francisco.

Section 4. All swill as hereinbefore defined in this ordinance shall be placed by the swill producer as herein defined, upon whose premises the same shall have been produced, in a water-tight metal container of not less than ten gallons net capacity, of a design approved by the Director of Health of the City and County of San Francisco, which container shall be kept clean and shall at all times be proof against the access of flies and rodents to the contents thereof. The contents of such container shall be collected not less than three times a week by the collector and oftener if deemed necessary by the Director of Health, and the collector shall transfer the contents of all containers into the wagon provided therefor without spilling any materials on stairs, walks, yards or streets, and shall on the same day as such swill is collected, dispose of it.

Section 5. The swill collector shall remove the swill from the premises of the swill producers as provided in Section 4 without cost to the swill producer unless the swill shall be produced in sufficient quantity to give it a market value, in which case the price to be paid by the swill collector to the swill producer shall be arrived at by negotiations or by contracts now in force or to be entered into.

Section 6. The body of any vehicle used for the collection of swill shall be metal lined, shall be constructed so as to prevent the contents from falling or spilling therefrom, and shall be provided with a wooden or iron cover. The tank of any vehicle used in the collection of swill shall be metal, shall be water-tight, and shall be provided with a wooden or iron cover, and every vehicle used in the collection of swill shall be well painted, shall be kept in a clean and sanitary condition and shall be properly marked, in a conspicuous place, so as to show its classification and number.

Section 7. It shall be unlawful for any person, firm or corporation to engage in the business of collecting swill in the City and County of San Francisco, or to haul the same through any street or public place in the said City and County unless such person, firm or corporation has been duly licensed, as in this section provided. For the business of collecting swill, and/or conveying or transporting the same through the streets, alleys or public ways of the City and County of San Francisco, the license shall be $250 per month, which said license shall be issued by the Tax Collector of the City and County of San Francisco upon a permit obtained from the Director of Health, who shall issue such permit only upon being satisfied that all of the requirements of this ordinance shall be met.

Section 8. Every permit issued shall specify the name of the person, firm or corporation to whom issued, as well as the name or names of those engaged in collecting, and each wagon used shall have attached, in a conspicuous place, a metal tag showing the number of the license issued therefor. Permits so issued shall be valid for a period of one month and no longer, and may be revoked by the Director of Health whenever it shall appear that the person, firm or corporation doing business by virtue of such permit has failed to comply with any of the terms hereof.

Section 9. The Director of Health of the City and County of San Francisco shall have power to establish rules and regulations, not inconsistent with this ordinance, governing the collections and disposal of swill, provided that such rules and regulations shall have as their purpose the enforcement of the provisions of this ordinance and the health and sanitary laws and ordinances in effect in the City and County of San Francisco.

Section 10. All members of the Police Department and of the Health Department of the City and County of San Francisco are hereby specifically required to enforce the provisions of this ordinance, and shall have the right to enter any and all places for the purpose of determining the sanitary condition thereof, and any person denying or obstructing such entry shall be subject to the penalty herein provided.

Section 11. If any section, sentence, clause or phrase of this ordinance is for any reason held to be inconsistent or invalid, such decision shall not affect the validity of the remaining portion of this ordinance. The Board of Supervisors of the said City and County hereby declare that it would have passed this ordinance and each section, sentence, clause or phrase irrespective of the fact that any one or more of said sections, sentences, clauses or phrases be declared inconsistent or invalid. Any person, firm or corporation violating any provision of this ordinance shall be guilty of a misdemeanor, and upon conviction thereof shall be punished by a fine of not more than $500 or by imprisonment in the County Jail for not more than six months, or by both such fine and imprisonment.

Privilege of the Floor.

W. S. King, representing Chas. Lamori, swill collector, sick in Dante Sanitorium, was heard in opposition to the proposed license fee of $250 per month, which, he said, would put his client and other independents out of business and promote a monopoly.

Mr. Eppinger, attorney representing hotel and restaurant interests, favored the ordinance, as calculated to serve the best interests of his clients and all concerned.

Jos. J. Martinelli, independent hog raiser, and Harry Byers, representing the Hog Raisers' Association, were also heard.

Motion.

Supervisor Spaulding moved that the matter be set for hearing in Health Committee at 2 p. m., September 15, 1932.

Requesting Mayor to Call Conference for Action on Appropriation of $350,000 for Agricultural District 1-A.

(Code No. 5.3)

On recommendation of Joint Committee on Finance and Buildings.

Resolution No. 383, as follows:

That, Whereas, the Legislature of the State of California did, at its last session, enact Senate Bill No. 339, which was, by the Hon. James Rolph, Jr., Governor of the State of California, signed on the 9th day of June, 1931, and

Whereas, by said enactment of said Legislature, there was appropriated to Agricultural District 1-A, comprising San Francisco and San Mateo counties, the sum of $250,000, to be used for the construction of a suitable building for livestock exposition purposes, and

Whereas, said appropriation is not available for said use and purposes until

(1) A like amount has been subscribed and paid into Agricultural District for said purpose by either public or private subscription, and

(2) The said district owns in fee a site for said exposition building, and

Whereas, the City and County of San Francisco has not, up to this

time, appropriated any sum of money whatsoever for said purpose, and in accordance with the plain intent and spirit of said statute, and

Whereas, no subscription has been made for said purpose to said district by any private individual, firm or corporation, and although serious and determined effort has been put forth by the trustees of said district to secure private subscriptions, it is now well understood that procuring said private subscriptions at this time, owing to the present financial condition, is impossible, and

Whereas, a determined effort will be made by certain State Senators and Assemblymen from other districts of California to have said enactment repealed and said sum of $250,000 put back into the general fund of the State of California, and this because of the present agitation for economy in government and lower taxation, and the desire of said legislators to make use of said return of said money for the purpose of lowering said State tax rate, and

Whereas, there is imminent and immediate danger of this sum of one-quarter of a million dollars being lost to the counties of San Francisco and San Mateo unless immediate action be taken by the Board of Supervisors to avert this great loss to our City, and

Whereas, the only way that this can be done is to provide a sufficient sum to purchase a site for said exposition, estimated to be $100,000, and $250,000 to match the amount of money so appropriated as aforesaid, and

Whereas, James Rolph, Jr., the Governor of the State of California, has, in recognition of his interests in this project, appointed 8 representative and prominent citizens of said counties as trustees of said district, who have met, organized, and by the election of officers under the law, are now functioning, and in all respects fully capable of economically expending said money to the best interests of the public of the State of California, and of constructing said exposition building, and

Whereas, said proposed improvement is permanent in its character, and is of great educational value, not only to the citizens of both counties, but particularly to the school children thereof, and

Whereas, livestock expositions and horse shows are most popular in San Francisco, and are enjoyed by the great body of our citizens as well as by the wealthy members thereof, and

Whereas, the erection of said building for livestock purposes and the holding of livestock shows therein will be of tremendous and lasting importance to the livestock industry of San Francisco and the nation, and

Whereas, the livestock industry is the third largest basic industry in the State of California, and

Whereas, the very center and heart of said industry is located in our City, and

Whereas, the following named associations, civic and improvement clubs and private and public institutions have endorsed this project, and are most insistent that San Francisco immediately provide said appropriation of $350,000 and make sure of this project for our City by the aforesaid appropriation:

Park-Presidio Improvement Association,
Haight-Ashbury Improvement Association,
Glen Park Community Association,
Excelsior Merchants Association,
Southern Council of Civic Clubs,
Central Council of Civic Clubs,
Eureka Valley Promotion Association,
The 23rd Assembly District Club,
East & West of Castro Improvement Club,
Visitacion Valley Improvement Club,
San Francisco Chamber of Commerce,
Down Town Association,
San Francisco Advertising Club; and

Whereas, by and from the experience of other cities in our nation, such as Chicago, Kansas City, Denver, Colo., Omaha, Portland, Ore., and Los Angeles, it is proven that the revenues to the business interests of our City by reason of the holding of international livestock and horse shows, exhibitions and expositions, in said building to be so erected, will exceed $1,000,000 per year, all of which incoming capital will be expended in our City by not only the exhibitors at said shows, but the visitors as well, and

Whereas, in this time of stress and unemployment, starting construction of this project will not only encourage and hearten our citizenry, but will provide 125,000 days of labor for the unemployed of our City, and

Whereas, it is the policy of the trustees of said district to maintain popular prices upon the sale of tickets to said shows and expositions to the end that the public can enjoy these shows at a minimum cost, and

Whereas, the said building under the present plans and specifications tentatively under consideration will house 2000 head of cattle, 600 head of fine show and trotting horses, 1000 head of sheep and 1000 head of swine. This building will have permanent seats for 12,000, and upon occasion, when necessary, can be conveniently enlarged to seat 17,000 people, affording each patron a clear and unobstructed view of the exposition, there being no posts or pillars in this vast structure, and

Whereas, San Francisco has not kept pace with other cities in providing buildings of this character to care for a crowd of such proportions and is now sorely in need of such a structure, not only for livestock purposes, but for general and sundry uses, and now, therefore, be it

Resolved, That his Honor the Mayor be and he is hereby requested to immediately call a conference of the members of this Board, the trustees of Agricultural District 1-A, and representatives of civic and improvement organizations and clubs and associations, which have heretofore endorsed this proposed appropriation, to the end that as a result of said conference ways and means may be considered whereby the Board of Supervisors may make available, the sum of $350,000 to Agricultural District 1-A, and thereby avert the imminent danger of the loss of this fund and splendid project to the communities of San Francisco and San Mateo.

Also, Resolution No. 393, as follows:

Whereas, it has been proposed by the State Department of Finance

ROLL CALL FOR THE INTRODUCTION OF RESOLUTIONS, BILLS AND COMMUNICATIONS NOT CONSIDERED OR REPORTED UPON BY A COMMITTEE.

In Memoriam—Right Reverend Monsignor M. D. Connolly.

(Code No. 5.91)

Resolution No. 395, as follows:

Whereas, death has taken one of San Francisco's noblest citizens, a priest of the Catholic Church who labored forty-two years in the Parish of Saint Paul and left a monument in stone ecclesiastical, educational and social, in the person of Right Reverend Monsignor M. D. Connolly; and

Whereas, the greatness of the man lay in a strict adherence to his ideals of the priesthood, in the exudation and manifestation of a simplicity intensely interested in the development and love of children, in an enthusiasm for the perfect and beautiful execution of the ritual of the Catholic Church, and in a spirit of retirement which kept him away from the public eye; and

Whereas, Monsignor Connolly, through a vigorous, candid, courageous and learned espousal of the teachings of Christianity, imbued thousands of San Franciscans with high ideals of honesty, probity, charity and good will to all men which, like all things of the spirit, will go on now that the flesh has gone; and

Whereas, the late Monsignor M. D. Connolly lived a life, as it were, of freedom born of the independence that derives from the liberty that comes to the sons of God who see clearly and unmistakably the Light, who pursue the Truth, and who follow the Way undeviatingly; and

Whereas, the life of this noble priest and exemplary citizen was one of prayer and labor, of love illumining life and the ways of God unto wisdom and energizing the spirit into a crystallization of material things to manifest the greatness and the glory of God in heaven; now, therefore, be it

Resolved, That the Board of Supervisors of the City and County of San Francisco, out of a spirit deeply reverent of the good Monsignor Connolly, out of an appreciation of the living benefits his life has bestowed on the City of St. Francis, and out of gratitude to God for having had such a noble man as a citizen, does hereby publicly extol the virtues of the late pastor of Saint Paul's Church and expresses deep sorrow and regret at his loss; and be it

Further Resolved, That a copy of this resolution be spread on the minutes of this meeting and that an engrossed copy be sent to the administrator of the Parish of Saint Paul, to be there kept as a lasting memorial of the deep respect, ardent love and sincere regard the Board of Supervisors of the City and County of San Francisco have had for the late Right Reverend Monsignor M. D. Connolly.

Section 11. Ordinance No. 3277 (New Series) and all ordinances and parts of ordinances in conflict herewith are hereby repealed.

EXPLANATION.

This ordinance is practically the same as the existing ordinance, and has been changed to conform with a State law, "An act to restrict the running of dogs at large, providing for the issuance of dog license tags by counties," etc. (Chapter 757, amended in 1929.)

In Section 1 the first sentence has been added to conform with the wording in Section 1, Chapter 757, of the State law, amended in 1929.

In Section 2 the words "Purchaser of Supplies" have been substituted for the word "Auditor."

In Section 3, at the end of the paragraph, a sentence has been added prohibiting making or using a counterfeit or imitation license tag.

In Section 4 the amendment simplifies the procedure for a dog owner to obtain a duplicate tag as against the present ordinance.

In Section 5 a change from six months to three months has been made, to conform with the wording of Section 1, Chapter 752, State law, and animal hospitals and licensed pet shops are included in the dog license exemption provision of this section of the ordinance.

Section 6 is a definition of a dog kennel.

Section 7 is a new section, imposing an annual license for maintaining a dog kennel after receiving a permit.

Section 8 is a new section, providing for the enforcement of provisions requiring owners of unlicensed dogs to obtain a license for the same.

Note: The proper enforcement of this ordinance should result in an increase of revenue for the City. It was presented to this Committee by the San Francisco Society for the Prevention of Cruelty to Animals, and they request its enactment.

(Code No. 3.041)

On recommendation of Joint Committee on Charter Installation and Health.

Bill No. 141, Ordinance No. 3.04112, as follows:

An ordinance imposing a license tax on wholesale peddlers of vegetables and other food products, defining such wholesale peddlers, providing for identification of vehicles operated by such licensed wholesale peddlers, requiring a permit to be issued by the Chief of Police and a bond to be filed by each such licensed wholesale peddler, exempting growers and producers from certain provisions of said ordinance, providing for the renewal and the revocation of said permits, providing for certain penalties for violation thereof, and repealing Ordinance No. 8374 (New Series), entitled "An ordinance imposing a license tax on wholesale peddlers of vegetables and other food products," approved March 7, 1929.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. Every person, firm or corporation engaged in the business of a wholesale peddler, peddling vegetables, butter, eggs, cheese, poultry, dressed meats, fish, shellfish, game, berries, fruits, nuts and other perishable foodstuffs at wholesale, shall pay an annual license to the City and County of San Francisco in the sum of five hundred ($500) dollars. Said license shall be paid at the time of issuance thereof.

Section 2. For the purpose of this ordinance a wholesale peddler is defined to be and include all persons, both principal and agent, and all firms, corporations, partnerships or any other joint or singular enterprise engaged in by a person or persons not having a regular fixed and established place of business in the City and County of San Francisco, who travel from place to place or have a stand upon any public street, sidewalk or alley or any other place, doorway of any room or building, unenclosed or vacant lot or parcel of land, and who sells, or exhibits or offers for sale, any of the commodities or products mentioned herein to dealers for the purposes of resale, or to any restaurant, hotel or public institution within the City and County of San Francisco. The person or firm so engaged shall not be relieved from the provisions of this section by reason of association, temporarily, with any local dealer, trader, merchant or auctioneer, or by conducting any temporary business in connection with, or as a part of, or in the name of any local dealer, trader, merchant or auctioneer. Any sale by a peddler to a dealer, for the purpose of resale, or to a restaurant, hotel or public institution, shall classify him as a wholesale peddler, and in addition to being guilty of a violation of this ordinance, he shall be liable for the difference between that which he paid for a license as a peddler and what he should pay as a wholesale peddler.

Section 3. Each such peddler shall have his name, address and number of his license printed conspicuously on both sides of his truck or other vehicle in letters and figures not less than three (3) inches in height, and he shall always carry the permit hereinafter provided for with him and shall exhibit the same whenever required by any police or other officer authorized by the laws of the City and County of San Francisco. Every wholesale peddler peddling exclusively any of said commodities or products produced or grown by him shall, in addition to the foregoing requirements, and in lieu of a license number, print the word "grower" in letters of like height in connection with the lettering and figuring herein required, and the permit hereinafter provided for issued to every such peddler by the Chief of Police shall have the word "grower" printed in conspicuous letters thereon.

Section 4. It shall be unlawful for any person to engage in the calling of a wholesale peddler within said City and County without

having first obtained a permit from the Chief of Police thereof upon a written application and after a hearing thereon, and without first having filed a bond and paid the license fee provided for in this or other ordinances.

Section 5. Upon payment of the license fee to the Tax Collector of said City and County he shall issue a numbered license to such wholesale peddler, but no license shall be issued by the Tax Collector to any such wholesale peddler until and unless the aforementioned permit has been issued and such applicant shall have first filed with the Controller of the City and County of San Francisco, and the same has been approved by said Controller, a liability insurance policy or bond, executed by the applicant, as principal, and a surety company, qualified and authorized to do business in California, as surety, in the sum of $5,000, to adequately protect the interests of said City and County and the public in the particulars hereinafter set forth; which policy of insurance or other bond shall bind the obligors thereunder that such applicant shall fully comply with the provisions of this ordinance and with the provisions of all other applicable ordinances of said City and County and the statutes of the State of California regulating or concerning the sale of the commodities or products in this ordinance mentioned, by peddlers, and shall pay all judgments rendered against such applicant for any violation thereof to the person recovering such judgment, and shall pay all judgments rendered against the applicant for injuries to persons and loss or damage to property resulting from the negligent operation of the business of such peddler within said City and County of San Francisco, and shall pay all judgments recovered by any person against said applicant arising out of any misrepresentation or deception practiced upon any person transacting business with said applicant as such peddler within said City and County; and any person injured by such negligent operation of said business or having a claim or cause of action as herein provided shall have a right of action directly on said policy or bond.

Section 6. Sections 1, 2, 4 and 5 of this ordinance shall not apply to any grower or producer of any of the commodities specified herein who peddles said commodities or products produced and grown by him, except as in this section provided. Such grower or producer shall be required to obtain the permit herein provided for, but shall be entitled to such permit without the payment of said license fee; provided, however, that such grower or producer shall first file with the Chief of Police of the City and County of San Francisco, in connection with his application for a permit, an affidavit setting forth his name and address, the amount and variety of produce he proposes to sell, the place where said produce is grown or produced, and that said produce was actually grown and produced by him; provided, however, that any peddler, as herein defined, or grower, as herein defined, who shall engage in the business of such peddling, shall not remain in any one place upon a street, alley or sidewalk in the City and County of San Francisco, or between the same two (2) blocks on any street in the City and County of San Francisco, or opposite the same block on the same street in the City and County of San Francisco, or within the same block upon any alley in the City and County of San Francisco, or within the area of any market district where wholesalers of the commodities or products herein specified, having a fixed and established place of business, are concentrated for the purpose of transacting their business, in the City and County of San Francisco, for more than thirty (30) minutes at one time while actually engaging in such business of peddling.

Section 7. Any permit issued under and pursuant to the provisions of this ordinance shall remain in force for the period of one year from and after the date of its issuance unless sooner revoked, and any person, firm or corporation desiring to renew any permit issued pursuant to the provisions of this ordinance shall make application to the Chief of Police of the City and County of San Francisco for the renewal

thereof, which application for renewal shall be made in the same manner as for the issuance of said original permit.

Section 8. Any permit issued pursuant to the provisions of this ordinance may be revoked by the Chief of Police for any violation of the conditions of said permit or for any violation of this ordinance by the holder of said permit. Before any permit shall be revoked by the Chief of Police, notice in writing shall be given to the holder of said permit of the time and place of hearing the matter of the revocation of said permit, which said notice shall briefly state the reasons for revoking said permit, and shall be mailed to the holder of said permit at his place of business or residence, as the same appears on his application for said permit, and when said notice is so mailed the Chief of Police shall have power, upon hearing the matter of the revocation of said permit, to revoke the same or make any order in the premises as may be proper.

Section 9. Any person, firm or corporation that shall violate any of the provisions of this ordinance shall be guilty of a misdemeanor and, upon conviction thereof, shall be punished by a fine not to exceed five hundred ($500) dollars or by imprisonment in the County Jail for not more than six (6) months, or by both such fine and imprisonment. Each day or fraction thereof any person, firm, association or corporation shall be engaged in such business without a license shall be considered as a separate and distinct offense.

Section 10. If any section, subsection, sentence, clause or phrase of this ordinance is for any reason held to be unconstitutional, such decision shall not affect the validity of the remaining portions of this ordinance. The Board of Supervisors hereby declares that it would have passed this act and each section, subsection, sentence, clause and phrase thereof irrespective of the fact that any one or more other sections, subsections, sentences, clauses or phrases be declared unconstitutional.

Provided, however, that all horses, mules, asses and oxen, harnessed or saddled and in the actual custody and control, at the time, of some person or persons, and licensed dogs, except as provided in Section 15, are excepted from the operation of this section of this ordinance.

Section 4. Section 5. All animals so taken into the custody of the poundkeeper, and which, by reason of age, or disease, or other cause, are unfit for further use or dangerous to keep impounded, shall be forthwith destroyed by the poundkeeper.

Section 6. All sheep, lambs, goats or hogs not so destroyed and not reclaimed or redeemed within forty-eight (48) hours after the same are so impounded, shall be advertised for sale by the poundkeeper by written notice conspicuously posted at the entrance of the public pound for five (5) days after the expiration of said forty-eight (48) hours; and all colts and calves not so destroyed and not reclaimed or redeemed within forty-eight (48) hours after the same are so impounded shall be advertised for sale by the poundkeeper by written notice conspicuously posted at the entrance of the public pound for five (5) days after the expiration of said forty-eight (48) hours, and shall also be advertised for sale by a notice published for one (1) day within said period of five (5) days in the official newspaper of said City and County; and all horses, mares, mules, asses, oxen, cows or bulls not so destroyed and not reclaimed or redeemed within forty-eight (48) hours after the same are so impounded shall be advertised for sale by the poundkeeper by written notice conspicuously posted at the entrance of the public pound for twelve (12) days after the expiration of said period of forty-eight (48) hours and shall also be advertised as being impounded by a notice published for three (3) consecutive days within said period of twelve (12) days in a daily newspaper published in said City and County, and shall also be advertised for sale by a notice published for one (1) day within said period of

twelve (12) days in the official newspaper of said City and County. Immediately after due advertisement as provided in this section, and at the hour of twelve (12) o'clock noon on the date stated in said notices, respectively, the poundkeeper shall sell all animals so advertised, at public auction at the public pound, to the highest bidder for cash.

Section 7. It shall be the duty of every police officer, while on duty, to take up and deliver to the public pound or to place in any stable that may be designated by the Chief of Police, any horse, mare, colt, mule, ass, cow or bull found running at large or trespassing on any private enclosure within the City and County of San Francisco, and to immediately notify the poundkeeper in case any such animal be so placed in any stable, and it shall be the duty of any person in charge of such stable to immediately notify the poundkeeper and to release such animal to the poundkeeper upon his demand and the payment of one dollar at any time within twenty-four (24) hours after such animal is so placed therein and such notice given. Any person may take up and deliver to the public pound any animal which the poundkeeper is, by the provisions of this ordinance, required to impound.

Section 8. Any animal found trespassing on any private enclosure in this City and County may be taken up by any person and delivered to the poundkeeper.

Section 9. Every person, other than a police officer, taking up any animal under the provisions of Sections 7 and 8 of this ordinance, shall immediately thereafter give notice thereof to the poundkeeper, and every such person and any person in whose custody such animal may, in the meantime, be placed shall deliver such animal to the poundkeeper without fee or charge; and the poundkeeper shall thereupon hold and dispose of such animal in the same manner as though such animal had been found running at large and impounded by him.

Section 10. The owner or person entitled to the custody of any animal so impounded may, at any time before the sale or other disposition thereof, reclaim or redeem the same by paying to the poundkeeper all fines and charges imposed thereon, as provided for herein.

Section 11. The poundkeeper shall seize and impound every dog found running at large or found upon any public highway or street, or alley, or court, or place, or public square, or public grounds or upon any unfenced lot or not within a sufficient enclosure within the City and County of San Francisco, whether in the immediate presence of the owner or otherwise; provided, however, that, except as provided in Section 15 of this ordinance, no such seizure or impounding shall be made of any dog led by a string, rope or chain, or having around its neck or leg a license tag showing that such dog is duly licensed as required by any ordinance of the City and County of San Francisco.

Section 12. The poundkeeper shall keep any dog so impounded for a period of ninety-six (96) hours, unless the same be sooner reclaimed or redeemed by the owner or person having control thereof as hereinafter provided. Such redemption shall be made by exhibiting to the poundkeeper the license certificate or license tag issued by the Tax Collector, showing that the license for such dog for the then current fiscal year has been paid, and by paying to the poundkeeper the fine and charges hereinafter provided for. Upon such redemption being made the poundkeeper shall release such dog; provided, however, that if the license for any such dog for the then current fiscal year was actually paid prior to the date of the impounding of such dog, and there shall be exhibited to the poundkeeper as evidence of such payment said certificate or license tag, the fine hereinafter provided for in subdivision 3 of Section 18 of this ordinance shall be remitted, but in all cases the charges hereinafter provided for keeping such dog must be paid.

Section 13. At any time after the expiration of said period of ninety-six (96) hours the poundkeeper may, without further notice, and with-

out advertising in any manner, sell at private sale or public auction, to the highest bidder, for cash, any dog not so reclaimed or redeemed as aforesaid. All dogs impounded and not so reclaimed, redeemed or sold shall forthwith be destroyed by the poundkeeper. The owner of any dog at the time it is so impounded may, at any time within thirty (30) days after such sale, redeem the same from such purchaser by paying to him the amount of the purchase price paid by him to the poundkeeper, and in addition thereto a sum equal to twenty-five (25) cents per day for the number of days from the date of sale to and including the date of such redemption.

Section 14. It shall be the duty of every person who shall take into his possession any stray dog or any dog not owned by him or not placed in his possession by the person having the lawful custody and control thereof, immediately to notify the keeper of the public pound and to release such dog to the poundkeeper upon demand and without charge. If there shall be attached to such dog a license tag for the then current fiscal year, said poundkeeper shall notify in writing the person to whom such license was issued, at the address given in said license certificate, and shall, upon demand made within twenty-four (24) hours thereafter, and without charge, release such dog to such person; provided, however, that if no person lawfully entitled to such dog shall, within nine days after the date of giving said last-mentioned notice, appear at the public pound and claim such dog, such dog may be sold or destroyed by the poundkeeper in the manner hereinabove provided for unlicensed dogs.

If there is no license tag for the current fiscal year attached to any dog surrendered to the poundkeeper as provided herein, and such dog has not been redeemed by its owner within ninety-six (96) hours from the time of impounding such dog, the poundkeeper may return such dog to the person who surrendered such dog, provided that such person procures a license for such dog for the current fiscal year.

The owner of any dog at the time it is so impounded may, at any time within thirty (30) days after such dog has been returned to the person surrendering such dog to the poundkeeper, redeem the same from such person by paying to him the amount he paid for the license tag, and in addition thereto a sum equal to twenty-five (25) cents per day for the number of days from the date of receiving such dog from the poundkeeper, to and including the date of such redemption.

Section 15. It shall be unlawful for the owner or person having control of any dog to suffer or permit the same, under any circumstances, to run at large in any public park or public square or to suffer or permit any female dog to run at large while said dog is in the copulating season, and every dog found running at large in violation of the provisions of this section shall be immediately seized and impounded in the public pound.

Section 16. If any dog within the City and County of San Francisco is known to be vicious or dangerous to the safety of any person or animal, and the owner or person having control of such dog shall allow such dog to run at large, after being notified in writing by the Director of Public Health to keep such dog within a secure enclosure unless such dog is adequately muzzled, such owner or person having control of such dog shall be guilty of a misdemeanor.

If any dog within the City and County of San Francisco shall bite any person or animal, and the person or animal so bitten was not at the time trespassing upon the person or property of the owner or person having control of such dog, or if it cannot be proved beyond a reasonable doubt that the person so bitten was provoking or teasing such dog without cause, the owner or person having control of such dog shall be deemed guilty of a misdemeanor, and, upon conviction thereof, shall be punishable as herein provided; and if upon the trial of any such person the court shall determine that such dog is vicious or dangerous to persons or other animals, the court may order that such dog be muzzled, or that such dog be kept within a sufficient

enclosure, or that such dog be delivered to the poundkeeper and by him destroyed. Upon written notice by the Director of Public Health, the owner or person having control of any dog which has within the preceding seventy-two hours bitten any person or animal, shall, upon demand, surrender such dog to the poundkeeper, who shall impound and keep such dog at the public pound, in a separate kennel, for a period not less than fourteen days; during said period it shall be the duty of the Director of Public Health, upon being notified by the poundkeeper that such dog has been impounded, to determine whether or not such dog is suffering from any disease. If the Director of Public Health shall determine that such dog is diseased and, by reason of such disease, is dangerous to persons or to other animals, he shall so notify the poundkeeper, in writing, to destroy such dog. A copy of said notice may also be served upon the owner or person having control of such dog. If the Director of Public Health shall determine that such dog is not so diseased, and if the license required for such dog shall have been duly paid for the then current fiscal year, the poundkeeper shall notify by mail the person to whom the license for such dog was issued and at the address from which the dog was surrendered to the poundkeeper, and shall, upon demand, release such dog to the owner or person lawfully entitled thereto, upon payment of twenty-five cents per day for the keep of such dog; provided, however, that if no person lawfully entitled to such dog shall, within five days after the date of giving said last-mentioned notice, appear at the public pound and request the release of such dog, and pay said charges, such dog may be sold or destroyed by the poundkeeper in the same manner hereinabove provided.

Section 17. The poundkeeper shall provide all animals in his custody with proper food and water, and shall give them all necessary care and attention.

Section 18. The fines and charges upon animals impounded shall be as follows:

1. For every horse, mare, mule, ass, ox, cow, bull, colt or calf over the age of six months, a fine of four dollars and an additional charge as follows: One dollar per day for keeping, and of one dollar additional if advertised, and of one dollar if received from a stable, as hereinafter provided.

2. For every colt or calf under the age of six months, and for every sheep, lamb, goat or hog, a fine of two dollars and a charge of fifty cents per day for keeping, and of one dollar additional if advertised.

3. For every unlicensed dog, a fine of two dollars and fifty cents and a charge of twenty-five cents per day for keeping.

4. For every licensed dog impounded in violation of any of the provisions of this ordinance, a fine of one dollar and a charge of twenty-five cents a day for keeping.

5. For every other animal, a fine of two dollars and fifty cents and a charge of fifty cents per day for keeping.

Section 19. No animal shall, under any circumstances, be released by the poundkeeper or his deputies until all the fines and charges imposed thereon, as provided by this ordinance, shall have been paid. Provided, however, that if it shall be made to appear to the poundkeeper that any of the animals impounded by him, mentioned in subdivision 1 of the preceding section, have broken out, or were let out, of the fenced enclosure of the owner without fault on his part, the poundkeeper shall release the said animals without charge. If the said poundkeeper refuses to release any such animal, and the owner pays the demanded charges, the owner may apply by petition to the Board of Supervisors to have such charges refunded, and the Board of Supervisors shall order the repayment, without cost to the owner, of the charges so paid if it shall appear that the said animals broke out, or were let out, of the fenced enclosure of the owner without fault on his part.

Section 20. The poundkeeper shall keep a record of the number,

description and disposition of all animals impounded, showing in detail in the case of each animal the date of receipt, the date and manner of disposal, the manner and time of advertising for sale, the name of the person reclaiming, redeeming or purchasing, the reason for destruction, and the fines and charges and proceeds of sales received on account thereof, and such additional records as the Controller may prescribe. Such records shall be kept by the poundkeeper in a book or books provided for that purpose, which shall be the record book or books of the office of the poundkeeper and shall not be removed therefrom except upon written order from a duly constituted authority.

Section 21. (1) All moneys received by the poundkeeper as provided for herein shall be deposited in the General Fund and shall be by him delivered daily to the Treasurer of the City and County of San Francisco in accordance with the provisions of the Charter of said City and County.

(2) The poundkeeper shall file with the Controller of the City and County of San Francisco such reports under oath as the Controller may require.

Section 22. The poundkeeper may at any time appoint, at his own expense, as in Section 25 hereof provided, as many deputy poundkeepers as he may require to properly discharge the duties required of him by this ordinance. The authority of the said deputy poundkeepers shall be the same as the authority of the poundkeeper himself as to apprehending, taking up, arresting, catching, driving to and receiving into the public pound any of the animals named in any of the sections of this ordinance.

Section 23. The poundkeeper and his deputies, while engaged in the execution of their duties, shall each wear in plain view a badge having in the case of the poundkeeper, the word "Poundkeeper," and in the case of the deputy poundkeeper the words "Deputy Poundkeeper," engraved thereon.

Section 24. It shall be unlawful for any person to resist or obstruct the poundkeeper or any of his deputies in the exercise of his duties as such poundkeeper or deputy poundkeeper.

Section 25. The poundkeeper shall not receive any stated salary as compensation for the performance of the duties of his office, but in lieu of salary he shall be entitled to be paid monthly 1/12th of such moneys as the Board of Supervisors may annually set aside for this purpose, subject to the provisions of the Annual Appropriation Ordinance, out of which the poundkeeper shall pay all necessary expenses of the said public pound, including rent of public pound, payment for the service of his deputies, subsistence for animals impounded, and all other expenses connected with the equipment and maintenance of the said public pound, and the impounding and disposal of animals impounded.

Section 26. The poundkeeper, within five days after his appointment, and before entering upon the discharge of his official duties, shall give and execute to the City and County of San Francisco his official bond in the sum of five thousand dollars, conditioned for the faithful performance of his official duties as such poundkeeper, with two or more sureties to be approved by the Mayor and Controller of the City and County of San Francisco, which official bond, when approved, shall be recorded, at the expense of the poundkeeper, in the office of the Recorder of the City and County of San Francisco, in the Records of Official Bonds, and shall thereafter be filed and kept in the office of the Controller of said City and County.

Section 27. If the poundkeeper, or anyone in his employ, shall knowingly sell or give any impounded animal to any person, firm, corporation, association, medical college or university of the State for the purpose of animal experimentation, the offender shall be guilty of a misdemeanor and, upon conviction thereof, shall be punished by a fine of not exceeding five hundred ($500) dollars or by imprisonment in the County Jail not exceeding six (6) months, or by both such fine and imprisonment.

Any person buying, obtaining, or receiving any animal from the public pound who shall sell, give or deliver such animal to any person, firm, corporation, association, medical college or university of the State for the purpose of animal experimentation, shall be guilty of a misdemeanor and, upon conviction thereof, shall be punished by a fine not exceeding five hundred ($500) dollars or by imprisonment in the County Jail for not more than six (6) months, or by both such fine and imprisonment.

Section 28. If any section, subsection, sentence, clause or phrase of this ordinance is for any reason held to be unconstitutional or invalid, such decision shall not affect the remaining portions of this ordinance. The Board of Supervisors hereby declares that it would have passed this ordinance and each section, subsection, sentence, clause and phrase thereof irrespective of the fact that any one or more other sections, subsections, sentences, clauses or phrases be declared unconstitutional or invalid.

Section 29. Any person violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor, and, upon conviction thereof, shall be punished by a fine of not less than five (5) dollars nor more than fifty (50) dollars, or by imprisonment in the County Jail not less than twenty-four (24) hours nor more than ten (10) days, or by both such fine and imprisonment.

Section 30. Ordinance No. 3276 (New Series) and Ordinance No. 5190 (New Series) and all ordinances or parts of ordinances in conflict herewith are hereby repealed to the extent of such conflict.

EXPLANATION.

This ordinance is practically the same as the existing ordinance, but the location of the sections in the ordinance has been changed to provide sequence and clarity.

In Section 4, after word "San Francisco," superfluous words, "in violation of the provisions of Section 3 of this ordinance," are stricken out.

In Section 14 a new paragraph is added. It provides that anyone who has found a stray unlicensed dog and has surrendered it to the poundkeeper to be held for four days, may obtain possession of the dog, if not redeemed by the owner, by purchasing a license for such dog. The owner within thirty days would have an opportunity of redeeming the dog from the person who surrendered the same to the poundkeeper, under conditions provided.

Section 16 provides that all dogs under quarantine shall be held in the public pound and the period of observation extended from ten to fourteen days. This was recommended by the Director of Health.

Section 18. In subdivision (1) the charge of $1 in the existing ordinance for arresting and driving has been added to the $3 fine, the words "arresting and driving," being unnecessary, are omitted.

In subdivision (2) the charge of fifty cents in the existing ordinance for arresting and driving has been added to the $1.50 fine, the words "arresting and driving" are omitted.

Subdivision 4 is a new section and provides a fine of $1 for a licensed dog impounded in violation of Section 15.

Section 20 has been amended by adding the words "and such additional records as the Controller may prescribe."

Section 21 has been amended as required by the Controller.

Section 23. Unnecessary words referring to the kind of a badge to be worn by a deputy have been omitted.

Section 25 was amended as directed by the Controller to conform with the requirements of the Charter.

All matter in Section 26 is included in Section 25, and Section 27 is numbered Section 26.

Section 27 refers to any section, sentence, etc., of the ordinance should it be held to be unconstitutional.

Proposed Constitutional Amendment to License Fire Insurance Companies.

(Code No. 3.041)

Supervisor McSheehy presented:

Resolution No. 404, as follows:

Whereas, the provisions of subdivision (b), Section 14, Article XIII, of the Constitution of the State of California inhibits the imposition of a license tax upon fire insurance companies or associations doing business in the City and County of San Francisco; and

Whereas, such companies and associations pay a tax to the said State, the amount of which is based on the rate of $2.60 per hundred on gross premiums, and from which amount is deducted the sum of any county and municipal taxes paid by such companies on real estate owned by them in this State; and

Whereas, the gross receipts of such companies and associations doing business in this State for the past ten years were $407,093,765, and the fire losses paid out during the said period were $172,766,759, a profit of $234,327,006 was earned; and

Whereas, the fire insurance companies and associations doing business in this City and County are the beneficiaries of at least ninety per cent of all services furnished by the Fire Department and the Fire Prevention Bureau; and

Whereas, the maintenance cost of the said department for the fiscal year 1932-33 is $3,285,314, and the cost of the same for the past ten years has been $31,862,894, and the costs of the said bureau amount to $49,000 annually; and

Whereas, said companies and associations, even though benefiting tremendously by the aforesaid services, do not contribute any part of said costs to the said City and County above that which is paid in the form of taxes upon real property situated in the City and County; and

Whereas, cities and counties of the State of California similarly circumstanced are confronted with a like problem of furnishing expensive services without contribution by the largest recipient of the same; now, therefore, be it

Resolved, That the matter of initiating legislation directed toward an amendment of the aforesaid subdivision of Section 14, Article XIII of the Constitution be referred to the Judicial Committee of this Board, and that the major cities of the State be invited to a consideration of this vital problem.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. The Board of Directors of the Golden Gate Bridge and Highway District having, during the month of July of the year 1932, determined the amount necessary to be raised by taxation for the purpose of investigating the Golden Gate Bridge prior to the issuance of bonds for the construction of the same, and for the payment of the officers and employees of the district prior to the time when the works of the district are earning revenue, all for the fiscal year 1932-1933, and having fixed the rate necessary to raise the amount so determined at the sum of 2½ cents on each $100 of the assessed valuation of property within the said district, and having certified to the Board of Supervisors of the City and County of San Francisco the rate so fixed and directed the said Board to levy a tax of 2½ cents on each $100 of taxable property within the City and County of San Francisco for the purposes hereinbefore set forth.

Consideration of Tax Rate (Continued).

Supervisor Peyser renewed his amendment to the tax rate ordinance, striking out last paragraph, entitled "Compulsory Golden Gate Bridge Tax, $0.025000," making the total $3.965 instead of $3.99.

Motion *carried* by the following vote:

Ayes—Supervisors Breyer, Canepa, Colman, Gallagher, Havenner, Hayden, McSheehy, Miles, Peyser, Power, Roncovieri, Shannon, Spaulding, Stanton—14.

Amendment.

Supervisor Gallagher, seconded by Supervisor Roncovieri, moved to add, after the item "For Publicity and Advertising," the following: "For the Purchase of Land and the Establishment of Live Stock Pavilion, $0.040000."

President Hayden requested that the City Attorney's opinion as to the legality of the proposed amendment be read.

Supervisor Gallagher objected.

Supervisor Peyser rose to a question of information and asked the City Attorney for his opinion as to the legality of the proposed amendment.

Supervisor Gallagher raised a point of order.

The chair ruled that Supervisor Peyser's question for information was in order.

Supervisor Gallagher appealed from the decision of the chair.

Supervisor Shannon, being asked by the chair, put the question: "Shall the decision of the chair be the decision of the Board? A vote *aye* sustains the chair; a vote *no* overrules the chair."

The decision of the chair was *overruled* by the following vote:

Ayes—Supervisors Colman, Havenner, Miles, Peyser—4.

Noes—Supervisors Breyer, Canepa, Gallagher, McSheehy, Power, Roncovieri, Spaulding, Stanton—8.

Absent—Supervisor Brown—1.

Excused from Voting—Supervisors Hayden, Shannon—2.

Privilege of the Floor.

City Attorney John J. O'Toole was then heard in response to a question from Supervisor Shannon.

"As to the power of the Board of Supervisors to make this contribution at this time, under Section 4056B of the Political Code, it is very doubtful.

"As to the power of the Board of Supervisors to put into the tax rate any item not already provided for in the Budget is also very doubtful.

"The passing of such an appropriation at this time circumvents the purposes of the Budget. When you have completed your Budget," he said, "your powers of appropriation are at an end.

"The Sunnyvale and Marin bombing base appropriations were made from unappropriated moneys in the hands of the Board of Supervisors."

RECESS.

Whereupon, at the hour of 6:45 p. m., the Board of Supervisors took a recess until 8 p. m., when, on motion of Supervisor Gallagher, there was to be a call of the Board.

The following communications were read by the Clerk:

Opinion of City Attorney, Addressed to Supervisor J. Emmet Hayden.

September 1, 1932.

Subject: In re making provision in tax rate for items not included in annual Budget.

Dear Sir: I have before me your request that I advise you if it is possible to provide in the tax rate about to be fixed by the Board of Supervisors for a sum which might be applied to aid in the construction of a so-called "Agricultural Exposition Building" for the use of Number 1A Agricultural District Association. I understand that an effort was made to include such an item in the Annual Budget and Appropriation Ordinance while that matter was before the Board of Supervisors, but that the effort was not successful.

Opinion.

While, for the purpose of the instant case, it may not be necessary to determine whether the item for the purpose mentioned could be included in the Annual Budget as proper expenditure of the funds of the City and County, it will not be amiss to give consideration to the powers of the Board to make such an appropriation in the Annual Budget and Appropriation Ordinance.

Agricultural districts are formed under the General Laws of the State, to-wit, the Act of April 17, 1909, Statutes 1909, page 979. The only provision in the State law which authorizes counties to make contributions to such associations is found in Section 4056B of the Political Code. This section authorizes the Board of Supervisors, by a two-thirds vote, to levy a tax, not exceeding four cents upon the hundred, for the following purposes:

(a) "For the purpose of creating a fund for collecting, preparing

and maintaining an exhibition of the products and industries of the county at any domestic or foreign exhibition."

(b) "For contribution to the support of any local fair or exhibition of industrial, agricultural, horticultural, viticultural or pastoral products maintained by any public agency, County Agricultural Association, etc. . . . Such contribution to be used by such agency for the general conduct of such fair or exhibition, including its giving of premiums, etc."

While the foregoing is merely a synopsis of the section mentioned, it can be seen therefrom that there is no direct authority contained in it which authorizes a county to contribute to the construction of buildings as is desired in the instant case. The fact that the amount to be raised cannot exceed four cents upon each one hundred dollars of the assessed valuation of the property in the county would lead one to believe that, in a majority of the counties of the State, the amount produced by the rate mentioned would be insufficient to do more than possibly provide for the exhibition and for its maintenance.

However, notwithstanding this uncertainty, if the matter were referred to me while the Budget was under consideration, I would be compelled to advise the Board to the effect that, while there would be some doubt as to the legality of an appropriation for this particular purpose, it might be included in the Budget and a tax then levied in conformity with Section 4056B of the Political Code, and leave the validity of the tax to the court should it be questioned. In other words, I am not prepared to say that such a tax would be illegal if it had a proper foundation in the Budget.

But I am of the opinion that as an appropriation for the desired purpose was not included in the Annual Appropriation Ordinance, it cannot be now included in the tax rate. There is a very definite procedure laid down in the Charter which governs the preparation and adoption of the Annual Budget—Sections 72 to 78, inclusive. When the Budget is submitted to the Mayor he may revise it by striking out or reducing items of proposed expenditure, or adding thereto for capital expenditures or for public improvements. It then goes to the Board of Supervisors, who have practically like power over it; and if the Board adds to it items for public improvements or capital expenditures, the Mayor has the right to veto the same; and if he does, the Board may, by a specified vote, overrule the veto. When the Budget is finally settled it becomes the basis for the tax levy. See Section 78, Charter.

In the instant case, upon consideration of the Budget, the appropriation for the purposes mentioned was presented, but did not receive the approval of a majority of the Board. If it did, the Mayor would have had the right to veto it, if he desired to do so. To now make provision for a like amount in the tax rate would take away from the Mayor has power to veto this particular item, for he must approve or veto the tax levy as a whole and cannot veto the individual items thereof.

From the foregoing it can be seen that our Charter contemplates a complete Budget and makes this the basis for the tax levy, and items which might or might not have been included in the Budget cannot be given consideration in fixing the tax rate. If the items are mandatory, a different rule will apply, but when discretionary they must first be provided for in the Budget before they can be made the basis of a tax levy.

I regret that I cannot reach a conclusion which would permit the carrying out at this time of a project of much benefit to the City, but I must construe the law as I see it.

Sincerely,

JOHN J. O'TOOLE, City Attorney.

From San Francisco Bureau of Governmental Research.

September 1, 1932.

To the Honorable Board of Supervisors, City and County of San Francisco, City Hall, San Francisco, Calif.

Gentlemen: Relative to the proposal announced in the press that the tax rate be increased by four or five cents to provide for the purposes of agricultural district lands and buildings, we would suggest that opinion be secured from the City Attorney as to the legality of the proposed action. Under Section 78 of the Charter the Supervisors are required to levy a tax which "will be sufficient to meet all appropriations made by the Annual Appropriation Ordinance." The proposed appropriation of $350,000 for the purposes of Agricultural District No. 1-A was debated by the Board of Supervisors in the Board's consideration of the 1932-1933 Budget and Appropriation Ordinance as proposed by the Mayor, at which time the Board of Supervisors, under Section 72 of the Charter, was authorized to "increase or insert appropriations for capital expenditures and public improvements." After such discussion the proposed appropriation was voted down.

The only additional appropriation power vested in the Board of Supervisors under the Charter is in accordance with the provisions of Section 80, and is limited to supplemental appropriations of any surpluses that exist or are created during the fiscal year. As to powers granted by General Law to county boards of supervisors to aid expositions of this character, the City Attorney's opinion should be requested as to whether such powers extend to the use of funds for the purchase of real estate and the construction of buildings.

From the standpoint of present need of retrenchment, the Bureau of Governmental Research believes that the proposed appropriation, worthy as the project may be, cannot be justified at this time. During the recent campaign for the unemployment relief bonds, much opposition was encountered in the earlier stages on the basis that the City had not sufficiently retrenched in City and County expenditures and that retrenchment efforts already effective should be materially extended so that a larger part of the burden for unemployment relief could be met out of this year's tax funds, and thus reduce the amount of the proposed bond issue. The continuation and extension of retrenchment efforts is necessary in view of the economic situation, and such continuation and extension may make additional funds available for unemployment relief purposes and thus permit of the $6,500,000 unemployment relief bond issue to be used over a longer period than was originally contemplated.

The Mayor and the Manager of Utilities, in formulating the 1932-1933 Budget, transferred the greatest possible amount of Water Department surplus revenues for the purpose of reducing the tax rate. As a result, one item of proposed expenditure—$450,000, which would have saved $94,000 a year in pumping costs—was eliminated. It is probable that had the Mayor and the Public Utilities Commission assumed that the elimination of this $450,000 item in the Budget would make possible the diversion at this time of $350,000 for the proposed live stock exposition grounds and buildings, without increase in the tax rate, the $450,000, promising an annual return of over 20 per cent on the investment would have been retained in the Budget.

Many other items of retrenchment, including reduction in compensations, elimination of positions and curtailment of services, were also effected by the Mayor and the Board of Supervisors in the preparation and adoption of the current year's Budget. From the standpoint of retrenchment, the wisdom of these reductions may be questioned if the amount of such reduction is simply to be applied to another purpose which, no matter how desirable it may be, is not an absolute necessity at this time.

During the discussion of the proposed $350,000 appropriation before the Board of Supervisors, it was stated that although the Legislature

has appropriated $250,000 for this purpose, there is grave question, in view of the present condition of State finances, that such State appropriation will be available even if the City and County appropriate the $350,000 requested.

The Bureau of Governmental Research respectfully suggests that the Supervisors secure from the City Attorney opinion as to the legality of the proposed appropriation by the Board of Supervisors at this time. In addition, the Bureau believes that in view of the condition of the times, consideration of the proposed project and the City and County appropriation therefor should be postponed. With the return of more prosperous times, which all hope will be in the near future, cannot San Francisco then give consideration to financing this and other equally desirable projects, and at such time give consideration to financing the entire cost if State aid is not then available?

Respectfully submitted,

SAN FRANCISCO BUREAU OF GOVERNMENTAL RESEARCH.
WM. H. NANRY, Director.

From Adolph Uhl.

September 1, 1932.

Hon. Andrew J. Gallagher, Supervisor, City and County of San Francisco, City Hall, San Francisco.

Dear Supervisor: It is my understanding that in event the relief bonds carried there would be released from the Budget several hundred thousand dollars, covering the million-dollar item for unemployed relief, and that the tax rate would be further reduced by this amount. Such being the case, and since the bonds have carried, I would urge that the Supervisors appropriate the sum necessary to secure for San Francisco the Live Stock Exhibit, which amount, I understand, is $350,000, and no further obligation on part of the City and County of San Francisco.

The Live Stock Exhibit will bring thousands of visitors to San Francisco annually and upward of a million dollars will flow through the channels of trade because of same.

A large amount of employment will be needed in the leveling of the grounds and erection of contemplated buildings. That is desirable, and I believe it will remove the objection to a slight increase of approximately four cents in the tax rate to cover the City's obligation, but which tax rate will not increase the rate beyond $4.04.

Regarding the location. I hope that consideration will be given to purchasing the seventy acres at Bay Point, along with the submerged lots, and that the unemployed be given work to reclaim these submerged lands by tearing down the hill at Bay View Point.

Yours truly,

ADOLPH UHL.

Provided, however, that all horses, mules, asses and oxen, harnessed or saddled and in the actual custody and control, at the time, of some person or persons, and licensed dogs, except as provided in Section 15, are excepted from the operation of this section of this ordinance.

Section 4. Section 5. All animals so taken into the custody of the poundkeeper, and which, by reason of age, or disease, or other cause, are unfit for further use or dangerous to keep impounded, shall be forthwith destroyed by the poundkeeper.

Section 6. All sheep, lambs, goats or hogs not so destroyed and not reclaimed or redeemed within forty-eight (48) hours after the same are so impounded, shall be advertised for sale by the poundkeeper by written notice conspicuously posted at the entrance of the public pound for five (5) days after the expiration of said forty-eight (48) hours; and all colts and calves not so destroyed and not reclaimed or redeemed within forty-eight (48) hours after the same are so impounded shall be advertised for sale by the poundkeeper by written notice conspicuously posted at the entrance of the public pound for five (5) days after the expiration of said forty-eight (48) hours, and shall also be advertised for sale by a notice published for one (1) day within said period of five (5) days in the official newspaper of said City and County; and all horses, mares, mules, asses, oxen, cows or bulls not so destroyed and not reclaimed or redeemed within forty-eight (48) hours after the same are so impounded shall be advertised for sale by the poundkeeper by written notice conspicuously posted at the entrance of the public pound for twelve (12) days after the expiration of said period of forty-eight (48) hours and shall also be advertised as being impounded by a notice published for three (3) consecutive days within said period of twelve (12) days in a daily newspaper published in said City and County, and shall also be advertised

for sale by a notice published for one (1) day within said period of twelve (12) days in the official newspaper of said City and County. Immediately after due advertisement as provided in this section, and at the hour of twelve (12) o'clock noon on the date stated in said notices, respectively, the poundkeeper shall sell all animals so advertised, at public auction at the public pound, to the highest bidder for cash.

Section 7. It shall be the duty of every police officer, while on duty, to take up and deliver to the public pound or to place in any stable that may be designated by the Chief of Police, any horse, mare, colt, mule, ass, cow or bull found running at large or trespassing on any private enclosure within the City and County of San Francisco, and to immediately notify the poundkeeper in case any such animal be so placed in any stable, and it shall be the duty of any person in charge of such stable to immediately notify the poundkeeper and to release such animal to the poundkeeper upon his demand and the payment of one dollar at any time within twenty-four (24) hours after such animal is so placed therein and such notice given. Any person may take up and deliver to the public pound any animal which the poundkeeper is, by the provisions of this ordinance, required to impound.

Section 8. Any animal found trespassing on any private enclosure in this City and County may be taken up by any person and delivered to the poundkeeper.

Section 9. Every person, other than a police officer, taking up any animal under the provisions of Sections 7 and 8 of this ordinance, shall immediately thereafter give notice thereof to the poundkeeper, and every such person and any person in whose custody such animal may, in the meantime, be placed shall deliver such animal to the poundkeeper without fee or charge; and the poundkeeper shall thereupon hold and dispose of such animal in the same manner as though such animal had been found running at large and impounded by him.

Section 10. The owner or person entitled to the custody of any animal so impounded may, at any time before the sale or other disposition thereof, reclaim or redeem the same by paying to the poundkeeper all fines and charges imposed thereon, as provided for herein.

Section 11. The poundkeeper shall seize and impound every dog found running at large or found upon any public highway or street, or alley, or court, or place, or public square, or public grounds or upon any unfenced lot or not within a sufficient enclosure within the City and County of San Francisco, whether in the immediate presence of the owner or otherwise; provided, however, that, except as provided in Section 15 of this ordinance, no such seizure or impounding shall be made of any dog led by a string, rope or chain, or having around its neck or leg a license tag showing that such dog is duly licensed as required by any ordinance of the City and County of San Francisco.

Section 12. The poundkeeper shall keep any dog so impounded for a period of ninety-six (96) hours, unless the same be sooner reclaimed or redeemed by the owner or person having control thereof as hereinafter provided. Such redemption shall be made by exhibiting to the poundkeeper the license certificate or license tag issued by the Tax Collector, showing that the license for such dog for the then current fiscal year has been paid, and by paying to the poundkeeper the fine and charges hereinafter provided for. Upon such redemption being made the poundkeeper shall release such dog; provided, however, that if the license for any such dog for the then current fiscal year was actually paid prior to the date of the impounding of such dog, and there shall be exhibited to the poundkeeper as evidence of such payment said certificate or license tag, the fine hereinafter provided for in subdivision 3 of Section 18 of this ordinance shall be remitted, but in all cases the charges hereinafter provided for keeping such dog must be paid.

Section 13. At any time after the expiration of said period of ninety-six (96) hours the poundkeeper may, without further notice, and without advertising in any manner, sell at private sale or public auction, to the highest bidder, for cash, any dog not so reclaimed or redeemed as aforesaid. All dogs impounded and not so reclaimed, redeemed or sold shall forthwith be destroyed by the poundkeeper. The owner of any dog at the time it is so impounded may, at any time within thirty (30) days after such sale, redeem the same from such purchaser by paying to him the amount of the purchase price paid by him to the poundkeeper, and in addition thereto a sum equal to twenty-five (25) cents per day for the number of days from the date of sale to and including the date of such redemption.

Section 14. It shall be the duty of every person who shall take into his possession any stray dog or any dog not owned by him or not placed in his possession by the person having the lawful custody and control thereof, immediately to notify the keeper of the public pound and to release such dog to the poundkeeper upon demand and without charge. If there shall be attached to such dog a license tag for the then current fiscal year, said poundkeeper shall notify in writing the person to whom such license was issued, at the address given in said license certificate, and shall, upon demand made within twenty-four (24) hours thereafter, and without charge, release such dog to such person; provided, however, that if no person lawfully entitled to such dog shall, within nine days after the date of giving said last-mentioned notice, appear at the public pound and claim such dog, such dog may be sold or destroyed by the poundkeeper in the manner hereinabove provided for unlicensed dogs.

If there is no license tag for the current fiscal year attached to any dog surrendered to the poundkeeper as provided herein, and such dog has not been redeemed by its owner within ninety-six (96) hours from the time of impounding such dog, the poundkeeper may return such dog to the person who surrendered such dog, provided that such person procures a license for such dog for the current fiscal year.

The owner of any dog at the time it is so impounded may, at any time within thirty (30) days after such dog has been returned to the person surrendering such dog to the poundkeeper, redeem the same from such person by paying to him the amount he paid for the license tag, and in addition thereto a sum equal to twenty-five (25) cents per day for the number of days from the date of receiving such dog from the poundkeeper, to and including the date of such redemption.

Section 15. It shall be unlawful for the owner or person having control of any dog to suffer or permit the same, under any circumstances, to run at large in any public park or public square or to suffer or permit any female dog to run at large while said dog is in the copulating season, and every dog found running at large in violation of the provisions of this section shall be immediately seized and impounded in the public pound.

Section 16. If any dog within the City and County of San Francisco is known to be vicious or dangerous to the safety of any person or animal, and the owner or person having control of such dog shall allow such dog to run at large, after being notified in writing by the Director of Public Health to keep such dog within a secure enclosure unless such dog is adequately muzzled, such owner or person having control of such dog shall be guilty of a misdemeanor.

If any dog within the City and County of San Francisco shall bite any person or animal, and the person or animal so bitten was not at the time trespassing upon the person or property of the owner or person having control of such dog, or if it cannot be proved beyond a reasonable doubt that the person so bitten was provoking or teasing such dog without cause, the owner or person having control of such dog shall be deemed guilty of a misdemeanor, and, upon conviction thereof, shall be punishable as herein provided; and if upon the trial

of any such person the court shall determine that such dog is vicious or dangerous to persons or other animals, the court may order that such dog be muzzled, or that such dog be kept within a sufficient enclosure, or that such dog be delivered to the poundkeeper and by him destroyed. Upon written notice by the Director of Public Health, the owner or person having control of any dog which has within the preceding seventy-two hours bitten any person or animal, shall, upon demand, surrender such dog to the poundkeeper, who shall impound and keep such dog at the public pound, in a separate kennel, for a period not less than fourteen days; during said period it shall be the duty of the Director of Public Health, upon being notified by the poundkeeper that such dog has been impounded, to determine whether or not such dog is suffering from any disease. If the Director of Public Health shall determine that such dog is diseased and, by reason of such disease, is dangerous to persons or to other animals, he shall so notify the poundkeeper, in writing, to destroy such dog. A copy of said notice may also be served upon the owner or person having control of such dog. If the Director of Public Health shall determine that such dog is not so diseased, and if the license required for such dog shall have been duly paid for the then current fiscal year, the poundkeeper shall notify by mail the person to whom the license for such dog was issued and at the address from which the dog was surrendered to the poundkeeper, and shall, upon demand, release such dog to the owner or person lawfully entitled thereto, upon payment of one dollar and fifty cents ($1.50) for the keep of such dog; provided, however, that if no person lawfully entitled to such dog shall, within five days after the date of giving said last-mentioned notice, appear at the public pound and request the release of such dog, and pay said charges, such dog may be sold or destroyed by the poundkeeper in the same manner hereinabove provided.

Section 17. The poundkeeper shall provide all animals in his custody with proper food and water, and shall give them all necessary care and attention.

Section 18. The fines and charges upon animals impounded shall be as follows:

1. For every horse, mare, mule, ass, ox, cow, bull, colt or calf over the age of six months, a fine of four dollars and an additional charge as follows: One dollar per day for keeping, and of one dollar additional if advertised, and of one dollar if received from a stable, as hereinafter provided.

2. For every colt or calf under the age of six months, and for every sheep, lamb, goat or hog, a fine of two dollars and a charge of fifty cents per day for keeping, and of one dollar additional if advertised.

3. For every unlicensed dog, a fine of two dollars and fifty cents and a charge of twenty-five cents per day for keeping.

4. For every licensed dog impounded in violation of any of the provisions of this ordinance, a fine of one dollar and a charge of twenty-five cents a day for keeping.

5. For every other animal, a fine of two dollars and fifty cents and a charge of fifty cents per day for keeping.

Section 19. No animal shall, under any circumstances, be released by the poundkeeper or his deputies until all the fines and charges imposed thereon, as provided by this ordinance, shall have been paid. Provided, however, that if it shall be made to appear to the poundkeeper that any of the animals impounded by him, mentioned in subdivision 1 of the preceding section, have broken out, or were let out, of the fenced enclosure of the owner without fault on his part, the poundkeeper shall release the said animals without charge. If the said poundkeeper refuses to release any such animal, and the owner pays the demanded charges, the owner may apply by petition to the Board of Supervisors to have such charges refunded, and the Board of Supervisors shall order the repayment, without cost to the owner, of the charges so paid if it shall appear that the said animals broke

out, or were let out, of the fenced enclosure of the owner without fault on his part.

Section 20. The poundkeeper shall keep a record of the number, description and disposition of all animals impounded, showing in detail in the case of each animal the date of receipt, the date and manner of disposal, the manner and time of advertising for sale, the name of the person reclaiming, redeeming or purchasing, the reason for destruction, and the fines and charges and proceeds of sales received on account thereof, and such additional records as the Controller may prescribe. Such records shall be kept by the poundkeeper in a book or books provided for that purpose, which shall be the record book or books of the office of the poundkeeper and shall not be removed therefrom except upon written order from a duly constituted authority.

Section 21. (1) All moneys received by the poundkeeper as provided for herein shall be deposited in the General Fund and shall be by him delivered daily to the Treasurer of the City and County of San Francisco in accordance with the provisions of the Charter of said City and County.

(2) The poundkeeper shall file with the Controller of the City and County of San Francisco such reports under oath as the Controller may require.

Section 22. The poundkeeper may at any time appoint, at his own expense, as in Section 25 hereof provided, as many deputy poundkeepers as he may require to properly discharge the duties required of him by this ordinance. The authority of the said deputy poundkeepers shall be the same as the authority of the poundkeeper himself as to apprehending, taking up, arresting, catching, driving to and receiving into the public pound any of the animals named in any of the sections of this ordinance.

Section 23. The poundkeeper and his deputies, while engaged in the execution of their duties, shall each wear in plain view a badge having in the case of the poundkeeper, the word "Poundkeeper," and in the case of the deputy poundkeeper the words "Deputy Poundkeeper," engraved thereon.

Section 24. It shall be unlawful for any person to resist or obstruct the poundkeeper or any of his deputies in the exercise of his duties as such poundkeeper or deputy poundkeeper.

Section 25. The poundkeeper shall not receive any stated salary as compensation for the performance of the duties of his office, but in lieu of salary he shall be entitled to be paid monthly 1/12th of such moneys as the Board of Supervisors may annually set aside for this purpose, subject to the provisions of the Annual Appropriation Ordinance, out of which the poundkeeper shall pay all necessary expenses of the said public pound, including rent of public pound, payment for the service of his deputies, subsistence for animals impounded, and all other expenses connected with the equipment and maintenance of the said public pound, and the impounding and disposal of animals impounded.

Section 26. The poundkeeper, within five days after his appointment, and before entering upon the discharge of his official duties, shall give and execute to the City and County of San Francisco his official bond in the sum of five thousand dollars, conditioned for the faithful performance of his official duties as such poundkeeper, with two or more sureties to be approved by the Mayor and Controller of the City and County of San Francisco, which official bond, when approved, shall be recorded, at the expense of the poundkeeper, in the office of the Recorder of the City and County of San Francisco, in the Records of Official Bonds, and shall thereafter be filed and kept in the office of the Controller of said City and County.

Section 27. If the poundkeeper, or anyone in his employ, shall knowingly sell or give any impounded animal to any person, firm, corporation, association, medical college or university of the State for

the purpose of animal experimentation, the offender shall be guilty of a misdemeanor.

Any person, firm or corporation who, by or through fraud, misrepresentation, coercion or threats, induces any violation of the foregoing provisions, shall also be guilty of a misdemeanor.

Section 28. If any section, subsection, sentence, clause or phrase of this ordinance is for any reason held to be unconstitutional or invalid, such decision shall not affect the remaining portions of this ordinance. The Board of Supervisors hereby declares that it would have passed this ordinance and each section, subsection, sentence, clause and phrase thereof irrespective of the fact that any one or more other sections, subsections, sentences, clauses or phrases be declared unconstitutional or invalid.

Section 29. Any person violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor, and, upon conviction thereof, shall be punished by a fine of not less than five (5) dollars nor more than fifty (50) dollars, or by imprisonment in the County Jail not less than twenty-four (24) hours nor more than ten (10) days, or by both such fine and imprisonment.

Section 30. Ordinance No. 3276 (New Series) and Ordinance No. 5190 (New Series) and all ordinances or parts of ordinances in conflict herewith are hereby repealed to the extent of such conflict.

Regulating the use of hydrocyanic gas and other dangerous gases and fumes; and providing for the issuance of a permit to use the same and regulating the issuance of said permit; and providing for a fee therefor and for a penalty for the violation of this ordinance.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. No person, firm or corporation shall use within the City and County of San Francisco hydrocyanic gas, cyanogen or chloropicrin, or any other poisonous, noxious or dangerous gases or fumes which are dangerous to the life or health of human beings for

any purpose whatsoever without first obtaining a permit from the Director of Public Health so to do.

Section 2. Any person, firm or corporation engaged in any business or calling, or who may hereafter engage in any business or calling, and who may desire to continue in said business or calling, where hydrocyanic acid gas, cyanogen or chloropicrin or any other poisonous, noxious or dangerous gases or fumes dangerous to the life or health of human beings are used shall make written application to the Director of Public Health for a permit to use or to continue to use the same. The said application for said permit shall be upon such forms as the Director of Public Health shall provide and shall set forth the name of the person, firm or corporation engaged in the use of or who is desirous of using said gas, the particular character of gas used or to be used, the purposes and place where the same is used or to be used and the probable amount thereof which will be used during the existence of said permit and the name of the person or persons who will have direct charge of the use of said gas. Before issuing any permit for the use of said gas, the Director of Public Health shall himself or through such person or persons as he may designate for that purpose, inquire into the training, experience, character, reputation and general character of the applicant for said permit and of the person or persons who are to have direct charge of the use of said gas, and for the purpose of ascertaining the training, experience, character, reputation and qualification of either said applicant or said person who has, or is to have, direct charge of the use of said gas, the Director of Public Health, or his representatives, may cause said applicant or said persons to appear before him, or them, and propound to said applicant, or to said person or persons, such questions as will show the training, experience, qualifications, character and reputation of said applicant, or of said persons, in regard to the use of said gas and the regulations governing said use. The Director of Public Health shall have full power and authority to refuse to grant any permit for the use of said abovementioned gas should he ascertain or determine that the manner in which said gas is to be used, or the place where it is to be used, is dangerous to life or health, or the person under whose direction it is to be used has not sufficient training, experience, character and reputation so that the use of said gas can be entrusted to said person without danger, or probability of danger, to the lives of human beings.

Section 3. Every permit issued under authority of this ordinance shall state the place where said gas is to be used, the character thereof and the probable amount thereof to be used and the name or names of the person, firm or corporation authorized to use the same and the name or names of the person or persons in direct charge of said use, provided, however, that when a permit is issued to any person, firm or corporation engaged in the general business of fumigating at places other than a fixed place of business, said permit need not specify the various places where said gas is to be used. Any permit so issued shall remain in force for a period not exceeding one (1) year from the date thereof, provided, however, that the Director of Public Health may issue a permit for a shorter period if the same is requested in said application for said permit.

All applications for a renewal of any permit shall contain all of the information required for an original permit.

Section 5. Any person, firm or corporation engaged in the business of fumigation, which said fumigation is to take place at any place

other than the place of business of the person, firm or corporation holding a permit under this ordinance, shall, at least twenty-four (24) hours before generating or releasing any of the gases mentioned in this ordinance for fumigation purposes outside of his, or its fixed place of business, make application to the Director of Public Health for a permit to so do, which said application shall state the location of the building or enclosed space to be fumigated and the day and hour when such fumigation shall be commenced and the name of the person or persons who will be in direct charge of said fumigation. If the person, firm or corporation making application for said permit provided for in this section has already received a permit under the provisions of Section 2 hereof, which will authorize him to carry on the business of fumigation outside of a fixed place of business, and the person or persons in charge of said fumigation have been approved by the said Director of Public Health, a special permit to generate or release said gas for fumigation purposes at the place indicated in said application shall be issued by the said Director of Public Health upon the payment of a fee of three ($3.00) dollars. Such permit shall be kept on the premises to be fumigated and should the applicant therefor be unable to do the work on the day and hour set forth in said permit, he shall notify the Director of Public Health at least sixteen (16) hours prior to said time and thereupon the Director of Public Health shall specify a new time for the fumigation of the premises or space specified in said permit.

Section 6. The Director of Public Health shall have power to make and enforce all reasonable rules and regulations for carrying out the purposes of this ordinance which are not in conflict therewith.

Section 2. Any person, firm or corporation using, selling or distributing cyanide, or any of its compounds, or any of its derivatives, shall, in a book kept for that particular purpose, make and keep a record of the use, sale or distribution of said cyanide, or any of its

compounds or derivatives, which said record shall show the date of the sale or distribution of the same, the name and address of the purchaser thereof or the name and address of the person to whom the same was distributed, the amount thereof purchased or distributed, the intended use of the same and the name and address of the person, firm or corporation selling or distributing the same. Any person, firm or corporation who shall sell, give away or in any manner distribute cyanide, or any compound or derivative thereof, shall within five (5) days after the last day of the month during which said sale or distribution took place furnish to the Director of Public Health a full, true and correct copy of the record in this section provided to be kept, which said record shall be furnished on a form provided by the Department of Public Health, provided, however, that the provisions of this section and Section 1 of this ordinance shall not apply to the shipment, in the regular course of business, of cyanide, or any of its compounds or derivatives, outside of the City and County of San Francisco, nor shall said provisions apply to the sale or distribution of cyanide, or any of its compounds or derivatives, made upon the prescription of a licensed physician.

Section 3. It shall be the duty of every person, firm or corporation receiving cyanide, or any compound or derivative thereof, or any other substances known to contain cyanide, from places outside of the City and County of San Francisco, and which are to be used in connection with any industry within the City and County of San Francisco, or to be stored within the City and County of San Francisco, to notify the Director of Public Health, within five (5) days after the same is received, of the amount of said cyanide, compound, derivative or substance received by said person, firm or corporation and the purpose or purposes for which the same were received and the purpose or purposes for which the same are to be used.

Section 4. No person, firm or corporation shall engage in the use, sale or distribution of cyanide, or of any compound or derivative thereof, in connection with any industry without first having obtained from the Director of Public Health a permit to so do.

Any person desiring to obtain such a permit shall make application therefor to the Director of Public Health, which said application shall show the amount of said cyanide, compound or derivative thereof which shall be used in connection with said industry, the purposes for which, and the manner in which, the same shall be used and how and where the same shall be stored and kept. Full power and authority is hereby vested in the Director of Public Health to refuse the issuance of any permit when, in his opinion, the method in which, or the purposes for which said cyanide, or any of its compounds or derivatives, are to be used, stored, sold or distributed would be dangerous to life or public health, and the said Director of Public Health is hereby further authorized and directed to prescribe and enforce such rules and regulations, not in conflict with the provisions of this ordinance, as he may deem necessary, regulating the use, sale, storage and distribution of cyanide, or of any of its compounds or derivatives, as he may deem necessary for the protection of life and health.

Section 5. Conspicuous warning signs must be placed by said permit holder upon the premises in or on which said materials are stored.

Section 6. Any person, firm or corporation who shall violate any of the provisions of this ordinance shall be guilty of a misdemeanor

and upon conviction thereof shall be punishable by a fine not to exceed five hundred ($500.00) dollars or by imprisonment in the County Jail for a period not exceeding six months or by both such fine and imprisonment for each offense.

Providing a method for the relief and care of the indigent sick and dependent poor of the City and County of San Francisco, and for the expenditure of funds therefor, and for the method under which the same shall be expended, and providing for the appointment of a Director of Relief.

Be it ordained by the People of the City and County of San Francisco, as follows:

Section 1. That at the present time there are a large number of persons who are residents of the City and County of San Francisco, and who by reason of the existing world-wide depression and conditions of unemployment are dependent upon the City and County for relief, care and maintenance, and that for the purpose of relieving said persons and giving them the care, support and maintenance which they are entitled to under the laws of the State of California, the electors of the City and County of San Francisco did, on the 30th day of August, 1932, approve a bond issue in the sum of $6,500,000, the proceeds of which said sum must be administered, and applied for the purposes for which the same was approved, as the bonds of said issue are sold, and appropriations made from the proceeds of said sales.

All purchases, with the exception of those for fresh fruits, vegetables and other perishable commodities, shall be based on at least three quotations and award shall be made to the lowest bidder provided that the price to be paid is approved by the Purchaser of Supplies of the City and County of San Francisco; provided, further, that the Director of Relief in conjunction with the Purchaser of Supplies may make emergency purchases, when the same are necessary to carry out the purposes of this ordinance, and shall confirm such emergency purchases by purchase order within forty-eight hours thereafter.

Section 5. The Director of Relief shall cause such accounts to be kept and such reports to be rendered as the Controller may require under section 64 of the charter.

Section 6. The Citizens' Advisory Relief Committee, upon the recommendation of the Director of Relief, may authorize properly qualified and equipped relief organizations, institutions, and agencies to actually perform the duties incident to caring for and maintaining the indigent sick and dependent poor, and in such instances shall issue a service order for the work to be performed or service to be rendered, periodically, in advance to cover the estimated cost of such work or service to be performed or rendered by such organization, institution, or agency of caring for and maintaining the indigent sick and dependent poor, provided that the expenditure of all moneys shall be subject to the restrictions as to purchasing, accounting, and reporting as are in this ordinance provided for expenditures made by the Director of Relief.

Section 7. The Controller shall make a monthly audit of all funds subject to expenditure under the provisions of this ordinance and shall render a report thereon to the Mayor, to the Board of Supervisors, the Citizens' Advisory Relief Committee, and the copy of said report so furnished to said Board of Supervisors shall at all times be available to the public for inspection and examination.

Section 9. The immediate necessary preservation of the lives and health of a large number of the residents and inhabitants of the City and County of San Francisco constitutes an emergency within the

Charter Amendment No. ———

Presented by Civic League of Improvement Clubs and Associations of San Francisco, Mills Building.

Amend Section 81 to read as follows:

The Board of Supervisors may create by annual tax levy and gradually build up and maintain a revolving fund to be used exclusively for paying that portion of the expenses of the City and County which becomes due and payable or which must be made prior to the receipt of tax payments for any fiscal year; provided that such fund shall be completely reimbursed before the first day of June of each year from tax and other revenues ~~(not later than the 1st day of January of each fiscal year, and when so reimbursed, such fund shall not be used, drawn upon or borrowed for any further expenditure or other purpose during such fiscal year)~~; and provided, further, that such revolving fund shall not at any time exceed the estimated expenditures for the first five months of the then current fiscal year, less the amount of estimated revenues and receipts from sources other than tax rate revenues.

In the event that funds are not available in such a revolving fund to meet authorized expenditures ~~for the first six months~~ of any fiscal year, the Board of Supervisors, ~~during the first six months thereof,~~ on the recommendation of the Controller, the Chief Administrative Officer and the Mayor, and the written approval of the officer, board or commission responsible for the management and control of the fund from which it is proposed that the temporarily idle balances be borrowed, may, by ordinance, authorize the temporary borrowing of idle unencumbered balances in any fund except a pension fund, for a period of not to exceed six months, at not less than the then current rate of interest paid by the banks to the City and County on City and County funds deposited with such banks. Such approval shall specify that the amount proposed to be lent from such fund will not be needed for the purpose of such fund prior to the ~~1st day of January next ensuing~~ *maturity of the loan.* The fund from which such loan is made shall be charged or encumbered with the amount of such loan and such amount shall not be considered as available in such fund for any other appropriation or encumbrance until the loan is repaid. *Any loans made as herein authorized during the 1st half of any fiscal year shall be repaid prior to the 1st day of January of said year, and any loan made during the remaining one-half of said fiscal year shall be repaid prior to the 1st day of June of said year.*

Such loans shall be secured by, and made solely in anticipation of the collection of taxes levied or to be levied for the current fiscal year, and such loans shall constitute the first demand on, and shall be repaid from the first tax collections for, such current fiscal year; *provided, however, that tax anticipation warrants, as hereinafter authorized, shall constitute a prior lien on said taxes levied or to be levied or collected.*

If the amount of said revolving fund hereinbefore mentioned, plus the amount of temporarily idle moneys available for loans as herein

provided shall be insufficient to meet the expenses of the City and County pending the levying and/or collection of taxes for the fiscal year, the Board of Supervisors may by ordinance and upon the recommendation of the Mayor, Controller, Treasurer and Chief Administrative Officer, authorize the Treasurer and Controller to borrow for and on behalf of the City and County, from any person, firm or corporation, such sums of money as may be necessary to provide funds for meeting the current obligations and expenses of the City and County as the same accrue.

The total amount of money borrowed in either half of any fiscal year pursuant to the provisions of this section, including moneys borrowed from the revolving fund or from idle moneys in the treasury of the City and County of San Francisco, shall not exceed 85% of the amount of taxes estimated by the Controller to accrue and to be paid to the City and County for said one-half of the current year. The repayment of any sum borrowed from any person, firm or corporation pursuant to authorities of this section shall constitute a first lien and charge against the taxes collected during the half of the fiscal year in which said money was borrowed and shall be repaid to the person, firm or corporation making said loan from the first moneys received for said taxes. Any loan made from any person, firm or corporation during the first half of any fiscal year shall be payable not later than the 1st day of June in said year. The Controller shall be authorized by any ordinance of the Board of Supervisors authorizing or permitting the borrowing of money from any person, firm or corporation as herein provided, to execute for and on behalf of the City and County of San Francisco such notes, warrants or other evidence of said loan in such form as said ordinance shall provide, and to deliver the same to the person, firm or corporation making said loan as evidence thereof. All loans made from any person, firm or corporation under and pursuant to the authority of this section, shall bear interest at such rate or rates as may be provided in said ordinance authorizing the same; provided, however, that said rate of interest to be paid shall not exceed the sum of 6% per annum.

The Controller shall, in making up his annual budget estimate as provided by this Charter, include therein an amount sufficient to meet the interest to become due upon any loan made under authority of this section which said sum shall be subject to the regular budget procedure provided for in this Charter.

Proposed Charter Amendment re Borrowing.

Presented by Supervisor Miles:

At meetings of City officials and representatives of various civic organizations called by the Mayor in his office last March and April, it was generally agreed that the Charter should be amended to authorize City officials to borrow funds for the purpose of meeting necessary City expenditures from the start of any fiscal year on July first until December, when the first payments of taxes are received. The attached proposed Charter amendment provides for such borrowing power.

It is drawn as an amendment and a revision of present Section 81 of the Charter. The first paragraph of the proposed amendment is substantially the same as the first paragraph of the existing Section 81. The second paragraph of the proposed amendment replaces the second and the third paragraphs of the existing Section 81 and is drawn along the general lines of the provisions of the State Constitution, Article IV, Section 31, under which the City operated during the last half of the fiscal year 1931-32.

The third and last paragraph of the proposed amendment, based in part on the provisions of the Philadelphia charter, authorizes temporary borrowing power when no reserve funds are available and when no temporary transfers can be made available to meet necessary expenditures that must be made in advance of the receipt of income.

Charter Amendment No. ————

Providing for the creation of a reserve fund to meet City and County expenses which must be paid prior to the receipt of tax payments, and for temporary transfers or loans therefor based on and in anticipation of tax and other revenue collections, and for emergency loans in any fiscal year to be repaid out of the income and revenue of such fiscal year.

Describing and setting forth a proposal to the qualified electors of the City and County of San Francisco, State of California, to amend the Charter of said City and County by amending Section 81 thereof, relating to the creation of a reserve fund to meet City and County expenses which must be paid prior to the receipt of tax payments, and for temporary transfers or loans therefor based on and in anticipation of tax and other revenue collections, and for emergency loans in any fiscal year to be repaid out of the income and revenue of such fiscal year.

The Board of Supervisors of the City and County of San Francisco hereby submits to the qualified electors of said City and County of San Francisco, at the general election to be held on the eighth day of November, 1932, a proposal to amend the Charter of said City and County as follows:

That Section 81 of said Charter be amended to read as follows:

Tax Collection Reserves and Temporary Loans

Section 81. The Board of Supervisors, by annual tax levy, may create and gradually build up and maintain a revolving fund to be used exclusively for paying that portion of the authorized expenses of the City and County for any fiscal year which, as certified to said Board by the Controller, becomes due and payable and must be paid prior to the receipt of tax payments for such fiscal year; provided that such revolving fund shall be completely reimbursed each year from tax and other revenues prior to the 1st day of January of each fiscal year, and when so reimbursed, such revolving fund shall not be used, drawn upon or borrowed for any further expenditure or other purpose during such fiscal year; and provided, further, that such revolving fund shall not at any time exceed the estimated expenditures for the first five months of the then current fiscal year, less the amount of estimated revenues and receipts from sources other than tax-rate revenues.

In the event that funds are not available in such a revolving fund to pay the authorized expenditures or obligations incurred and to be paid prior to the collection of current tax revenue and income of the City and County during any fiscal year, the Treasurer of the City and County is hereby authorized to make temporary transfers or loans from idle unencumbered funds in his custody to meet such payments, subject to the provisions of this Section and said Treasurer, after the first day of such fiscal year, shall, on the recommendation of the Controller and the Mayor, and the written approval of the officer, board or commission responsible for the management and control of the fund from which it is proposed that temporarily idle balances be borrowed, make temporary transfers or loans for specified periods of idle unencumbered balances in any fund in his custody except a bond interest, a bond redemption or a pension fund. Such approval by the officer, board or commission concerned shall specify that the amount proposed to be transferred or loaned from such fund will not be needed for the purposes of such fund prior to the date specified for its return. The fund from which such transfer or loan is made shall be charged or encumbered with the amount of such transfer or loan and such amount shall not be considered as available in such fund for any other appropriation or encumbrance for which any expenditure or payments must be made prior to the date on which the transfer or loan is repaid. Such transfers or loans shall be secured by, and made solely in anticipation of the collection of taxes levied or to be levied for the current

fiscal year. The total of such transfers or loans shall not exceed eighty-five per centum of the amount of taxes accruing for the current fiscal year, or eighty-five per centum of the amount of taxes actually collected for the preceding fiscal year in case of transfers or loans made after the beginning of, but prior to the levy of taxes for, the current fiscal year. Such transfers or loans made prior to the collection of the first instalment of taxes shall constitute the first lien thereon and shall be repaid before any other payment out of said tax collections, and all other such transfers or loans shall be repaid not later than the last Monday in April of the current fiscal year. The Controller and the Treasurer shall be liable individually and on their respective bonds for the return, as herein provided, of such temporary transfers or loans.

When funds shall be needed for the immediate requirements of the City and County in any fiscal year in accordance with appropriations made as authorized by this Charter for such fiscal year, which payments must be made in advance of the receipt of income for such fiscal year, and when funds therefor cannot be made available as hereinbefore in this Section authorized, the Mayor, on the recommendation of the Controller, shall have power to negotiate, on behalf of the City and County, temporary loans in aggregate amount not to exceed twenty per centum of the estimated tax receipts for such current fiscal year; provided that at the time of negotiating such loans and issuing such notes, provision must be made to repay same out of the income of the same fiscal year in which they are negotiated, all such notes issued prior to December 31 in any fiscal year to be repaid not later than said December 31, and all other such notes in any fiscal year to be repaid not later than the last Monday in April of such fiscal year, the intention of this paragraph of this Section being that the negotiation of said loans shall be solely for the purpose of anticipating receipt of income; provided, however, that if, through emergency as defined in Sections 25 or 16 of this Charter, it shall become necessary for the Board of Supervisors to obtain additional appropriating power, it shall be lawful for said Board to authorize the Mayor and the Controller, as hereinbefore provided, to create one or more emergency loans, not exceeding in the aggregate one million ($1,000,000) dollars at any one time, which must be paid within, and from the income of, the fiscal year in which they were created, and for the purpose of such repayment, any appropriation item previously authorized, other than for bond interest, bond redemption, pensions or other fixed charges, may be reduced on the written order of the Mayor.

Revenue Bonds.

Section 129.1. Whenever the Public Utilities Commission shall determine that public interest or necessity requires the acquisition or construction of one or more additions to or betterments or extensions of an existing public utility owned and operated by the City and County and shall determine, as hereinafter in this section provided, that revenue bonds as herein in this section authorized and provided may be issued and wholly redeemed and all interest charges thereon, except during the period of construction and for six months thereafter, may be wholly paid solely and exclusively from the gross revenue, as herein defined, of the said proposed addition to or betterment or extension of such existing utility, said Commission may, by resolution, authorize the issuance of revenue bonds for such purposes in an amount to be specified in such resolution; provided, that said Commission shall not have power to authorize the issuance of revenue bonds, as in this section provided, for the acquisition or construction of a power transmission line beyond the existing westerly terminus thereof nor a complete or partial distribution system in the City and County for the transmission and distribution of electric energy for power, lighting, heating, refrigeration or other purposes in the City and County, nor of existing privately owned street railway systems in said City and County, unless and until the acquisition or construction of any such electric transmission and distribution system or street railway system is authorized under the provisions of Section 101 of this Charter.

Prior to the authorization of such revenue bonds, the said Commission shall request of the manager of utilities and the manager of utilities shall sign and submit to the Commission a report in writing showing estimates, approved by him of (a) the cost of the recommended addition, betterment or extension, (b) the expected annual gross revenue as hereinafter referred to to be derived from such construction or acquisition and the operation thereof for a period of ten years following completion thereof, and the sources from which such revenue will be obtained, including a detailed schedule of proposed rates, rentals and service charges upon which such estimate is based, (c) the annual expenses thereof for operation, repairs and maintenance, and depreciation charges as defined in Sections 127 and 128 of this Charter for a like ten-year period, and (d) the net revenue available annually from such operation for a like period of ten years for payment of interest and redemption charges on the revenue bonds proposed to be authorized. "Gross revenue" as used in this section shall include only (1) the income, if any, to be derived from sale of the product or service to be delivered from the addition, betterment or extension contemplated as distinct from any other part of the utility with which it is connected, and (2) the actual saving, if any, in cost of operating and maintaining any existing utility resulting directly and solely from the construction and operation of the contemplated addition, betterment or extension, which actual savings are hereby authorized to be treated, considered and accounted for as gross revenues of such addition, betterment or extension until the revenue bonds issued for the construction or acquisition of the same shall have been fully paid off and retired. The maximum amount of revenue bonds that may be authorized and issued by the Public Utilities Commission for the construction or acquisition of any addition to, or betterment or extension of an existing utility recommended and reported on by the manager of utilities as hereinbefore provided, shall not exceed seventy-five per centum of such net revenue estimated to be derived therefrom during such ten-year period as aforesaid.

If the Public Utilities Commission, by resolution, shall determine

that public interest, necessity or convenience will be served by the proposed construction or acquisition of such addition to or betterment or extension of such existing utility, it shall transmit the report and the estimates of the Manager of Utilities thereon to the Controller of the City and County. Said Controller shall cause a check to be made of the estimates of operating results shown therein and the Public Utilities Commission shall defray the cost of such checking. The Controller, within thirty days of receipt by him of the report and estimates of the Manager of Utilities, shall submit a report thereon to the Public Utilities Commission, noting any revisions in the estimates of operating results that such check may indicate, stating whether the estimates as checked indicate that expected revenues will be ample for revenue bond interest and redemption charges, in addition to all other expenses, and advising the Public Utilities Commission of the maximum amount, as hereinbefore defined, of revenue bonds that may be authorized and issued by the Public Utilities Commission for the proposed construction or acquisition.

If the estimated cost of said construction or acquisition is less than said maximum amount of revenue bonds that may be issued therefor, as hereinbefore defined, the Public Utilities Commission, after receipt and consideration of the Controller's report thereon, or, in the event of failure or refusal by the Controller to file such report, after the thirty-day period hereinbefore allowed therefor, may, by resolution, approve or modify said report of the Manager of Utilities and declare that public interest or necessity require said construction or acquisition and authorize the issuance of revenue bonds in an amount to be authorized therein to provide for said construction or acquisition.

The Mayor and the Board of Supervisors may not, in considering any budget estimate or appropriate ordinance, decrease the amount of, or reject any item for the construction or acquisition of any utility addition, betterment or extension, when the cost thereof is to be met by the issuance of revenue bonds as in this section authorized.

The Public Utilities Commission, in determining the amount of revenue bonds which will be required to be issued and sold to provide funds for the construction or acquisition of any public utility addition, betterment or extension, may include a sufficient amount thereof to pay the interest accruing and to accrue on all such revenue bonds sold for such purpose during the estimated period of actual construction of such addition, betterment or extension, and for a period of six months immediately following the completion or acquisition of the same; and said Commission may also include a sufficient additional amount to pay the estimated operating expenses of such addition, betterment or extension for a period of six months after operation thereof shall commence.

The issuance of revenue bonds for the construction or acquisition of more than one addition to or betterment or extension of any existing utility may be included in a single authorization. All such revenue bonds so authorized shall be issued in the name of the Public Utilities Commission, shall be identified by name, date and number as revenue bonds of the particular utility addition, betterment or extension, and shall contain a recital on the face thereof that the payment or redemption of said bonds and the payment of the interest thereon is secured only by the revenues received from the operation of the particular addition, betterment or extension for which the revenue bonds were issued, and that neither the payment of the principal nor any part thereof, nor any interest thereon constitutes a debt or general obligation of the City and County of San Francisco; and all of said revenue bonds may contain the further recital written or printed thereon that the Public Utilities Commission reserves the right to retire and pay at their par value from any funds that may be available therefor all or any part of any issue of said revenue bonds which may be outstanding after the expiration of five years from the date of the issuance thereof.

All revenue bonds authorized under the terms of this section shall be issued and sold from time to time by the Public Utilities Commission as and when money is needed to pay the costs of the authorized construction or acquisition, and to pay interest on outstanding revenue bonds during the period of actual construction of the works financed thereby and to pay operating expenses of said works and interest on outstanding revenue bonds issued to finance the construction or acquisition of the same for a period of six months after completion of such construction or acquisition, and the proceeds thereof are hereby made available for such purposes. No revenue bonds authorized under this section shall be sold for less than the par value thereof plus the interest which has accrued thereon between the date of sale and the last preceding interest maturity date. Successive issues of revenue bonds within the limits of the original authorization for the issuance of said revenue bonds for the construction or acquisition of any public utility addition, betterment or extension shall have equal preference with respect to the redemption thereof and the payment of interest thereon; provided, however, the Public Utilities Commission may fix different maturity dates for successive issues under any one original authorization. All bonds issued under the terms of this section shall be negotiable instruments under the law merchant. All bonds issued and sold under or by authority of this section shall be sold to the highest and best bidder not less than five days after the completion of such advertising for bids, including advertising in the official newspaper of the City and County, as the Public Utilities Commission may deem proper. The said Commission may reject any and all bids made for such bonds. The proceeds from the sale of each issue of revenue bonds authorized under the provisions of this section shall be deposited forthwith by the Public Utilities Commission in the treasury of the City and County to the credit of a fund to be designated, as hereinafter provided, as the construction or acquisition fund for the particular utility addition, betterment or extension for the construction or acquisition of which such revenue bonds were authorized, issued and sold.

The Public Utilities Commission shall, by resolution, determine the form, conditions and denominations of all such revenue bonds, provided that the rate of interest provided shall not exceed six per centum per annum, and, provided further, that the redemption of any such issue of revenue bonds shall begin in not more than one year after the date of completion of construction or acquisition of the addition, betterment or extension for which such revenue bonds were authorized, and shall be completed in not more than ten years thereafter, and shall in no case extend beyond fifteen years from the date of issuance.

All such revenue bonds shall be signed by the president and the secretary of the Public Utilities Commission. The signature of said president may be by facsimile. All interest coupons shall bear the facsimile signature of the secretary of the Public Utilities Commission.

All gross revenues as hereinbefore in this section defined received from the operation of any utility addition, betterment or extension constructed or acquired from the proceeds of revenue bonds authorized, issued and sold hereunder, shall be deposited by the Public Utilities Commission as received, or as allocated by said Commission under the terms of this section at least monthly, in the treasury of the City and County to the credit of a special fund to be designated as the revenue fund of the particular utility addition, betterment or extension producing such revenue. Rates, rentals or service charges upon which said income has been estimated by the manager of utilities and approved or modified and approved by the Public Utilities Commission prior to authorizing said revenue bond issue shall not be reduced until said revenue bonds to which such income appertains shall have been fully paid off and retired, but no credit to gross revenue as defined in this section for savings in operation or maintenance costs of any utility to which such additions, betterments or extensions apper-

tain shall be made in excess of the actual savings in such cost of operation or maintenance effected by the construction or acquisition and operation of such addition, betterment or extension. Appropriations shall be made by the Public Utilities Commission from the money so deposited in each separate special fund, as hereinabove provided, for the following purposes for each such utility addition, betterment or extension in the order named, viz.: (a) for the payment of operating expenses as defined in subdivision (a) of Section 127 of this Charter; (b) for repair and maintenance; (c) for depreciation as defined in Section 128 of this Charter; (d) for the payment of interest on and the redemption of revenue bonds authorized, issued and sold for the construction or acquisition of such utility addition, betterment or extension; and (e) for a surplus fund, which may be transferred to the general surplus fund of the utility for which such addition, betterment or extension is constructed or acquired at any time after, but not before, said revenue bonds issued to finance said construction or acquisition shall have been fully paid off and retired.

The provisions of Section 130 of this Charter, relating to the power of the Public Utilities Commission to propose, and the Board of Supervisors by two-thirds vote to approve, a schedule of utility rates or charges which shall produce revenue less than the amount required to meet all utility expenses as defined by said Section 130, and the provisions of said Section 130 to the effect that changes in utility rates or charges proposed by said Public Utilities Commission shall be submitted to the Board of Supervisors, shall not apply to rates or charges for products or services delivered or furnished by or through any utility addition, betterment or extension constructed or acquired from the proceeds of revenue bonds as in this section provided.

The foregoing bill and ordinance was transmitted to his Honor the Mayor for his approval or disapproval.

Veto.

His Honor Mayor Rossi returned the said bill and ordinance to the Board without his approval for reasons set forth in the following communication:

San Francisco, September 12, 1932.

Honorable Board of Supervisors, City Hall, San Francisco.

Dear Sirs: I have before me your Tax Rate Ordinance, numbered 9.0321, which I herewith return to you with my disapproval endorsed thereon. My reasons for disapproving this ordinance are as follows:

Your Board has included in said ordinance a tax rate of four cents on each one hundred dollars' valuation of the taxable property within the City and County for the following purpose: "For the purchase of land and the establishment of live stock pavilion." The City Attorney has already advised your Board that the inclusion of this additional rate in your Tax Rate Ordinance is illegal. That official has also advised me that I have not the power to veto any particular item in your tax rate ordinance. Hence, that there may be no illegal item in the tax rate I have vetoed the ordinance as a whole.

I am firmly of the opinion that all items of capital expenditure which lie within the discretion of the Board of Supervisors should be included in the annual budget estimates which are prepared and acted upon in accordance with the provisions of the Charter. It was undoubtedly the intention of the Charter framers that the public generally should be given the opportunity of being heard as to whether or not items for capital expenditures should be included in the Budget. They have this opportunity on Budget hearings and not on hearings of the Tax Rate Ordinance.

Therefore, I believe that such an item should not be included in the Tax Rate Ordinance when no provision was made for it in the annual Budget.

Should your Board not sustain my veto, thereby retaining the illegal item in the tax rate for the current year, the responsibility for such an item must rest with those who vote in favor of it. However, should your Board sustain my veto I call upon the President of the Board to convene a special session of the Board, not later than September 14, 1932, to pass a legal Tax Rate Ordinance.

I direct attention to the provisions of Section 16 of the Charter, which will permit such an ordinance to be passed as an emergency measure.

Respectfully,

ANGELO J. ROSSI, Mayor.

The subject-matter was discussed, whereupon, on motion of Supervisor Peyser, the question was called: "Shall the ordinance pass notwithstanding the objections of his Honor the Mayor?" and the action of his Honor the Mayor was *sustained* by the following vote:

Noes—Supervisors Breyer, Brown, Colman, Havenner, Hayden, Miles, Peyser, Power, Shannon—9.

Ayes—Supervisors Canepa, Gallagher, McSheehy, Roncovieri, Spaulding, Stanton—6.

Supervisor Miles moved that the Board, at its completion of calendar matters, recess to Wednesday, September 14, 1932, at 2 o'clock p. m., for further consideration of the Tax Rate Ordinance and other matters.

Motion *carried.*

The following matter was taken up:

To Provide a Public Pound.

(Code No. 11.14)

Bill No. 108, Ordinance No. 11.141, as follows:

To provide a public pound and to make necessary rules and regulations for conduct thereof, and in the matter of animals running at large; to provide for the custody and destruction of the same, and repealing Ordinance No. 3276 (New Series) and Ordinance No. 5190 (New Series).

Be it ordained by the People of the City and County of San Francisco as follows:

Provided, however, that all horses, mules, asses and oxen, harnessed or saddled and in the actual custody and control, at the time, of some person or persons, and licensed dogs, except as provided in Section 15, are excepted from the operation of this section of this ordinance.

Section 4. Section 5. All animals so taken into the custody of the poundkeeper, and which, by reason of age, or disease, or other cause, are unfit for further use or dangerous to keep impounded, shall be forthwith destroyed by the poundkeeper.

Section 6. All sheep, lambs, goats or hogs not so destroyed and not reclaimed or redeemed within forty-eight (48) hours after the same are so impounded, shall be advertised for sale by the poundkeeper by written notice conspicuously posted at the entrance of the public pound for five (5) days after the expiration of said forty-eight (48) hours; and all colts and calves not so destroyed and not reclaimed or redeemed within forty-eight (48) hours after the same are so impounded shall be advertised for sale by the poundkeeper by written notice conspicuously posted at the entrance of the public pound for five (5) days after the expiration of said forty-eight (48) hours, and shall also be advertised for sale by a notice published for one (1) day within said period of five (5) days in the official newspaper of said City and County; and all horses, mares, mules, asses, oxen, cows or bulls not so destroyed and not reclaimed or redeemed within forty-eight (48) hours after the same are so impounded shall be advertised for sale by the poundkeeper by written notice conspicuously posted at the entrance of the public pound for twelve (12) days after the

expiration of said period of forty-eight (48) hours and shall also be advertised as being impounded by a notice published for three (3) consecutive days within said period of twelve (12) days in a daily newspaper published in said City and County, and shall also be advertised for sale by a notice published for one (1) day within said period of twelve (12) days in the official newspaper of said City and County. Immediately after due advertisement as provided in this section, and at the hour of twelve (12) o'clock noon on the date stated in said notices, respectively, the poundkeeper shall sell all animals so advertised, at public auction at the public pound, to the highest bidder for cash.

Section 7. It shall be the duty of every police officer, while on duty, to take up and deliver to the public pound or to place in any stable that may be designated by the Chief of Police, any horse, mare, colt, mule, ass, cow or bull found running at large or trespassing on any private enclosure within the City and County of San Francisco, and to immediately notify the poundkeeper in case any such animal be so placed in any stable, and it shall be the duty of any person in charge of such stable to immediately notify the poundkeeper and to release such animal to the poundkeeper upon his demand and the payment of one dollar at any time within twenty-four (24) hours after such animal is so placed therein and such notice given. Any person may take up and deliver to the public pound any animal which the poundkeeper is, by the provisions of this ordinance, required to impound.

Section 8. Any animal found trespassing on any private enclosure in this City and County may be taken up by any person and delivered to the poundkeeper.

Section 9. Every person, other than a police officer, taking up any animal under the provisions of Sections 7 and 8 of this ordinance, shall immediately thereafter give notice thereof to the poundkeeper, and every such person and any person in whose custody such animal may, in the meantime, be placed shall deliver such animal to the poundkeeper without fee or charge; and the poundkeeper shall thereupon hold and dispose of such animal in the same manner as though such animal had been found running at large and impounded by him.

Section 10. The owner or person entitled to the custody of any animal so impounded may, at any time before the sale or other disposition thereof, reclaim or redeem the same by paying to the poundkeeper all fines and charges imposed thereon, as provided for herein.

Section 11. The poundkeeper shall seize and impound every dog found running at large or found upon any public highway or street, or alley, or court, or place, or public square, or public grounds or upon any unfenced lot or not within a sufficient enclosure within the City and County of San Francisco, whether in the immediate presence of the owner or otherwise; provided, however, that, except as provided in Section 15 of this ordinance, no such seizure or impounding shall be made of any dog led by a string, rope or chain, or having around its neck or leg a license tag showing that such dog is duly licensed as required by any ordinance of the City and County of San Francisco.

Section 12. The poundkeeper shall keep any dog so impounded for a period of ninety-six (96) hours, unless the same be sooner reclaimed or redeemed by the owner or person having control thereof as hereinafter provided. Such redemption shall be made by exhibiting to the poundkeeper the license certificate or license tag issued by the Tax Collector, showing that the license for such dog for the then current fiscal year has been paid, and by paying to the poundkeeper the fine and charges hereinafter provided for. Upon such redemption being made the poundkeeper shall release such dog; provided, however, that if the license for any such dog for the then current fiscal year was actually paid prior to the date of the impounding of such dog, and there shall be exhibited to the poundkeeper as evidence of such payment said certificate or license tag, the fine hereinafter provided for

in subdivision 3 of Section 18 of this ordinance shall be remitted, but in all cases the charges hereinafter provided for keeping such dog must be paid.

Section 13. At any time after the expiration of said period of ninety-six (96) hours the poundkeeper may, without further notice, and without advertising in any manner, sell at private sale or public auction, to the highest bidder, for cash, any dog not so reclaimed or redeemed as aforesaid. All dogs impounded and not so reclaimed, redeemed or sold shall forthwith be destroyed by the poundkeeper. The owner of any dog at the time it is so impounded may, at any time within thirty (30) days after such sale, redeem the same from such purchaser by paying to him the amount of the purchase price paid by him to the poundkeeper, and in addition thereto a sum equal to twenty-five (25) cents per day for the number of days from the date of sale to and including the date of such redemption.

Section 14. It shall be the duty of every person who shall take into his possession any stray dog or any dog not owned by him or not placed in his possession by the person having the lawful custody and control thereof, immediately to notify the keeper of the public pound and to release such dog to the poundkeeper upon demand and without charge. If there shall be attached to such dog a license tag for the then current fiscal year, said poundkeeper shall notify in writing the person to whom such license was issued, at the address given in said license certificate, and shall, upon demand made within twenty-four (24) hours thereafter, and without charge, release such dog to such person; provided, however, that if no person lawfully entitled to such dog shall, within nine days after the date of giving said last-mentioned notice, appear at the public pound and claim such dog, such dog may be sold or destroyed by the poundkeeper in the manner hereinabove provided for unlicensed dogs.

If there is no license tag for the current fiscal year attached to any dog surrendered to the poundkeeper as provided herein, and such dog has not been redeemed by its owner within ninety-six (96) hours from the time of impounding such dog, the poundkeeper may return such dog to the person who surrendered such dog, provided that such person procures a license for such dog for the current fiscal year.

The owner of any dog at the time it is so impounded may, at any time within thirty (30) days after such dog has been returned to the person surrendering such dog to the poundkeeper, redeem the same from such person by paying to him the amount he paid for the license tag, and in addition thereto a sum equal to twenty-five (25) cents per day for the number of days from the date of receiving such dog from the poundkeeper, to and including the date of such redemption.

Section 15. It shall be unlawful for the owner or person having control of any dog to suffer or permit the same, under any circumstances, to run at large in any public park or public square or to suffer or permit any female dog to run at large while said dog is in the copulating season, and every dog found running at large in violation of the provisions of this section shall be immediately seized and impounded in the public pound.

Section 16. If any dog within the City and County of San Francisco is known to be vicious or dangerous to the safety of any person or animal, and the owner or person having control of such dog shall allow such dog to run at large, after being notified in writing by the Director of Public Health to keep such dog within a secure enclosure unless such dog is adequately muzzled, such owner or person having control of such dog shall be guilty of a misdemeanor.

If any dog within the City and County of San Francisco shall bite any person or animal, and the person or animal so bitten was not at the time trespassing upon the person or property of the owner or person having control of such dog, or if it cannot be proved beyond a reasonable doubt that the person so bitten was provoking or teasing

such dog without cause, the owner or person having control of such dog shall be deemed guilty of a misdemeanor, and, upon conviction thereof, shall be punishable as herein provided; and if upon the trial of any such person the court shall determine that such dog is vicious or dangerous to persons or other animals, the court may order that such dog be muzzled, or that such dog be kept within a sufficient enclosure, or that such dog be delivered to the poundkeeper and by him destroyed. Upon written notice by the Director of Public Health, the owner or person having control of any dog which has within the preceding seventy-two hours bitten any person or animal, shall, upon demand, surrender such dog to the poundkeeper, who shall impound and keep such dog at the public pound, in a separate kennel, for a period not less than fourteen days; during said period it shall be the duty of the Director of Public Health, upon being notified by the poundkeeper that such dog has been impounded, to determine whether or not such dog is suffering from any disease. If the Director of Public Health shall determine that such dog is diseased and, by reason of such disease, is dangerous to persons or to other animals, he shall so notify the poundkeeper, in writing, to destroy such dog. A copy of said notice may also be served upon the owner or person having control of such dog. If the Director of Public Health shall determine that such dog is not so diseased, and if the license required for such dog shall have been duly paid for the then current fiscal year, the poundkeeper shall notify by mail the person to whom the license for such dog was issued and at the address from which the dog was surrendered to the poundkeeper, and shall, upon demand, release such dog to the owner or person lawfully entitled thereto, upon payment of one dollar and fifty cents ($1.50) for the keep of such dog; provided, however, that if no person lawfully entitled to such dog shall, within five days after the date of giving said last-mentioned notice, appear at the public pound and request the release of such dog, and pay said charges, such dog may be sold or destroyed by the poundkeeper in the same manner hereinabove provided.

Section 17. The poundkeeper shall provide all animals in his custody with proper food and water, and shall give them all necessary care and attention.

Section 18. The fines and charges upon animals impounded shall be as follows:

1. For every horse, mare, mule, ass, ox, cow, bull, colt or calf over the age of six months, a fine of four dollars and an additional charge as follows: One dollar per day for keeping, and of one dollar additional if advertised, and of one dollar if received from a stable, as hereinafter provided.

2. For every colt or calf under the age of six months, and for every sheep, lamb, goat or hog, a fine of two dollars and a charge of fifty cents per day for keeping, and of one dollar additional if advertised.

3. For every unlicensed dog, a fine of two dollars and fifty cents and a charge of twenty-five cents per day for keeping.

4. For every licensed dog impounded in violation of any of the provisions of this ordinance, a fine of one dollar and a charge of twenty-five cents a day for keeping.

5. For every other animal, a fine of two dollars and fifty cents and a charge of fifty cents per day for keeping.

Section 19. No animal shall, under any circumstances, be released by the poundkeeper or his deputies until all the fines and charges imposed thereon, as provided by this ordinance, shall have been paid. Provided, however, that if it shall be made to appear to the poundkeeper that any of the animals impounded by him, mentioned in subdivision 1 of the preceding section, have broken out, or were let out, of the fenced enclosure of the owner without fault on his part, the poundkeeper shall release the said animals without charge. If the said poundkeeper refuses to release any such animal, and the owner pays the demanded charges, the owner may apply by petition to the

Board of Supervisors to have such charges refunded, and the Board of Supervisors shall order the repayment, without cost to the owner, of the charges so paid if it shall appear that the said animals broke out, or were let out, of the fenced enclosure of the owner without fault on his part.

Section 20. The poundkeeper shall keep a record of the number, description and disposition of all animals impounded, showing in detail in the case of each animal the date of receipt, the date and manner of disposal, the manner and time of advertising for sale, the name of the person reclaiming, redeeming or purchasing, the reason for destruction, and the fines and charges and proceeds of sales received on account thereof, and such additional records as the Controller may prescribe. Such records shall be kept by the poundkeeper in a book or books provided for that purpose, which shall be the record book or books of the office of the poundkeeper and shall not be removed therefrom except upon written order from a duly constituted authority.

Hon. Angelo Rossi, Mayor of San Francisco, City Hall.

Appropriation Exposition Building, San Francisco, good until August 13, 1935.

C. E. COOPER.

Adopted.

Supervisor Havenner thereupon presented the following resolution, which was *adopted* by the following vote:

Board of Supervisors Pledged to Make Every Effort to Raise Sum of $250,000 for Construction of Agricultural Exposition Building.

(Code No. 9.051)

Resolution No. 421, as follows:

Whereas, the Legislature of the State of California, in the session of 1931, appropriated the sum of $250,000 for the construction of an agricultural exposition building for the use of No. 1-A Agricultural District Association; and

Whereas, the Legislature also provided that the sum of money thus appropriated should not be available for expenditure until an additional sum of $250,000 should be paid to No. 1-A Agricultural District Association by the City and County of San Francisco or some other public or private corporation or agency; and

Whereas, owing to the current economic and business depression it

has been impossible during the past year to raise the said additional sum of $250,000 by private subscription; and

Whereas, at the time of making the annual Budget for the City and County of San Francisco for the current fiscal year the problem of providing food and the necessities of life for many thousands of unemployed and destitute citizens was of such transcendent importance that the Board of Supervisors deemed it unjust and improper to impose any additional tax charges for any other purposes whatsoever upon the taxpayers of the City and County until the unemployment emergency had passed; and

Whereas, the legislative bodies of every other county in California have pursued the same policy and have been guided and controlled by the same principles and motives in making their annual county budgets and fixing their tax rates during the present economic emergency; and

Whereas, the members of the Board of Supervisors of the City and County of San Francisco are unanimously and earnestly in favor of the construction of an Agricultural Exposition building in or adjacent to San Francisco; and

Whereas, the Comptroller of the State of California has advised the Mayor of San Francisco that the appropriation of $250,000 for the Agricultural Exposition building will remain in effect until August 13, 1935; now, therefore, be it

Resolved, That this Board of Supervisors, considering this project one of primary importance to the progress of this City and County, hereby pledges itself to make every legal effort to raise the additional sum of $250,000 necessary to make the State appropriation available for the construction of the Agricultural Exposition building at the earliest possible date; and be it further

Resolved, That this Board of Supervisors requests his Honor the Mayor to conserve all surpluses obtained, except for unforeseen emergencies of more importance, to the end that there may be available a substantial contribution, if possible, prior to the convening of the Legislature at Sacramento in January, 1933; and be it further

Resolved, That his Honor the Mayor is hereby authorized and requested to appoint a special committee of the membership of this Board and other citizens to make immediate and vigorous efforts to preserve the appropriation heretofore made by the State Legislature and to raise the additional sum of money necessary to proceed with the construction of the Agricultural Exposition building without any avoidable delay.

(Code No. 17.08)

Resolution No. 399, as follows:

Resolved, That at the general election to be held on November 8, 1932, there be submitted to the electors a proposed ordinance providing for the collection and disposition of refuse in the City and County of San Francisco; providing for the licensing of refuse collectors by the Director of Public Health; fixing the maximum rates or charges for the collection of refuse by licensed refuse collectors from homes, apartment houses, stores, etc.; dividing City and County of San Francisco into collection routes; providing penalties for the violation of the provisions of this ordinance; and providing for the repeal of the initiative ordinance passed by the People of the City and County of San Francisco on June 14, 1927.

Bill No. ————, Ordinance No. ————, as follows:

Providing for the collection and disposition of refuse in the City and County of San Francisco; providing for the licensing of refuse collectors by the Director of Public Health; fixing the maximum rates or charges for the collection of refuse by licensed refuse collectors from homes, apartment houses, stores, etc.; dividing City and County of San Francisco into collection routes; providing penalties for the violation of the provisions of this ordinance.

Be it ordained by the people of the City and County of San Francisco as follows:

Section 1. The term "refuse" as used in this ordinance shall be taken to mean all waste and discarded materials from dwelling places, households, apartment houses, stores, office buildings, restaurants, hotels, institutions and all commercial establishments, including waste or discarded food, animal and vegetable matter from all kitchens thereof, waste paper, cans, glass, ashes, and boxes and cuttings from trees, lawns and gardens.

Section 2. It shall be unlawful for any person, firm or corporation to dispose of refuse as defined in this ordinance except as herein provided.

Section 3. Refuse consisting of waste or discarded food, animal and vegetable matter, discarded containers of food, animal and vegetable matter, and ashes shall be collected and placed in suitable metal cans of sufficient capacity by the producer or landlord who by reason of contract or lease with an occupant is obligated to care for such refuse, and delivered to a refuse collector to be disposed of as herein provided. Waste paper and boxes and other refuse materials not subject to putrefaction, or decay, and cuttings from trees, lawns and gardens may be placed in any suitable container and delivered by the producer or landlord, who by reason of contract or lease with the occupant is obligated to care for such refuse and deliver same to a refuse collector, to be disposed of as herein provided; provided, however, that it shall be optional with the producer or landlord to deliver waste paper or other refuse having a commercial value to a refuse collector, and the producer or landlord may dispose of the same in any manner he may see fit. If the producer or landlord elects to deliver waste paper or other refuse having a commercial value to a refuse collector, the collector shall receive the same and no additional charge shall be made for its removal. Refuse which under the provisions hereof must be deposited in a metal can of suitable capacity shall be removed daily from the place where the same is created and either delivered to a refuse collector or deposited in a non-combustible container in some room or place not used for human habitation, to be delivered therefrom to the refuse collector.

Section 4. It shall be unlawful for any person, firm or corporation, other than a refuse collector licensed by the Director of Public Health as in this ordinance provided, to transport through the streets of the City and County of San Francisco any refuse as in this ordinance defined, or to collect or to dispose of the same, except waste paper, or other refuse having a commercial value. It is provided, however, that a license for a refuse collector, as provided in section 8 hereof, shall be distinguished from a permit to operate, in the City and County of San Francisco on a certain designated route, as hereinafter provided.

The City and County of San Francisco is herewith divided and established into routes for the collection of refuse, as designated on a map of the City and County of San Francisco, attached hereto, each said route to include only the side of the street or streets bounding each route as designated by a number on said map, said routes being numbered one to ninety-seven, inclusive, and said map and said routes are marked Exhibit A, and attached hereto and made a part of this ordinance.

Any person, firm or corporation desiring to transport through the streets of the City and County of San Francisco any refuse as herein defined, or to collect or dispose of the same, shall make application to the Director of Public Health for permission so to do. Said application for such permit shall contain the name of the person, firm or corporation, any of the particular route or routes, designated in said map of routes, proposed to be served by said person, firm or corporation, and a statement that said person, firm or corporation will abide by all the provisions of this ordinance, and will not charge a greater rate for the collection and disposition of said refuse than that fixed in this ordinance.

(MAP)

The Director of Public Health shall grant such application for a

permit, but may refuse the same when the route proposed is already adequately served by a licensed refuse collector. An application for a permit must be granted, however, by the said Director of Public Health, and it is mandatory on said Director to grant the same, when it shall appear in any said application for a route or routes by a person, firm or corporation, that twenty per cent or more of the householders, business men, apartment house owners, hotel keepers, institutions or residents in said route or routes, using refuse service, and paying for same, or obligated to do so, have signed a petition or contract in which they have stated that they are inadequately served by any refuse collector who is then collecting refuse on said route. That inadequate service is herein defined as the failure, on the part of any refuse collector, to properly collect refuse on said route, or the overcharging for the collection of same, or for insolence towards persons whose refuse has been collected, or the collection by any refuse collector whose license has been revoked as provided in Section 9 hereof. Such permit so granted by the Director of Public Health shall not be exclusive, however, and one or more persons, firms or corporations may be given a permit to collect on the same route.

Persons, firms or corporations desiring to transport through the streets of the City and County of San Francisco, only waste paper or other refuse having a commercial value, and to collect and dispose of same need not obtain a permit therefor from the Director of Public Health as for the collection of other refuse.

Section 5. All refuse collected by any refuse collector shall be incinerated at the San Francisco incinerator, located in the block bounded by Alameda, Fifteenth, Rhode Island and DeHaro streets, or at some other incinerator, hereafter designated by the Board of Supervisors in the City and County of San Francisco, or such other disposition, or by any other method designated by the Board of Supervisors, either by dumping at sea, or otherwise, as determined by the Board of Supervisors. It is provided, however, that metals may be melted at places other than at said incinerator.

That said incinerator shall be placed under the control of some person, firm or corporation designated by the Board of Supervisors and said person, firm or corporation, shall incinerate in said incinerator all refuse received, as herein provided, or the Board of Supervisors may provide for the dumping at sea, by any person, firm or corporation, or the disposition of refuse by any other means, as provided by law or ordinance of the City and County of San Francisco, and said person, firm or corporation incinerating, dumping at sea or otherwise disposing of said refuse as herein provided, may charge the refuse collector for such disposition, a charge which may be agreed upon between the refuse collector and said person, firm or corporation for so disposing of said refuse. Provided, however, that if such charge cannot be agreed upon, such charge shall be fixed and determined by the Board of Supervisors, but in no event shall the charge exceed the maximum of one dollar and fifty cents per ton. Should any dispute arise between the refuse collector and the person, firm or corporation having control of said incinerator, or other disposition of refuse, as provided for by law, concerning the amount of such charge, pending the determination thereof by the Board of Supervisors as herein provided, the person, firm or corporation having charge and control of said incinerator or other disposition of said refuse, shall continue such disposition until the matter of such charge will have been determined by the Board of Supervisors, and upon such determination, the refuse collector shall pay to the said person, firm or corporation, the amount fixed by said person, firm or corporation in charge of said incinerator for all refuse incinerated or otherwise disposed of pending said dispute.

Section 6. The maximum rates or charges for the collection and disposition of refuse, as herein defined, by the refuse collectors are hereby fixed as follows:

The rates for more than 600 rooms in any one apartment house shall be subject to contract between the owner or lessee of the apartment house and a duly licensed refuse collector.

In determining the number of rooms of any household, building or apartment, in order to ascertain the rate for the collection of refuse therefrom, halls, alcoves, storerooms, bathrooms, closets and toilets shall not be considered as rooms, nor shall basements or attics be considered as rooms unless the same be occupied as living quarters.

Any collection charges not specifically set forth herein shall be subject to contract between the producer and a duly licensed refuse collector.

Section 7. It shall be unlawful for any refuse collector to charge a greater rate for the collection and disposition of refuse than that fixed in section 6 of this ordinance.

Nothing herein contained shall be taken or construed as preventing a refuse collector from charging a less rate or charge for the collection of refuse than that fixed in section 6 of this ordinance.

Section 8. Each licensed refuse collector shall be assigned a number by the Director of Public Health. The Director of Public Health shall furnish each collector a metal badge on which is marked the number assigned the collector, who at all times while collecting refuse shall wear said badge in plain view. The Director of Public Health shall collect from each collector for the expenses of providing said badge and the issuance of said license the sum of $5. Each vehicle

or wagon in which refuse is transported through the streets shall be assigned a number by the Director of Public Health and the number thereof shall be plainly marked thereon.

Section 9. The license, as distinguished from a permit herein, of any refuse collector, may be revoked by the Director of Public Health for failure on the part of the refuse collector to properly collect refuse, or for overcharging for the collection of same, or for insolence towards persons whose refuse he is collecting, and it shall be unlawful for any person whose license is so revoked to collect refuse in the City and County of San Francisco.

No license of a refuse collector shall be revoked except upon a hearing of which the refuse collector has been given a notice of at least three days.

Section 10. Upon the payment of the rate fixed in this ordinance for the collection and removal of refuse, the person paying the same shall be entitled to, and there shall be delivered to him a receipt on which shall be shown the amount paid, the premises for which it is paid, the name and number of the collector, the number of the vehicle or wagon, the schedule of rates herein set forth, and on the back of said receipt there shall be printed the following words:

"The rates for the collection of refuse are fixed by ordinance of the Board of Supervisors. Complaints as to service should be made to the Director of Public Health."

Section 11. Disputes over charges made by collectors or as to the character of the service performed shall be decided by the Director of Public Health.

Section 12. A refuse collector shall be entitled to payment for the collection of refuse at the end of each month from each householder or landlord served by him and from whom the payment is due.

Section 13. The initiative ordinance passed by the People of the City and County of San Francisco on June 14, 1927, providing for the collection and disposition of refuse in the City and County of San Francisco; providing for the licensing of refuse collectors by the Board of Health; fixing the maximum rates or charges for the collection of refuse by licensed refuse collectors from homes and apartment houses; dividing the City and County of San Francisco into collection routes; and providing penalties for the violation of the provisions of this ordinance, and all other ordinances in conflict herewith, are herewith repealed.

Section 14. Any person, firm or corporation who shall violate any of the provisions of this ordinance shall be guilty of a misdemeanor, and upon conviction thereof shall be punished by a fine not to exceed five hundred (500) dollars, or by imprisonment in the county jail for not more than six (6) months, or by both such fine and imprisonment.

Section 15. This ordinance shall take effect ten days after the declaration of the official count of the votes cast therefor; provided, however, that for the purpose of issuing licenses to refuse collectors, application may be filed and the licenses issued during the period between the final approval of this ordinance and the date of its taking effect.

Section 16. This ordinance may be amended, altered or changed upon recommendation of the Chief Administrative Officer in any respect by a vote of two-thirds (2/3) of the members of the Board of Supervisors; provided, however, that no rate, rates or charges for the collection of refuse shall be increased at any time beyond the rates specified in this ordinance.

The foregoing matter was discussed by Supervisors Spaulding, Stanton and McSheehy.

Supervisor McSheehy presented the following minority report, read by the Clerk, to-wit:

(Code No. 17.08)

Report on San Francisco Hospital.

The following report, requested on motion of Supervisor Spaulding, was read by the Clerk:

To the Honorable Board of Supervisors, City and County of San Francisco.

The past year has seen the San Francisco Hospital crowded to its doors. During the fiscal year just closed there was an average of 1033 patients each day. During the month of February we housed and cared for a daily average of 1129 patients, reaching a single day peak of 1173. The majority of general hospital wards have been overcrowded tremendously. For instance, on a ward intended for 26 beds we are now housing 55 patients. The women's section of the Tuberculosis Division on each ward 50 beds have been crowded in a space normally designed for 25. This patient load has not lessened in the past two months, the usual low period of the year, but has averaged for July and August 1123 and 1137 patients, respectively.

So that you will appreciate the conditions under which we are working, I wish to cite the growth of the general hospital division as an example. This division of the hospital was originally built to accommodate 505 beds. This does not mean that we could take 500 patients. Approximately 425, or 85 per cent, would be a normal maximum load. You must appreciate that in a hospital of this size the various wards must be special in their activity. You could not put an adult in the children's service, a man on a woman's ward and only a limited group in the maternity service. It is not infrequent also to admit a patient in a medical ward who would eventually be transferred to the surgical service for operation. Again, the admission of patients today may be three-quarters women and next week a predominate number of male patients. Thus in the normal operation of the hospital there must be a reasonable leeway in beds set up to

limit these varying and changing conditions of patient load; therefore this normal leeway of 15 per cent. At the present time there are 740 beds set up in the general division of the hospital with the 15 per cent leeway above explained, taking that into consideration that the general hospital is carrying an overload of approximately 60 per cent.

A total of 12,256 patients were afforded care at the City's expense during the fiscal year ending June 30, 1932. The average patient stay in the hospital was 28.54 days. The pressure of meeting this unprecedented overload would have been far greater were it not for the fact that the force of City physicians was increased from three to five on or about July 1, 1931. This allowed home care of many cases that otherwise would have reached the hospital. A check along these lines compared with normal increase in the hospital in past years, allowing the month of July to pass without consideration to get the new program under way, the increased activity of the City physician force showed the hospital population for August to be ten patients less than the previous year, when with normal growth we would expect to house at least 60 patients in excess of the number we actually cared for. In spite of the efficacy of this program, when the limits of the hospital were about reached on February 6th, we were forced to limit the admission of patients to absolute emergencies and threw a greater amount of work on the City physician. Although the fifth floor wards have been completed, as well as the addition to the women's tuberculosis building, neither equipment nor funds were available to utilize these added facilities to meet the overcrowded condition.

Regardless of the patient load we have had to handle, the budget of this institution has remained at approximately the same level for the past three years, namely, with sufficient funds to take care of 900 patients. Lowering costs in all merchandizing fields has allowed this money to stretch further, so that what deficit has occurred every year has been small compared with the overload of patients handled. Every activity of the hospital has been crowded to the limit. Although the fact that in years past the San Francisco Hospital has maintained an average of about 80 employees for each 100 patients, during the past year, with the limited personnel, we have carried on with as low as 69 employees for each 100 patients. This lack of help is most greatly reflected in the nursing service. In this department the Board of Supervisors has been more liberal than in any other in permitting an increase of personnel. The actual number of personnel in the nursing division of the hospital still has been so limited that it is not an infrequent complaint from members of the visiting medical staff that essential treatments they have ordered have not been carried out satisfactorily or sometimes not at all, because there were not enough nurses on duty to give the service required to the patient. This does not necessarily mean actual neglect, but certainly tends to lengthen the stay of the patient in the hospital. It is our constant effort to hasten the recovery of patients at the San Francisco Hospital, and at this time it is particularly desirable, in view of the large and growing waiting list. At the present time we have 394 medical and surgical cases waiting for admission, over 200 tonsil cases scheduled, 21 women for the tuberculosis division, 10 men and 5 children. We also have 358 maternity cases scheduled, which group covers a period of approximately six months, and part of which will be cared for in their homes by the out-patient obstetrical department.

The work in the operating room has been greatly accelerated since January of 1930, until we are averaging between 550 and 600 operations per month. Exclusive of Sundays, when only emergency operations are performed, this makes a daily average of from 18 to 20 operations, and on two days of the week, when school children are brought in for removal of tonsils, there are from 36 to 40 operations.

The increased load is reflected in the kitchen. The main kitchen of the hospital, which was originally designed to cook for 800 people, now serves 1600, or double the original capacity. Various equipment has been added, larger steam pots and additional equipment of this

nature has been set up, additional personnel have been employed to meet this necessity. Accessory facilities such as cold storage in connection with the kitchen is woefully short in meeting the present-day needs, by more frequent purchase of food supplies. This difficulty is being met in a fairly satisfactory manner.

X-ray Department: Over the past twenty years the X-ray service, from a standpoint of diagnosis and treatment, has greatly increased. The original floor space allotted to X-ray when the hospital was built is now considered only one-fifth large enough to meet that service. During the past year there showed a total of 1164 cases over, an increase of more than 10 per cent over the previous year were handled, with an increase of nearly 3000 more films taken than the year before. The overloading of every department in the hospital is equally true as the above mentioned examples. This brief presentation of conditions existing in the San Francisco Hospital has been presented at your request, only to show you the problems we are facing today and expect to face as the winter progresses, and the increasing load that is bound to apply to our doors for admission. The personnel authorized in the budget have been found very inadequate to care for the extra patient load of 200 to 250 patients that was used as a basis of computation. It is hoped that from time to time that when I must submit through the Director of Public Health a report of these conditions and request for sufficient relief to meet the problems that such request will receive kindly consideration from your hands.

Respectfully submitted,

L. M. WILBOR, M. D., Superintendent.

Dr. L. M. Wilbor, superintendent of the San Francisco Hospital, was heard in explanation of the foregoing report.

Referred.

Whereupon, the foregoing report was *referred to the Health Committee.*

Hydrocyanic Gas—Permits for Regulating Use of.
(Code No. 17.11)

Bill No. 157, Ordinance No. 17.112, as follows:

Regulating the use of hydrocyanic gas and other dangerous gases and fumes; and providing for the issuance of a permit to use the same and regulating the issuance of said permit; and providing for a fee therefor and for a penalty for the violation of this ordinance.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. No person, firm or corporation shall use within the City and County of San Francisco hydrocyanic gas, cyanogen or chloropicrin, or any other poisonous, noxious or dangerous gases or fumes which are dangerous to the life or health of human beings for any purpose whatsoever without first obtaining a permit from the Director of Public Health so to do.

Section 2. Any person, firm or corporation engaged in any business or calling, or who may hereafter engage in any business or calling, and who may desire to continue in said business or calling, where hydrocyanic acid gas, cyanogen or chloropicrin or any other poisonous, noxious or dangerous gases or fumes dangerous to the life or health of human beings are used shall make written application to the Director of Public Health for a permit to use or to continue to use the same. The said application for said permit shall be upon such forms as the Director of Public Health shall provide and shall set forth the name of the person, firm or corporation engaged in the use of or who is desirous of using said gas, the particular character of gas used or to be used, the purposes and place where the same is used or to be used and the probable amount thereof which will be used during the existence of said permit and the name of the person or persons who will have direct charge of the use of said gas. Before issuing any permit for the use of said gas, the

Director of Public Health shall himself or through such person or persons as he may designate for that purpose, inquire into the training, experience, character, reputation and general character of the applicant for said permit and of the person or persons who are to have direct charge of the use of said gas, and for the purpose of ascertaining the training, experience, character, reputation and qualification of either said applicant or said person who has, or is to have, direct charge of the use of said gas, the Director of Public Health, or his representatives, may cause said applicant or said persons to appear before him, or them, and propound to said applicant, or to said person or persons, such questions as will show the training, experience, qualifications, character and reputation of said applicant, or of said persons, in regard to the use of said gas and the regulations governing said use. The Director of Public Health shall have full power and authority to refuse to grant any permit for the use of said abovementioned gas should he ascertain or determine that the manner in which said gas is to be used, or the place where it is to be used, is dangerous to life or health, or the person under whose direction it is to be used has not sufficient training, experience, character and reputation so that the use of said gas can be entrusted to said person without danger, or probability of danger, to the lives of human beings.

Section 3. Every permit issued under authority of this ordinance shall state the place where said gas is to be used, the character thereof and the probable amount thereof to be used and the name or names of the person, firm or corporation authorized to use the same and the name or names of the person or persons in direct charge of said use, provided, however, that when a permit is issued to any person, firm or corporation engaged in the general business of fumigating at places other than a fixed place of business, said permit need not specify the various places where said gas is to be used. Any permit so issued shall remain in force for a period not exceeding one (1) year from the date thereof, provided, however, that the Director of Public Health may issue a permit for a shorter period if the same is requested in said application for said permit.

All applications for a renewal of any permit shall contain all of the information required for an original permit.

Section 5. Any person, firm or corporation engaged in the business of fumigation, which said fumigation is to take place at any place other than the place of business of the person, firm or corporation holding a permit under this ordinance, shall, at least twenty-four (24) hours before generating or releasing any of the gases mentioned in this ordinance for fumigation purposes outside of his, or its fixed place of business, make application to the Director of Public Health for a permit to so do, which said application shall state the location of the building or enclosed space to be fumigated and the day and hour when such fumigation shall be commenced and the name of the person or persons who will be in direct charge of said fumigation. If the person, firm or corporation making application for said permit provided for in this section has already received a permit under the provisions of Section 2 hereof, which will authorize him to carry on the business of fumigation outside of a fixed place of business, and the person or persons in charge of said fumigation have been approved by the said Director of Public Health, a special permit to generate or release said gas for fumigation purposes at the place indicated in said application shall be issued by the said Director of Public Health upon the payment of a fee of three ($3.00) dollars. Such permit shall be kept on the premises to be fumigated and should the applicant therefor be

unable to do the work on the day and hour set forth in said permit, he shall notify the Director of Public Health at least sixteen (16) hours prior to said time and thereupon the Director of Public Health shall specify a new time for the fumigation of the premises or space specified in said permit.

Section 6. The Director of Public Health shall have power to make and enforce all reasonable rules and regulations for carrying out the purposes of this ordinance which are not in conflict therewith.

Section 7. Any person, firm or corporation who shall violate any of the provisions of this ordinance shall be guilty of a misdemeanor and upon conviction thereof shall be punishable by a fine not to exceed five hundred ($500.00) dollars, or by imprisonment in the County Jail for a period not exceeding six (6) months, or by both such fine and imprisonment, and each day that any violation of this ordinance shall be continued or suffered by any person, firm or corporation shall be deemed a separate offense hereunder.

Section 8. Ordinance No. 6904 (New Series), and all other ordinances or portions thereof which are in conflict with this ordinance, are hereby repealed.

Section 1. The term "refuse" as used in this ordinance shall be taken to mean all waste and discarded materials from dwelling places, households, apartment houses, stores, office buildings, restaurants, hotels, institutions and all commercial establishments, including waste or discarded food, animal and vegetable matter from all kitchens thereof, waste paper, cans, glass, ashes, and boxes and cuttings from trees, lawns and gardens.

Section 2. It shall be unlawful for any person, firm or corporation to dispose of refuse as defined in this ordinance except as herein provided.

Section 3. Refuse consisting of waste or discarded food, animal and vegetable matter, discarded containers of food, animal and vegetable matter, and ashes shall be collected and placed in suitable metal cans of sufficient capacity by the producer or landlord who by reason of contract or lease with an occupant is obligated to care for such refuse, and delivered to a refuse collector to be disposed of as herein provided. Waste paper and boxes and other refuse materials not subject to putrefaction, or decay, and cuttings from trees, lawns and gardens may be placed in any suitable container and delivered by the producer or landlord, who by reason of contract or lease with the occupant is obligated to care for such refuse and deliver same to a refuse collector, to be disposed of as herein provided; provided, however, that it shall be optional with the producer or landlord to deliver waste paper or other refuse having a commercial value to a refuse collector, and the producer or landlord may dispose of the same in any manner he may see fit. If the producer or landlord elects to deliver waste paper or other refuse having a commercial value to a refuse collector, the collector shall receive the same and no additional charge shall be made for its removal. Refuse which under the provisions hereof must be deposited in a metal can of suitable capacity shall be removed daily from the place where the same is created and either delivered to a refuse collector or de-

posited in a non-combustible container in some room or place not used for human habitation, to be delivered therefrom to the refuse collector.

Section 4. It shall be unlawful for any person, firm or corporation, other than a refuse collector licensed by the Director of Public Health as in this ordinance provided, to transport through the streets of the City and County of San Francisco any refuse as in this ordinance defined, or to collect or to dispose of the same, except waste paper, or other refuse having a commercial value. It is provided, however, that a license for a refuse collector, as provided in section 8 hereof, shall be distinguished from a permit to operate, in the City and County of San Francisco on a certain designated route, as hereinafter provided.

The City and County of San Francisco is herewith divided and established into routes for the collection of refuse, as designated on a map of the City and County of San Francisco, attached hereto, each said route to include only the side of the street or streets bounding each route as designated by a number on said map, said routes being numbered one to ninety-seven, inclusive, and said map and said routes are marked Exhibit A, and attached hereto and made a part of this ordinance.

Any person, firm or corporation desiring to transport through the streets of the City and County of San Francisco any refuse as herein defined, or to collect or dispose of the same, shall make application to the Director of Public Health for permission so to do. Said application for such permit shall contain the name of the person, firm or corporation, any of the particular route or routes, designated in said map of routes, proposed to be served by said person, firm or corporation, and a statement that said person, firm or corporation will abide by all the provisions of this ordinance, and will not charge a greater rate for the collection and disposition of said refuse than that fixed in this ordinance.

The Director of Public Health shall grant such application for a permit, but may refuse the same when the route proposed is already adequately served by a licensed refuse collector. An application for a permit must be granted, however, by the said Director of Public Health, and it is mandatory on said Director to grant the same, when it shall appear in any said application for a route or routes by a person, firm or corporation, that twenty per cent or more of the householders, business men, apartment house owners, hotel keepers, institutions or residents in said route or routes, using refuse service, and paying for same, or obligated to do so, have signed a petition or contract in which they have stated that they are inadequately served by any refuse collector who is then collecting refuse on said route. That inadequate service is herein defined as the failure, on the part of any refuse collector, to properly collect refuse on said route, or the overcharging for the collection of same, or for insolence towards persons whose refuse has been collected, or the collection by any refuse collector whose license has been revoked as provided in Section 9 hereof. Such permit so granted by the Director of Public Health shall not be exclusive, however, and one or more persons, firms or corporations may be given a permit to collect on the same route.

Persons, firms or corporations desiring to transport through the streets of the City and County of San Francisco, only waste paper or other refuse having a commercial value, and to collect and dispose of same need not obtain a permit therefor under the provisions of this ordinance from the Director of Public Health as for the collection of other refuse.

Section 5. All refuse collected by any refuse collector shall be incinerated at the San Francisco incinerator, located in the block bounded by Alameda, Fifteenth, Rhode Island and DeHaro streets, or at some other incinerator, hereafter designated by the Board of Supervisors in the City and County of San Francisco, or such other disposition, or by any other method designated by the Board of Supervisors, either by dumping at sea, or otherwise, as determined by the Board of Supervisors. It is provided, however, that metals may be melted at places other than at said incinerator.

That said incinerator shall be placed under the control of some person, firm or corporation designated by the Board of Supervisors and said person, firm or corporation, shall incinerate in said incinerator all refuse received, as herein provided, or the Board of Supervisors may provide for the dumping at sea, by any person, firm or corporation, or the disposition of refuse by any other means, as provided by law or ordinance of the City and County of San Francisco, and said person, firm or corporation incinerating, dumping at sea or otherwise disposing of said refuse as herein provided, may charge the refuse collector for such disposition, a charge which may be agreed upon between the refuse collector and said person, firm or corporation for so disposing of said refuse. Provided, however, that if such charge cannot be agreed upon, such charge shall be fixed and determined by the Board of Supervisors, but in no event shall the charge exceed the maximum of one dollar and fifty cents per ton. Should any dispute

arise between the refuse collector and the person, firm or corporation having control of said incinerator, or other disposition of refuse, as provided for by law, concerning the amount of such charge, pending the determination thereof by the Board of Supervisors as herein provided, the person, firm or corporation having charge and control of said incinerator or other disposition of said refuse, shall continue such disposition until the matter of such charge will have been determined by the Board of Supervisors, and upon such determination, the refuse collector shall pay to the said person, firm or corporation, the amount fixed by said person, firm or corporation in charge of said incinerator for all refuse incinerated or otherwise disposed of pending said dispute.

The rates for more than 600 rooms in any one apartment house shall be subject to contract between the owner or lessee of the apartment house and a duly licensed refuse collector.

In determining the number of rooms of any household, building or apartment, in order to ascertain the rate for the collection and disposition of refuse therefrom, halls, alcoves, storerooms, bathrooms, closets

and toilets shall not be considered as rooms, nor shall basements or attics be considered as rooms unless the same be occupied as living quarters.

Any collection and disposition charges not specifically set forth herein shall be subject to contract between the producer and a duly licensed refuse collector.

Section 7. It shall be unlawful for any refuse collector to charge a greater rate for the collection and disposition of refuse than that fixed in section 6 of this ordinance.

Nothing herein contained shall be taken or construed as preventing a refuse collector from charging a less rate or charge for the collection of refuse than that fixed in section 6 of this ordinance.

Section 8. Each licensed refuse collector shall be assigned a number by the Director of Public Health. The Director of Public Health shall furnish each collector a metal badge on which is marked the number assigned the collector, who at all times while collecting refuse shall wear said badge in plain view. The Director of Public Health shall collect from each collector for the expenses of providing said badge and the issuance of said license the sum of $5. Each vehicle or wagon in which refuse is transported through the streets shall be assigned a number by the Director of Public Health and the number thereof shall be plainly marked thereon.

Section 9. The license, as distinguished from a permit herein, of any refuse collector, may be revoked by the Director of Public Health for failure on the part of the refuse collector to properly collect refuse, or for overcharging for the collection of same, or for insolence towards persons whose refuse he is collecting, and it shall be unlawful for any person whose license is so revoked to collect refuse in the City and County of San Francisco.

No license of a refuse collector shall be revoked except upon a hearing of which the refuse collector has been given a notice of at least three days.

Section 10. Upon the payment of the rate fixed in this ordinance for the collection and removal of refuse, the person paying the same shall be entitled to, and there shall be delivered to him a receipt on which shall be shown the amount paid, the premises for which it is paid, the name and number of the collector, the number of the vehicle or wagon, the schedule of rates herein set forth, and on the back of said receipt there shall be printed the following words:

"The rates for the collection of refuse are fixed by ordinance of the Board of Supervisors. Complaints as to service should be made to the Director of Public Health."

Section 11. Disputes over charges made by collectors or as to the character of the service performed shall be decided by the Director of Public Health.

Section 12. A refuse collector shall be entitled to payment for the collection of refuse at the end of each month from each householder or landlord served by him and from whom the payment is due.

Section 13. The initiative ordinance passed by the People of the City and County of San Francisco on June 14, 1927, providing for the collection and disposition of refuse in the City and County of San Francisco; providing for the licensing of refuse collectors by the Board of Health; fixing the maximum rates or charges for the collection of refuse by licensed refuse collectors from homes and apartment houses; dividing City and County of San Francisco into collection routes; and providing penalties for the violation of the provisions of this ordinance, and all other ordinances in conflict herewith, are herewith repealed.

Section 14. Any person, firm or corporation who shall violate any of the provisions of this ordinance shall be guilty of a misdemeanor, and upon conviction thereof shall be punished by a fine not to exceed five hundred (500) dollars, or by imprisonment in the county jail

for not more than six (6) months, or by both such fine and imprisonment.

Section 15. This ordinance shall take effect ten days after the declaration of the official count of the votes cast therefor; provided, however, that for the purpose of issuing licenses to refuse collectors, application may be filed and the licenses issued during the period between the final approval of this ordinance and the date of its taking effect.

Section 16. This ordinance may be amended, altered or changed upon recommendation of the Chief Administrative Officer in any respect by a vote of two-thirds (2/3) of the members of the Board of Supervisors; provided, however, that no rate, rates or charges for the collection and disposition of refuse shall be increased at any time beyond the rates specified in this ordinance.

Section 17. If any section, subsection, sentence, clause or phrase of this act is for any reason held to be unconstitutional, such decision shall not affect the validity of the remaining portions of this act. It is hereby declared that this act, and each section, subsection, sentence, clause and phrase thereof, would have been passed irrespective of the fact that any one or more other sections, subsections, sentences, clauses or phrases had been declared unconstitutional.

(Code No. 17.08)

Resolution No. 399, as follows:

Resolved, That at the general election to be held on November 8, 1932, there be submitted to the electors a proposed ordinance providing for the collection and disposition of refuse in the City and County of San Francisco; providing for the licensing of refuse collectors by the Director of Public Health; fixing the maximum rates or charges for the collection of refuse by licensed refuse collectors from homes, apartment houses, stores, etc.; dividing City and County of San Francisco into collection routes; providing penalties for the violation of the provisions of this ordinance; and providing for the repeal of the initiative ordinance passed by the People of the City and County of San Francisco on June 14, 1927.

Bill No. ————, Ordinance No. ————, as follows:

Providing for the collection and disposition of refuse in the City

and County of San Francisco; providing for the licensing of refuse collectors by the Director of Public Health; fixing the maximum rates or charges for the collection of refuse by licensed refuse collectors from homes, apartment houses, stores, etc.; dividing City and County of San Francisco into collection routes; providing penalties for the violation of the provisions of this ordinance.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. The term "refuse" as used in this ordinance shall be taken to mean all waste and discarded materials from dwelling places, households, apartment houses, stores, office buildings, restaurants, hotels, institutions and all commercial establishments, including waste or discarded food, animal and vegetable matter from all kitchens thereof, waste paper, cans, glass, ashes, and boxes and cuttings from trees, lawns and gardens.

Section 2. It shall be unlawful for any person, firm or corporation to dispose of refuse as defined in this ordinance except as herein provided, save that the provisions of this ordinance shall not include refuse which may be incinerated by an owner of a building for himself or for his tenants on the premises where produced, provided, however, that such incineration shall be subject to inspection and control by the Director of Public Health and the Fire Department.

Section 3. Refuse consisting of waste or discarded food, animal and vegetable matter, discarded containers of food, animal and vegetable matter, and ashes shall be collected and placed in suitable metal cans of sufficient capacity by the producer or landlord who by reason of contract or lease with an occupant is obligated to care for such refuse, and delivered to a refuse collector to be disposed of as herein provided. Waste paper and boxes and other refuse materials not subject to putrefaction, or decay, and cuttings from trees, lawns and gardens may be placed in any suitable container and delivered by the producer or landlord, who by reason of contract or lease with the occupant is obligated to care for such refuse and deliver same to a refuse collector, to be disposed of as herein provided; provided, however, that it shall be optional with the producer or landlord to deliver waste paper or other refuse having a commercial value to a refuse collector, and the producer or landlord may dispose of the same in any manner he may see fit. If the producer or landlord elects to deliver waste paper or other refuse having a commercial value to a refuse collector, the collector shall receive the same and no additional charge shall be made for its removal. Refuse which under the provisions hereof must be deposited in a metal can of suitable capacity shall be removed daily from the place where the same is created and either delivered to a refuse collector or deposited in a non-combustible container in some room or place not used for human habitation, to be delivered therefrom to the refuse collector.

Section 4. It shall be unlawful for any person, firm or corporation, other than a refuse collector licensed by the Director of Public Health as in this ordinance provided, to transport through the streets of the City and County of San Francisco any refuse as in this ordinance defined, or to collect or to dispose of the same, except waste paper, or other refuse having a commercial value. It is provided, however, that a license for a refuse collector, as provided in section 8 hereof, shall be distinguished from a permit to operate, in the City and County of San Francisco on a certain designated route, as hereinafter provided.

Upon the conviction of any person, firm or corporation for any violation of the provisions of this ordinance, the permit of such person, firm or corporation issued under the provisions of this ordinance, shall be forthwith and immediately terminated and canceled as of the date of conviction.

The City and County of San Francisco is herewith divided and established into routes for the collection of refuse, as designated on a map of the City and County of San Francisco, attached hereto, each said

route to include only the side of the street or streets bounding each route as designated by a number on said map, said routes being numbered one to ninety-seven, inclusive, and said map and said routes are marked Exhibit A, and attached hereto and made a part of this ordinance.

Any person, firm or corporation desiring to transport through the streets of the City and County of San Francisco any refuse as herein defined, or to collect or dispose of the same, shall make application to the Director of Public Health for permission so to do. Said application for such permit shall contain the name of the person, firm or corporation, any of the particular route or routes, designated in said map of routes, proposed to be served by said person, firm or corporation, and a statement that said person, firm or corporation will abide by all the provisions of this ordinance, and will not charge a greater rate for the collection and disposition of said refuse than that fixed in this ordinance.

The Director of Public Health shall grant such application for a permit, but may refuse the same when the route proposed is already adequately served by a licensed refuse collector. An application for

a permit must be granted, however, by the said Director of Public Health, and it is mandatory on said Director to grant the same, when it shall appear in any said application for a route or routes by a person, firm or corporation, that twenty per cent or more of the householders, business men, apartment house owners, hotel keepers, institutions or residents in said route or routes, using refuse service, and paying for same, or obligated to do so, have signed a petition or contract in which they have stated that they are inadequately served by any refuse collector who is then collecting refuse on said route. That inadequate service is herein defined as the failure, on the part of any refuse collector, to properly collect refuse on said route, or the overcharging for the collection of same, or for insolence towards persons whose refuse has been collected, or the collection by any refuse collector whose license has been revoked as provided in Section 9 hereof. Such permit so granted by the Director of Public Health shall not be exclusive, however, and one or more persons, firms or corporations may be given a permit to collect on the same route.

Persons, firms or corporations desiring to transport through the streets of the City and County of San Francisco, only waste paper or other refuse having a commercial value, and to collect and dispose of same need not obtain a permit therefor under the provisions of this ordinance from the Director of Public Health as for the collection of other refuse.

Section 5. All refuse collected by any refuse collector shall be incinerated at the San Francisco incinerator, located in the block bounded by Alameda, Fifteenth, Rhode Island and DeHaro streets, or at some other incinerator, hereafter designated by the Board of Supervisors of the City and County of San Francisco, or shall be disposed of by any other method designated by the Board of Supervisors, except dumping at sea. It is provided, however, that metals may be melted at places other than at said incinerator.

That said incinerator shall be placed under the control of some person, firm or corporation designated by the Board of Supervisors and said person, firm or corporation, shall incinerate in said incinerator all refuse received, as herein provided, or the Board of Supervisors may provide for the disposition of refuse by any other means, except dumping at sea, as provided by law or ordinance of the City and County of San Francisco, and said person, firm or corporation incinerating, or otherwise disposing of said refuse as herein provided, may charge the refuse collector for such disposition, a charge which may be agreed upon between the refuse collector and said person, firm or corporation for so disposing of said refuse. The rates for more than 600 rooms in any one apartment house shall be subject to contract between the owner or lessee of the apartment house and a duly licensed refuse collector.

In determining the number of rooms of any household, building or apartment, in order to ascertain the rate for the collection and disposition of refuse therefrom, halls, alcoves, storerooms, bathrooms, closets and toilets shall not be considered as rooms, nor shall basements or attics be considered as rooms unless the same be occupied as living quarters.

Any collection and disposition charges not specifically set forth herein shall be subject to contract between the producer and a duly licensed refuse collector.

Section 7. It shall be unlawful for any refuse collector to charge a greater rate for the collection and disposition of refuse than that fixed in section 6 of this ordinance.

Nothing herein contained shall be taken or construed as preventing a refuse collector from charging a less rate or charge for the collection of refuse than that fixed in section 6 of this ordinance.

Section 8. Each licensed refuse collector shall be assigned a number by the Director of Public Health. The Director of Public Health

shall furnish each collector a metal badge on which is marked the number assigned the collector, who at all times while collecting refuse shall wear said badge in plain view. The Director of Public Health shall collect from each collector for the expenses of providing said badge and the issuance of said license the sum of $5. Each vehicle or wagon in which refuse is transported through the streets shall be assigned a number by the Director of Public Health and the number thereof shall be plainly marked thereon.

Section 9. The license, as distinguished from a permit herein, of any refuse collector, may be revoked by the Director of Public Health for failure on the part of the refuse collector to properly collect refuse, or for overcharging for the collection of same, or for insolence towards persons whose refuse he is collecting, and it shall be unlawful for any person whose license is so revoked to collect refuse in the City and County of San Francisco.

No license of a refuse collector shall be revoked except upon a hearing of which the refuse collector has been given a notice of at least three days.

Section 10. Upon the payment of the rate fixed in this ordinance for the collection and removal of refuse, the person paying the same shall be entitled to, and there shall be delivered to him a receipt on which shall be shown the amount paid, the premises for which it is paid, the name and number of the collector, the number of the vehicle or wagon, the schedule of rates herein set forth, and on the back of said receipt there shall be printed the following words:

"The rates for the collection of refuse are fixed by ordinance of the Board of Supervisors. Complaints as to service should be made to the Director of Public Health."

Section 11. Disputes over charges made by collectors or as to the character of the service performed shall be decided by the Director of Public Health.

Section 12. A refuse collector shall be entitled to payment for the collection of refuse at the end of each month from each householder or landlord served by him and from whom the payment is due.

Section 13. The initiative ordinance passed by the People of the City and County of San Francisco on June 14, 1927, providing for the collection and disposition of refuse in the City and County of San Francisco; providing for the licensing of refuse collectors by the Board of Health; fixing the maximum rates or charges for the collection of refuse by licensed refuse collectors from homes and apartment houses; dividing City and County of San Francisco into collection routes; and providing penalties for the violation of the provisions of this ordinance, and all other ordinances in conflict herewith, are herewith repealed.

Section 14. Any person, firm or corporation who shall violate any of the provisions of this ordinance shall be guilty of a misdemeanor, and upon conviction thereof shall be punished by a fine not to exceed five hundred (500) dollars, or by imprisonment in the county jail for not more than six (6) months, or by both such fine and imprisonment.

Section 15. This ordinance shall take effect ten days after the declaration of the official count of the votes cast therefor; provided, however, that for the purpose of issuing licenses to refuse collectors, application may be filed and the licenses issued during the period between the final approval of this ordinance and the date of its taking effect.

Section 16. During the month of January each year the Controller of the City and County of San Francisco shall survey and examine into the rates to the producer for the collection and disposition of refuse, with a view to a reduction in such rates, and upon completion thereof shall report his conclusions to the Board of Supervisors. The Board of Supervisors may by a two-thirds vote reduce the rates upon

receipt of said report when found to be justified, and may increase said rates, but not to exceed the rates herein set forth. The Board of Supervisors shall have no other right to amend this ordinance.

Section 17. If any section, subsection, sentence, clause or phrase of this act is for any reason held to be unconstitutional, such decision shall not affect the validity of the remaining portions of this act. It is hereby declared that this act, and each section, subsection, sentence, clause and phrase thereof, would have been passed irrespective of the fact that any one or more other sections, subsections, sentences, clauses or phrases had been declared unconstitutional.

The Board of Supervisors of the City and County of San Francisco hereby submits to the qualified electors of said City and County of San Francisco at the general election to be held on the 8th day of November, 1932, a proposal to amend Section 149 of the Charter of said City and County as follows:

Emergency Appointments.

Section 149. When no list of eligibles is available for a position in the class requisitioned by the appointing officer, the Commission may certify for civil service temporary appointment an eligible from another list deemed by the Commission to be suitable to temporarily provide the service desired; or may authorize the appointing officer to make a non-civil service emergency appointment thereto for a period not exceeding ninety days and only until a regular appointment under the provisions of this Charter can be made. If a non-civil service emergency appointment is authorized, the Commission shall immediately hold an examination and establish an eligible list for such position. If its annual appropriation is insufficient to meet the cost of said examination, it shall report to the Mayor the estimated cost thereof, and the Mayor shall request and the Supervisors shall make

Section 148. Whenever a position controlled by the civil service provisions of this Charter is to be filled, the appointing officer shall make a requisition to the Civil Service Commission for a person to fill it. Thereupon the Commission shall certify to the appointing officer the name and address of the person standing highest on the list of eligibles for such position. In case the position is promotive, the Commission shall certify the name of the person standing highest on such list. In making such certification, sex shall be disregarded except when a statute, a rule of the Commission or the appointing officer specifies sex.

From the requisition of the appointing officer, or otherwise, the Commission shall determine whether the position is, in character, temporary, seasonal or permanent, and shall notify the candidate in accordance therewith, to the end that the candidate may have knowledge of the probable duration of employment. The Commission shall provide for such waiver of *permanent*, temporary or seasonal employment as it may deem just to candidates.

Any appointment to a position declared permanent by the Commission shall be on probation for a period of six months. At any time before the expiration of six months the appointing officer may, *with the approval of the Civil Service Commission*, terminate the appointment. The Commission shall inquire into the circumstances and may declare such person dismissed, *or may refuse to approve the termination of appointment*, or may return the name to the list of eligibles for certification to another department. *Upon the successful completion of the six months' probationary period the appointment shall be deemed complete. Charter Amendment No. ———

Salary Reductions.

Presented by Civic League of Improvement Clubs and Associations of San Francisco, Mills Building.

Adding a new section to the Charter of the City and County of San Francisco, known as Section 16A.

Section 16A: Whereas, in the judgment of the People of the City and County of San Francisco extraordinary economic conditions exist requiring a reduction in the operating expenses of the government of said City and County;

Therefore, commencing on the first day of the calendar month following the ratification of this amendment by the Legislature of the State of California, the present gross salaries, wages and compensations of the officers and employees of the City and County of San Francisco shall be reduced as follows, to-wit:

Officers or employees receiving $100.00 and not more than $125.00 per month, 2%.
Officers or employees receiving over $125.00 and not more than $155.00 per month, 3%.
Officers or employees receiving over $155.00 and not more than $165.00 per month, 4%.
Officers or employees receiving over $165.00 and not more than $177.00 per month, 5%.
Officers or employees receiving over $177.00 and not more than $210.00 per month, 6%.
Officers or employees receiving over $210.00 and not more than $265.00 per month, 8%.
Officers or employees receiving over $265.00 and not more than $300.00 per month, 9%.
Officers or employees receiving over $300.00 and not more than $339.00 per month, 10%.
Officers or employees receiving over $339.00 and not more than $475.00 per month, 11%.

And officers or employees receiving over $475.00 per month, 12%.

The reduction of salaries, wages and compensations hereinbefore provided for shall continue to be made to and until the 30th day of June, 1934, and thereafter until the Board of Supervisors, by resolution passed by not less than nine members of said Board and approved by the Mayor, shall declare that the extraordinary economic condition which is the present reason for reducing said salaries no longer exists; and thereupon the salaries, wages and compensations of said officers and employees shall be restored to the respective amounts thereof as the same existed prior to the adoption of this amendment.

All other provisions contained in this Charter regulating or fixing salaries, wages and compensations of the officers and employees of the City and County of San Francisco, including those provisions providing for the fixing, standardizing and payment of said salaries, wages and compensations, shall remain as set forth and contained in said Charter on the 8th day of January, 1932, expect in so far as the same are modified or changed by this amendment.

Supervisor Peyser declared that the Judiciary Committee reported against submission of the foregoing.

Thereupon, the following was presented and read by the Clerk:

Whereas, employees of the City of San Francisco on March 18, 1932, by resolution, voluntarily agreed to contribute to the relief of the unemployment distress for the fiscal year 1932-1933 the percentage of gross monthly income (the amount actually received each month plus retirement contribution) as follows:

Class	*Annual Salary Range*	*Rate of Contribution*
A	$1,200 to $1,399	3 %
B	$2,000 to $2,999	5½%
C	$3,000 to $3,999	7 %
D	$4,000 to $5,999	8 %
E	$6,000 to $9,999	10 %
F	$10,000 or over	12 %

Whereas, these contributions amount to approximately $1,500,000 annually, thereby saving the taxpayer from providing this amount of money, which is equivalent to 20 cents on the tax rate and also equivalent to proposed savings under suggested Charter amendments; and

Whereas, by their action, employees of San Francisco showed their willingness to cooperate with taxpayers and administration officers of San Francisco in meeting the City's financial problems, and at all times since shown their continued good faith by making their contributions approximately 100 per cent; and

Whereas, there is now evidence that during the year 1933-1934 conditions will require a continuance of voluntary salary contributions for the relief of unemployed; now, therefore, be it

Resolved, That the San Francisco Federation of Municipal Employees, officially representing all of the 13,500 employees in every department, hereby pledges itself to the continuance of voluntary salary contributions for relief during the fiscal year 1933-1934 and agrees to immediately take steps to have all City employees enter into contracts for 1933-1934 under same conditions as prevail in the 1932-1933 contracts; and be it

Further Resolved, That should economic conditions warrant, the San Francisco Federation of Municipal Employees agrees to confer with the Board of Supervisors and to consider proposals for continued voluntary contributions after June, 1934, in the amounts already specified, or such other amounts as may be determined upon.

Whereupon, the foregoing proposed amendment was *refused submission* by the following vote:

Ayes—None.

Charter Amendment No. ———

For the Creation of Cash Reserve Fund for Payments Prior to Tax Payments.

The following matter was taken up:

Providing for the creation of an emergency reserve fund for the disposition of unencumbered balances, for the making of supplemental appropriations, for the creation of a cash reserve fund to meet City and County expenses which must be paid prior to the receipt of tax payments, for temporary transfers or loans therefor based on and in anticipation of tax and other revenue collections, and for emergency loans in any fiscal year to be repaid out of the income and revenue of such fiscal year.

Describing and setting forth a proposal to the qualified electors of the City and County of San Francisco, State of California, to amend the Charter of said City and County by amending Sections 79, 80 and 81 thereof, relating to an emergency reserve fund, the disposition of unencumbered balances, the making of supplemental appropriations, the creation of a cash reserve fund to meet City and County expenses which must be paid prior to the receipt of tax payments, temporary transfers or loans therefor based on and in anticipation of tax and other revenue collections, and to emergency loans in any fiscal year to be repaid out of the income and revenue of such fiscal year.

The Board of Supervisors of the City and County of San Francisco hereby submits to the qualified electors of said City and County of San Francisco, at the general election to be held on the eighth day of November, 1932, a proposal to amend the Charter of said City and County as follows:

That Section 79 of said Charter be amended to read as follows:

Emergency Reserve Fund.

Section 79. The tax rate may be fixed by the Board of Supervisors so as to produce, by a specifically designated rate, as recommended by the Mayor in any proposed annual budget and the appropriation ordinance therefor, an amount necessary for an emergency reserve fund, which fund is hereby created, for the purposes of meeting any emergency as defined in Sections 16 or 25 of this Charter. Appropriations from such emergency reserve fund shall be made only on the recommendation of the department head concerned, the approval of the Chief Administrative Officer of the board or commission in charge of such department, the recommendation of the Mayor to the Board of Supervisors that such appropriation be made, and the vote of three-fourths of the Board of Supervisors.

The balance in said emergency reserve fund at the end of any fiscal

year shall be maintained and carried forward in said fund. The annual appropriation for said fund and the annual tax rate therefor shall not exceed one per centum of the amount of the levy required to meet all other expense appropriations unless and until the accumulated and unencumbered balance in said fund shall amount to a sum not to exceed three per centum of the tax levy required to meet all other expense appropriations in the then current fiscal year. The Board of Supervisors, on the recommendation of the Mayor, may make appropriations to and may levy taxes for said emergency reserve fund in excess of said three per centum of the tax levy for all other purposes.

That Section 80 of said Charter be amended to read as follows:

Fund Balances—Supplemental Appropriations.

Section 80. Unused and unencumbered appropriations or unencumbered balances existing at the close of any fiscal year in revenue or expense appropriations of the City and County for any such fiscal year, including such balances in revenue and expense appropriations provided under the provisions of Section 78 of this Charter for libraries, parks and squares, playgrounds and civil service in any such fiscal year, but exclusive of revenue or money required by law to be held in school, bond, bond interest, bond redemption, pension, trust, utility or other specific funds, or to be devoted exclusively to specified purposes other than annual appropriations, and together with revenues collected or accruing from any source during any such fiscal year, in excess of the estimated revenue from such source as shown by the annual budget and the appropriation ordinance for such fiscal year shall be transferred by the Controller, at the closing of such fiscal year, to a "cash reserve fund" which is hereby created and which may be used only in the manner authorized by Section 81 of this Charter; provided, however, that when the balance in said cash reserve fund shall equal ten (10) per centum of the current or the last preceding tax levy no such transfer shall be made by the Controller except on the recommendation of said Controller, the approval of the Mayor and the authorization of the Board of Supervisors by majority vote.

Such unused and unencumbered appropriations, balances and revenue collections in excess of revenue estimates as hereinbefore in this section defined, when not transferred to the cash reserve fund as hereinbefore in this section required or authorized, shall be held as surplus.

Such surplus shall be taken into account as revenue of the ensuing fiscal year; provided, however, that any such surplus created in the fiscal year 1933-34 or created or existing in any subsequent fiscal year may be appropriated by the Board of Supervisors at the last meeting of such Board in any month, by means of an ordinance designated as a supplemental appropriation ordinance, on the recommendation of the Chief Administrative Officer, or any board, commission or elective officer, respectively, and the approval and submission by the Mayor of a supplemental budget estimate or request, in the same manner and subject to the same conditions, except time, as provided in this Charter for the submission and approval of the annual budget and the appropriation ordinance.

That Section 81 of said Charter be amended to read as follows:

Cash Reserve Fund and Temporary Loans.

Section 81. The Board of Supervisors, by annual tax levy, may gradually build up the cash reserve fund authorized and created by the provisions of Section 80 of this Charter. Said fund shall be used exclusively (1) for the payment of any fiscal year legally budgeted expenditures for such year in anticipation of the collection, after the close of such fiscal year, of legally collectible taxes and other revenues as set forth in the budget and the appropriation ordinance for such fiscal year, and (2) for paying that portion of the authorized expenses of the City and County for any fiscal year, which, as certified to said Board by the Controller, becomes due and payable and must be paid

prior to the receipt of tax payments for such fiscal year; provided, that such cash reserve fund shall not at any time exceed the estimated expenditures for the first five months of the then current fiscal year, less the amount of estimated revenues and receipts from sources other than tax rate revenues.

In the event that funds are not available in such a cash reserve fund to meet authorized expenditures of any fiscal year, the Board of Supervisors, on the recommendation of the Controller and the Mayor, and the written approval of the officer, board or commission responsible for the management and control of the fund from which it is proposed that the temporarily idle balances be transferred or loaned may, by ordinance, authorize the treasurer to make temporary transfers or loans for specified periods of idle unencumbered balances in any fund in his custody, except a pension fund, at not less than the then current rate of interest paid by the banks to the City and County on City and County funds deposited with such banks. Such approval by the officer, board or commission concerned shall specify that the amount proposed to be transferred or loaned from such fund will not be needed for the purpose of such fund prior to the date specified for its return. The fund from which such transfer or loan is made shall be charged or encumbered with the amount of such transfer or loan and such amount shall not be considered as available in such fund for any other appropriation or encumbrance for which any expenditures or payments must be made prior to the date on which the transfer or loan is repaid. Any transfer or loan made as herein authorized during the first half of any fiscal year shall be repaid prior to the first day of January of said year, and any transfer or loan made during the remaining one-half of said fiscal year shall be repaid prior to the 15th day of May of said year. Such loans shall be secured by and made solely in anticipation of the collection of taxes levied or to be levied for the current fiscal year, and such loans shall constitute the first demand on and shall be repaid from the first tax collections for such current fiscal year; provided, however, that tax anticipation loans made as hereinafter in this section authorized, shall constitute a prior lien on said taxes levied or to be levied or collected.

When funds shall be needed for the immediate requirements of the City and County in any fiscal year in accordance with appropriations made as authorized by this Charter for such fiscal year, which payments may be made in advance of the receipt of income for such fiscal year, and when funds therefor cannot be made available as hereinbefore in this section authorized, the Board of Supervisors, on the recommendation of the Controller and the approval of such recommendation by the Mayor, shall have power, by ordinance, to borrow funds on notes or other evidences of indebtedness on behalf of the City and County in aggregate amount not to exceed twenty-five (25) per centum of the estimated tax receipts for such current fiscal year. All such notes or other evidences of indebtedness shall be offered at public sale by the Board of Supervisors after not less than two days of advertising, not less than three days after the last day on which such advertising is published. Each such sale shall be made to the bidder offering the lowest rate of interest or whose bid represents the lowest net cost to the City and County; provided, however, that the rate of interest to be paid shall not exceed the sum of six (6) per centum per annum. The repayment of any sum so borrowed from any person, firm or corporation pursuant to the authority of this section shall constitute a first lien and charge against the taxes collected during the half of the fiscal year in which said money was borrowed and shall be repaid to the person, firm or corporation from the first moneys received from said taxes. All such notes issued for funds borrowed prior to December 31 in any fiscal year to be repaid not later than said December 31, and all other such notes for other funds borrowed in any fiscal year shall be repaid not later than the 15th day of May of such fiscal year, the intention of this paragraph of this section being that the making of said loans shall be solely for the purpose of anticipating receipt of

income. The Mayor, in preparing the consolidated budget estimate as provided by this Charter, shall include therein a separate amount sufficient to meet the interest to be paid on any funds borrowed under authority of this section.

Charter Amendment No. ———

Loans Payable Solely From Water Revenue.

The following matter was taken up:

Section 129.1. Describing and setting forth a proposal to the qualified electors of the City and County of San Francisco, State of California, to amend the Charter of said City and County by adding a new section to be known as Section 129.1.

Providing the manner in which the Public Utilities Commission may borrow money for the construction of one or more improvements, or extension to or the repair or reconstruction of, the property of a public utility owned and operated by the City and County for the purpose of supplying the City and County of San Francisco and its inhabitants, or the territory outside of the City and County, or the inhabitants in said territory, with water, and to issue notes, bonds, certificates or other evidences of indebtedness evidencing the amount so borrowed and which shall be payable solely out of the revenue of said utility. Limiting the total indebtedness outstanding at any one time to $5,000,000. Authority to borrow money under this section shall cease at the expiration of five (5) years after date of approval of this amendment by the legislature.

The Board of Supervisors of the City and County of San Francisco hereby submits to the qualified electors of said City and County of San Francisco at the general election to be held on the 8th day of November, 1932, a proposal to amend the Charter of said City and County as follows:

By adding a new section to be known as Section 129.1.

Loans Payable Solely From Water Revenue.

Section 129.1. Whenever the Public Utilities Commission, by resolution, shall determine that public interest or necessity requires the construction of one or more improvements of, or an extension to, or the repair or reconstruction of the property of, a public utility then owned and operated by the City and County for the purpose of supplying the City and County of San Francisco and its inhabitants, or the territory outside of the City and County, or the inhabitants of said territory, with water, the said Public Utilities Commission may, in the manner provided in this section, borrow from any person, firm or corporation the amount necessary to pay for the construction of said improvement or to pay for said extension, repairs or reconstruction, and issue, or cause to be issued, notes, bonds, certificates or other evidences of indebtedness evidencing the amount so borrowed, as hereinafter provided, and which shall be payable solely out of the revenue of said utility.

Before authorizing the making of said improvement, extension, repair or reconstruction, as herein provided, the manager of utilities shall submit to the Commission a report in writing showing (a) the estimated cost of the same, (b) the necessity thereof, (c) the estimated annual increase in earnings or savings to the utility by reason of said improvement, extension, repair or reconstruction, if any, (d) the period recommended within which any loan made to meet the cost of said improvement, extension, repair or reconstruction shall be repaid

and the estimated annual gross income of said utility during said period, and the estimated annual expenses thereof, during said period, including all amounts necessary for the payment of principal and interest on any bonds issued or loans made for the acquisition, construction, extension or repair of said utility, (e) the net revenue of said utility available annually from the operation thereof during said period for the payment of principal and interest on any loan made as herein provided. If it appear to the Commission from the report of said manager of utilities that it will be advisable, or for the best interests of said utility, that said improvement, extension, repair or reconstruction should be made and can be paid for from the revenue of said utility as hereinafter provided, the Commission shall forward said report and all data in connection therewith to the Controller to be checked and examined, the expense of said check and examination to be paid by the Commission. The Controller shall within thirty days after receiving said report, or within such additional time as may be allowed by the Commission, cause the same to be checked and examined, and report the result of said examination to the Commission. If it appears from the report of said Controller that the cost of said improvement, extension, repair or reconstruction will not exceed seventy-five per cent of the estimated net revenue of said utility during the period for which said loan is to be made, or that said loan can be repaid according to the terms thereof from the revenues or savings which will accrue to said utility by reason of making said improvement, extension, repair or reconstruction, and savings to said utility are hereby declared to be revenue thereto, the Commission may forward a copy of said report of the manager of utilities, together with the report of the Controller thereon, to the Board of Supervisors, with a request that the borrowing of the money to pay the cost of said improvement, extension, repair or reconstruction mentioned in said report be authorized. If the Board of Supervisors shall, by ordinance, enacted by a two-thirds vote of all its members, authorize the borrowing of said money, the Public Utilities Commission may proceed to borrow the same, otherwise said money shall not be borrowed. It shall be the duty of the Board of Supervisors to act on said request of said Public Utilities Commission to borrow said money, within sixty days after the receipt thereof.

In computing the cost of any improvement, extension, repair or reconstruction of, or to, said utility, interest on the money borrowed therefor, during the period of construction and for six months after the completion of the same, shall be included in the cost thereof and may be paid from the principal sum borrowed.

Any money borrowed pursuant to the provisions of this section shall be paid into the treasury of the City and County to the credit of said utility as soon as the same is received by the Commission, and shall be withdrawn therefrom or encumbered only as provided in this Charter.

Any money borrowed, or indebtedness created by authority of this section, shall be repayable solely out of the revenues of said utility remaining and existing after the making payment or provision for the items designated as items a, b, c, and d, in Section No. 127 of this Charter, or solely out of the revenues or savings to accrue by reason of the making of said improvement, extension, repair or reconstruction, and shall be payable as a whole or in installments as the Commission shall by resolution provide, provided that no loan shall be made, or obligation shall be created, which will exist for a period of more than twelve years from the date of the creation thereof. Provision shall be made in the allocation of revenues of said utility or from the revenues of said improvement, extension, repair or reconstruction or from the savings occasioned thereby in each annual budget submitted by the Commission for the payments to become due during the fiscal year for which said budget is submitted upon any loan made, or indebtedness created pursuant to this section, and neither the Mayor nor the Board of Supervisors shall have the power to alter

or change said amounts. All money so budgeted shall be paid into a special fund in the Treasury of the City and County, to be appropriately designated, and shall be used only for the purposes set forth in said budget and annual appropriation ordinance.

Any note, notes, certificate or certificates, bond or bonds, or other evidence of indebtedness issued pursuant to the authority of this section shall be in such form and of such denomination as the Commission shall determine, and shall be signed by the Secretary of the Commission and the facsimile signature of the President of the Commission shall be affixed thereto, provided that there may be attached to said note or notes, certificate or certificates, bond or bonds, or other evidence of indebtedness, a coupon or coupons evidencing the interest to accrue thereon, which coupon or coupons shall bear the facsimile signature of the Secretary of the Commission. All notes, certificates, bonds or other evidence of indebtedness issued under the authority of this section shall be issued in the name of the Public Utilities Commission of the City and County of San Francisco, and shall contain a recital upon the face thereof that the principal and interest of said obligation are payable only from the above defined portion of the revenue of said utility.

Any note, certificate, bond or other evidence of indebtedness issued by authority of this section may be sold or delivered at such time or times as the Commission shall direct, provided that the same shall not be sold at less than the face value thereof plus the accrued interest thereon at date of delivery thereof, and shall be sold only to the highest and best bidder after five days' advertising of said sale. The rate of interest on any note, certificate, bond or other evidence of indebtedness shall be fixed by the Commission either at the time the same is ordered issued, or at the time of the sale or delivery thereof, and shall not exceed the rate of six per cent per annum upon the same.

No money shall be borrowed, loan made, or note, bond, obligation or other evidence of indebtedness issued pursuant to the provisions of this section, which will make the total indebtedness incurred hereunder outstanding at any time exceed five million dollars.

While any loan made or indebtedness created by authority of this section is outstanding, the rates and service charges of said utility shall always be maintained at amounts sufficient to pay the interest and principal of said loan or indebtedness according to the terms of said loan or evidence of said indebtedness in addition to all prior charges as provided by law to be paid from the income of said utility.

Bill No. 108, Ordinance No. 11.141, as follows:

To provide a public pound and to make necessary rules and regulations for conduct thereof, and in the matter of animals running at large; to provide for the custody and destruction of the same, and repealing Ordinance No. 3276 (New Series) and Ordinance No. 5190 (New Series).

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. A public pound is hereby provided, and the same shall be located and established at such place in the City and County of San Francisco as shall be fixed from time to time by the poundkeeper hereinafter provided for.

Section 2. The Board of Supervisors shall appoint some suitable person, firm, corporation or association as poundkeeper, who shall have charge of the said public pound hereby provided and established.

Section 3. It shall be unlawful for any person owning or having control or custody of any animal to permit or allow such animal to stray or run at large or be herded, or staked, or tied, or grazed, upon any public highway, or street, or alley, or court, or place, or public square, or public grounds, or upon any unfenced lot within the City and County of San Francisco. Provided, however, that all horses, mules, asses and oxen, harnessed or saddled and in the actual custody and control, at the time, of some person or persons, and licensed dogs,

except as provided in Section 15, are excepted from the operation of this section of this ordinance.

Section 4. It shall be the duty of the poundkeeper to seize and impound, subject to the provisions of this ordinance, all animals found upon any public highway, or street, or alley, or court, or place, or public square, or public grounds, or upon any unfenced lot within the City and County of San Francisco.

Section 5. All animals so taken into the custody of the poundkeeper, and which, by reason of age, or disease, or other cause, are unfit for further use or dangerous to keep impounded, shall be forthwith destroyed by the poundkeeper.

Section 6. All sheep, lambs, goats or hogs not so destroyed and not reclaimed or redeemed within forty-eight (48) hours after the same are so impounded, shall be advertised for sale by the poundkeeper by written notice conspicuously posted at the entrance of the public pound for five (5) days after the expiration of said forty-eight (48) hours; and all colts and calves not so destroyed and not reclaimed or redeemed within forty-eight (48) hours after the same are so impounded shall be advertised for sale by the poundkeeper by written notice conspicuously posted at the entrance of the public pound for five (5) days after the expiration of said forty-eight (48) hours, and shall also be advertised for sale by a notice published for one (1) day within said period of five (5) days in the official newspaper of said City and County; and all horses, mares, mules, asses, oxen, cows or bulls not so destroyed and not reclaimed or redeemed within forty-eight (48) hours after the same are so impounded shall be advertised for sale by the poundkeeper by written notice conspicuously posted at the entrance of the public pound for twelve (12) days after the expiration of said period of forty-eight (48) hours and shall also be advertised as being impounded by a notice published for three (3) consecutive days within said period of twelve (12) days in a daily newspaper published in said City and County, and shall also be advertised for sale by a notice published for one (1) day within said period of twelve (12) days in the official newspaper of said City and County. Immediately after due advertisement as provided in this section, and at the hour of twelve (12) o'clock noon on the date stated in said notices, respectively, the poundkeeper shall sell all animals so advertised, at public auction at the public pound, to the highest bidder for cash.

Section 7. It shall be the duty of every police officer, while on duty, to take up and deliver to the public pound or to place in any stable that may be designated by the Chief of Police, any horse, mare, colt, mule, ass, cow or bull found running at large or trespassing on any private enclosure within the City and County of San Francisco, and to immediately notify the poundkeeper in case any such animal be so placed in any stable, and it shall be the duty of any person in charge of such stable to immediately notify the poundkeeper and to release such animal to the poundkeeper upon his demand and the payment of one dollar at any time within twenty-four (24) hours after such animal is so placed therein and such notice given. Any person may take up and deliver to the public pound any animal which the poundkeeper is, by the provisions of this ordinance, required to impound.

Section 8. Any animal found trespassing on any private enclosure in this City and County may be taken up by any person and delivered to the poundkeeper.

Section 9. Every person, other than a police officer, taking up any animal under the provisions of Sections 7 and 8 of this ordinance, shall immediately thereafter give notice thereof to the poundkeeper, and every such person and any person in whose custody such animal may, in the meantime, be placed shall deliver such animal to the poundkeeper without fee or charge; and the poundkeeper shall there-

upon hold and dispose of such animal in the same manner as though such animal had been found running at large and impounded by him.

Section 10. The owner or person entitled to the custody of any animal so impounded may, at any time before the sale or other disposition thereof, reclaim or redeem the same by paying to the poundkeeper all fines and charges imposed thereon, as provided for herein.

Section 11. The poundkeeper shall seize and impound every dog found running at large or found upon any public highway or street, or alley, or court, or place, or public square, or public grounds or upon any unfenced lot or not within a sufficient enclosure within the City and County of San Francisco, whether in the immediate presence of the owner or otherwise; provided, however, that, except as provided in Section 15 of this ordinance, no such seizure or impounding shall be made of any dog led by a string, rope or chain, or having around its neck or leg a license tag showing that such dog is duly licensed as required by any ordinance of the City and County of San Francisco.

Section 12. The poundkeeper shall keep any dog so impounded for a period of ninety-six (96) hours, unless the same be sooner reclaimed or redeemed by the owner or person having control thereof as hereinafter provided. Such redemption shall be made by exhibiting to the poundkeeper the license certificate or license tag issued by the Tax Collector, showing that the license for such dog for the then current fiscal year has been paid, and by paying to the poundkeeper the fine and charges hereinafter provided for. Upon such redemption being made the poundkeeper shall release such dog; provided, however, that if the license for any such dog for the then current fiscal year was actually paid prior to the date of the impounding of such dog, and there shall be exhibited to the poundkeeper as evidence of such payment said certificate or license tag, the fine hereinafter provided for in subdivision 3 of Section 18 of this ordinance shall be remitted, but in all cases the charges hereinafter provided for keeping such dog must be paid.

Section 13. At any time after the expiration of said period of ninety-six (96) hours the poundkeeper may, without further notice, and without advertising in any manner, sell at private sale or public auction, to the highest bidder, for cash, any dog not so reclaimed or redeemed as aforesaid. All dogs impounded and not so reclaimed, redeemed or sold shall forthwith be destroyed by the poundkeeper. The owner of any dog at the time it is so impounded may, at any time within thirty (30) days after such sale, redeem the same from such purchaser by paying to him the amount of the purchase price paid by him to the poundkeeper, and in addition thereto a sum equal to twenty-five (25) cents per day for the number of days from the date of sale to and including the date of such redemption.

Section 14. It shall be the duty of every person who shall take into his possession any stray dog or any dog not owned by him or not placed in his possession by the person having the lawful custody and control thereof, immediately to notify the keeper of the public pound and to release such dog to the poundkeeper upon demand and without charge. If there shall be attached to such dog a license tag for the then current fiscal year, said poundkeeper shall notify in writing the person to whom such license was issued, at the address given in said license certificate, and shall, upon demand made within twenty-four (24) hours thereafter, and without charge, release such dog to such person; provided, however, that if no person lawfully entitled to such dog shall, within nine days after the date of giving said last-mentioned notice, appear at the public pound and claim such dog, such dog may be sold or destroyed by the poundkeeper in the manner hereinabove provided for unlicensed dogs.

If there is no license tag for the current fiscal year attached to any

dog surrendered to the poundkeeper as provided herein, and such dog has not been redeemed by its owner within ninety-six (96) hours from the time of impounding such dog, the poundkeeper may return such dog to the person who surrendered such dog, provided that such person procures a license for such dog for the current fiscal year.

The owner of any dog at the time it is so impounded may, at any time within thirty (30) days after such dog has been returned to the person surrendering such dog to the poundkeeper, redeem the same from such person by paying to him the amount he paid for the license tag, and in addition thereto a sum equal to twenty-five (25) cents per day for the number of days from the date of receiving such dog from the poundkeeper, to and including the date of such redemption.

Section 15. It shall be unlawful for the owner or person having control of any dog to suffer or permit the same, under any circumstances, to run at large in any public park or public square or to suffer or permit any female dog to run at large while said dog is in the copulating season, and every dog found running at large in violation of the provisions of this section shall be immediately seized and impounded in the public pound.

Section 16. If any dog within the City and County of San Francisco is known to be vicious or dangerous to the safety of any person or animal, and the owner or person having control of such dog shall allow such dog to run at large, after being notified in writing by the Director of Public Health to keep such dog within a secure enclosure unless such dog is adequately muzzled, such owner or person having control of such dog shall be guilty of a misdemeanor.

If any dog within the City and County of San Francisco shall bite any person or animal, and the person or animal so bitten was not at the time trespassing upon the person or property of the owner or person having control of such dog, or if it cannot be proved beyond a reasonable doubt that the person so bitten was provoking or teasing such dog without cause, the owner or person having control of such dog shall be deemed guilty of a misdemeanor, and, upon conviction thereof, shall be punishable as herein provided; and if upon the trial of any such person the court shall determine that such dog is vicious or dangerous to persons or other animals, the court may order that such dog be muzzled, or that such dog be kept within a sufficient enclosure, or that such dog be delivered to the poundkeeper and by him destroyed. Upon written notice by the Director of Public Health, the owner or person having control of any dog which has within the preceding seventy-two hours bitten any person or animal, shall, upon demand, surrender such dog to the poundkeeper, who shall impound and keep such dog at the public pound, in a separate kennel, for a period not less than fourteen days; during said period it shall be the duty of the Director of Public Health, upon being notified by the poundkeeper that such dog has been impounded, to determine whether or not such dog is suffering from any disease. If the Director of Public Health shall determine that such dog is diseased and, by reason of such disease, is dangerous to persons or to other animals, he shall so notify the poundkeeper, in writing, to destroy such dog. A copy of said notice may also be served upon the owner or person having control of such dog. If the Director of Public Health shall determine that such dog is not so diseased, and if the license required for such dog shall have been duly paid for the then current fiscal year, the poundkeeper shall notify by mail the person to whom the license for such dog was issued and at the address from which the dog was surrendered to the poundkeeper, and shall, upon demand, release such dog to the owner or person lawfully entitled thereto, upon payment of one dollar and fifty cents ($1.50) for the keep of such dog; provided, however, that if no person lawfully entitled to such dog shall, within five days after the date of giving said last-mentioned notice, appear at the public pound and request the release of such dog, and pay said

charges, such dog may be sold or destroyed by the poundkeeper in the same manner hereinabove provided.

Section 17. The poundkeeper shall provide all animals in his custody with proper food and water, and shall give them all necessary care and attention.

Section 18. The fines and charges upon animals impounded shall be as follows:

1. For every horse, mare, mule, ass, ox, cow, bull, colt or calf over the age of six months, a fine of four dollars and an additional charge as follows: One dollar per day for keeping, and of one dollar additional if advertised, and of one dollar if received from a stable, as hereinafter provided.

2. For every colt or calf under the age of six months, and for every sheep, lamb, goat or hog, a fine of two dollars and a charge of fifty cents per day for keeping, and of one dollar additional if advertised.

3. For every unlicensed dog, a fine of two dollars and fifty cents and a charge of twenty-five cents per day for keeping.

4. For every licensed dog impounded in violation of any of the provisions of this ordinance, a fine of one dollar and a charge of twenty-five cents a day for keeping.

5. For every other animal, a fine of two dollars and fifty cents and a charge of fifty cents per day for keeping.

Section 19. No animal shall, under any circumstances, be released by the poundkeeper or his deputies until all the fines and charges imposed thereon, as provided by this ordinance, shall have been paid. Provided, however, that if it shall be made to appear to the poundkeeper that any of the animals impounded by him, mentioned in subdivision 1 of the preceding section, have broken out, or were let out, of the fenced enclosure of the owner without fault on his part, the poundkeeper shall release the said animals without charge. If the said poundkeeper refuses to release any such animal, and the owner pays the demanded charges, the owner may apply by petition to the Board of Supervisors to have such charges refunded, and the Board of Supervisors shall order the repayment, without cost to the owner, of the charges so paid if it shall appear that the said animals broke out, or were let out, of the fenced enclosure of the owner without fault on his part.

Section 20. The poundkeeper shall keep a record of the number, description and disposition of all animals impounded, showing in detail in the case of each animal the date of receipt, the date and manner of disposal, the manner and time of advertising for sale, the name of the person reclaiming, redeeming or purchasing, the reason for destruction, and the fines and charges and proceeds of sales received on account thereof, and such additional records as the Controller may prescribe. Such records shall be kept by the poundkeeper in a book or books provided for that purpose, which shall be the record book or books of the office of the poundkeeper and shall not be removed therefrom except upon written order from a duly constituted authority.

Section 21. (1) All moneys received by the poundkeeper as provided for herein shall be deposited in the General Fund and shall be by him delivered daily to the Treasurer of the City and County of San Francisco in accordance with the provisions of the Charter of said City and County.

(2) The poundkeeper shall file with the Controller of the City and County of San Francisco such reports under oath as the Controller may require.

Section 22. The poundkeeper may at any time appoint, at his own expense, as in Section 25 hereof provided, as many deputy poundkeepers as he may require to properly discharge the duties required of him by this ordinance. The authority of the said deputy pound-

keepers shall be the same as the authority of the poundkeeper himself as to apprehending, taking up, arresting, catching, driving to and receiving into the public pound any of the animals named in any of the sections of this ordinance.

Section 23. The poundkeeper and his deputies, while engaged in the execution of their duties, shall each wear in plain view a badge having in the case of the poundkeeper, the word "Poundkeeper," and in the case of the deputy poundkeeper the words "Deputy Poundkeeper," engraved thereon.

Section 24. It shall be unlawful for any person to resist or obstruct the poundkeeper or any of his deputies in the exercise of his duties as such poundkeeper or deputy poundkeeper.

Section 25. The poundkeeper shall not receive any stated salary as compensation for the performance of the duties of his office, but in lieu of salary he shall be entitled to be paid monthly 1/12th of such moneys as the Board of Supervisors may annually set aside for this purpose, subject to the provisions of the Annual Appropriation Ordinance, out of which the poundkeeper shall pay all necessary expenses of the said public pound, including rent of public pound, payment for the service of his deputies, subsistence for animals impounded, and all other expenses connected with the equipment and maintenance of the said public pound, and the impounding and disposal of animals impounded.

Section 26. The poundkeeper, within five days after his appointment, and before entering upon the discharge of his official duties, shall give and execute to the City and County of San Francisco his official bond in the sum of five thousand dollars, conditioned for the faithful performance of his official duties as such poundkeeper, with two or more sureties to be approved by the Mayor and Controller of the City and County of San Francisco, which official bond, when approved, shall be recorded, at the expense of the poundkeeper, in the office of the Recorder of the City and County of San Francisco, in the Records of Official Bonds, and shall thereafter be filed and kept in the office of the Controller of said City and County.

Section 27. If the poundkeeper, or anyone in his employ, shall knowingly sell or give any impounded animal to any person, firm, corporation, association, medical college or university of the State for the purpose of animal experimentation, the offender shall be guilty of a misdemeanor.

Any person, firm or corporation who, by or through fraud, misrepresentation, coercion or threats, induces any violation of the foregoing provisions, shall also be guilty of a misdemeanor.

Section 28. If any section, subsection, sentence, clause or phrase of this ordinance is for any reason held to be unconstitutional or invalid, such decision shall not affect the remaining portions of this ordinance. The Board of Supervisors hereby declares that it would have passed this ordinance and each section, subsection, sentence, clause and phrase thereof irrespective of the fact that any one or more other sections, subsections, sentences, clauses or phrases be declared unconstitutional or invalid.

Section 29. Any person violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor, and, upon conviction thereof, shall be punished by a fine of not less than five (5) dollars nor more than fifty (50) dollars, or by imprisonment in the County Jail not less than twenty-four (24) hours nor more than ten (10) days, or by both such fine and imprisonment.

Section 30. Ordinance No. 3276 (New Series) and Ordinance No. 5190 (New Series) and all ordinances or parts of ordinances in conflict herewith are hereby repealed to the extent of such conflict.

(Italics indicate new matter.)

EXPLANATION.

This ordinance provides for the necessary regulation of coin-in-the-slot machines by the Police and Health Departments and the inspection by said departments of each type of machine before it is licensed for operation. Similar legislation has been adopted by many cities in the United States.

The Committee has had this ordinance under consideration for six (6) months, and has held approximately fifteen (15) meetings. With the exception of one or two objectors who contended they could not pay any fee for inspection, no substantial opposition was presented to the committee.

The annual fees anticipated from the enforcement of this ordinance will total approximately $25,000, plus the filing fee required of each permittee.

Heretofore operators have placed these machines throughout the City without regard to legality or location. It is intended that police supervision of distribution and inspection will eliminate undesirable features of this business and likewise justify the fees established in accordance with the general authority of Section 24 of the charter.

The competition offered by the vending machine to the merchants doing business at a fixed place was given serious consideration by the committee and the rates fixed are presumed to be commensurate with the regulation intended.

The business of operating skill and amusement machines requires constant supervision by the Police Department because of its similarity to games of chance and the illegally designed machine.

This matter was first presented to the Committee by a representative of the Retail Grocers Association which desired legislation regulating a machine vending groceries which is now in operation in many large cities.

The ordinance combines taxation on a filing plus a proportionate tax on the number of machines owned and controlled by persons in said business.

There are approximately 100 operators and distributors owning or controlling 12,000 machines in this City and County.

UNFINISHED BUSINESS.

Regulating Use of Hydrocyanic Gas and Other Dangerous Gases and Fumes.
(Code No. 17.11)

On recommendation of Public Health Committee.

Bill No. 181, Ordinance No. 17.113, as follows:

Regulating the use of hydrocyanic gas and other dangerous gases and fumes; and providing for the issuance of a permit to use the same and regulating the issuance of said permit; and providing for a fee therefor and for a penalty for the violation of this ordinance.

Be it ordained by the People of the City and County of San Francisco, as follows:

Section 1. No person, firm or corporation shall use within the City and County of San Francisco, hydrocyanic gas, cyanogen or chloropicrin, or any other poisonous, noxious or dangerous gases or fumes

which are dangerous to the life or health of human beings for the purpose of fumigating without first obtaining a permit from the Director of Public Health so to do.

Provided, however, that nothing in this ordinance shall be construed to apply to any fumigations on property of the State of California, or to mandatory fumigations under the supervision of any department of the State of California, or United States Government.

Provided further, that fumigations with poisonous gases conducted in warehouses on property other than that of the State of California shall be so conducted as to comply with the safety measures approved by the Department of Public Health, and the person, firm or corporation responsible for such fumigation shall notify the Bureau of Fire Prevention and Public Safety of the San Francisco Fire Department as to the exact location of said fumigation, and the time that said fumigation is to take place.

Section 2. Any person, firm or corporation engaged in any business or calling, or who may hereafter engage in any business or calling, and who may desire to continue in said business or calling, where hydrocyanic acid gas, cyanogen or chloropicrin or any other poisonous, noxious or dangerous gases or fumes dangerous to the life or health of human beings are used shall make written application to the Director of Public Health; shall provide and shall set forth the name of the person, firm or corporation engaged in the use of or who is desirous of using said gas; the particular character of gas used or to be used, the purposes and place where the same is used and the probable amount thereof which will be used during the existence of said permit, and the name of the person or persons who will have direct charge of the use of said gas. Before issuing any permit for the use of said gas, the Director of Public Health shall himself or through such person or persons as he may designate for that purpose, inquire into the training, experience, character, reputation and general character of the applicant for said permit and of the person or persons who are to have direct charge of the use of said gas; and for the purpose of ascertaining the training, experience, character, reputation and qualification of either said applicant or said person who has, or is to have, direct charge of the use of said gas, the Director of Public Health, or his representatives, may cause said applicant or said persons to appear before him, or them, and propound to said applicant, or to said person or persons, such questions as will show the training, experience, qualifications, character and reputation of said applicant, or of said persons, in regard to the use of said gas, and the regulations governing said use. The Director of Public Health shall have full power and authority to refuse to grant any permit for the use of said above-mentioned gas should he ascertain or determine that the manner in which said gas is to be used, or the place where it is to be used, is dangerous to life or health, or the person under whose direction it is to be used has not sufficient training, experience, character and reputation so that the use of said gas can be entrusted to said person without danger, or probability of danger, to the lives of human beings.

Section 3. Every permit issued under authority of this ordinance shall state the place where said gas is to be used, the character thereof and the probable amount thereof to be used, and the name or names of the person, firm or corporation authorized to use the same, and the name or names of the person or persons in direct charge of said use; provided, however, that when a permit is issued to any person, firm or corporation engaged in the general business of fumigating at places other than a fixed place of business, said permit need not specify the various places where said gas is to be used. Any permit so issued shall remain in force for a period not exceeding one (1) year from the date thereof, provided, however, that the Director of Public Health may issue a permit for a shorter period if the same is requested in said application for said permit.

Section 4. Every person, firm or corporation making application for

a permit under the provisions of this ordinance shall accompany said application with a fee of ten ($10) dollars, and every person, firm or corporation making application for the renewal of any such permit shall accompany said application with a fee of five ($5) dollars, which said fees are hereby fixed as the cost of investigating the matter of the issuing or renewing of said permits and shall not be returnable, in the event that said permits are not issued or renewed. All applications for a renewal of any permit shall contain all of the information required for an original permit.

Section 5. Any person, firm or corporation engaged in the business of fumigation, which said fumigation is to take place at any place other than the place of business of the person, firm or corporation holding a permit under this ordinance, shall, at least twelve (12) hours before generating or releasing any of the gases mentioned in this ordinance for fumigation purposes outside of his, or its fixed place of business, make application to the Director of Public Health for a permit to so do, which said application shall state the location of the building or enclosed space to be fumigated and the day and hour when such fumigation shall be commenced, and the name of the person or persons who will be in direct charge of said fumigation. If the person, firm or corporation making application for said permit provided for in this section has already received a permit under the provisions of section 2 hereof, which will authorize him to carry on the business of fumigation outside of a fixed place of business, and the person or persons in charge of said fumigation have been approved by the said Director of Public Health, a special permit to generate or release said gas for fumigation purposes at the place indicated in said application shall be issued by the said Director of Public Health upon the payment of a fee of one ($1) dollar. Such permit shall be kept on the premises to be fumigated and should the applicant therefor be unable to do the work on the day and hour set forth in said permit, he shall notify the Director of Public Health at least six (6) hours prior to said time, and thereupon the Director of Public Health shall specify a new time for the fumigation of the premises or space specified in said permit.

Section 6. The Director of Public Health shall have power to make and enforce all reasonable rules and regulations for carrying out the purposes of this ordinance which are not in conflict therewith.

Section 7. Any person, firm or corporation who shall violate any of the provisions of this ordinance shall be guilty of a misdemeanor, and upon conviction thereof shall be punishable by a fine not to exceed five hundred ($500) dollars, or by imprisonment in the county jail for a period not exceeding six (6) months, or by both such fine and imprisonment, and each day that any violation of this ordinance shall be continued or suffered by any person, firm or corporation shall be deemed a separate offense hereunder.

Section 8. Ordinance No. 6904 (New Series), and all other ordinances or portions thereof which are in conflict with this ordinance, are hereby repealed.

Report by League of California Municipalities Committee.

SUPERVISOR McSHEEHY: Under the roll call a week ago I could not make a report in reference to the League of California Municipalities that met in San Diego three weeks ago today. I could not make a report last week on account of the matters that were before us; in fact, we did not have any roll call whatsoever. May I say this to the members of the Board: I feel that this league ought to be given more attention by the Board than the Board has given it in the past. It is a league that has been in existence thirty-two years. It had its origin here in our own city and its first president was the late Senator Phelan, who was Mayor of San Francisco at the time. It goes deeply into everything pertaining to governmental affairs, and especially local government. There were 320 members present by actual count at the roll call of the first meeting of the league. These members represent mayors, councilmen, city attorneys, district attorneys, engineers, city managers and supervisors. They scientifically go into everything pertaining to municipal affairs, of large and small cities, and every type, you might say, of town in our entire State. For the past ten years, for some reason unknown, I guess, to all of us, our City has taken very little interest in the league. Supervisor Roncovieri and Supervisor Power were present. I know they feel as I feel in this matter, because they were both greatly impressed by what this league is doing. I trust in the future that this Board will give some real attention to this league, because it is doing a great work. I think we will find, in a very short time, that we must cooperate with our sister cities, north, south, east and west, because with that cooperation we can do really good work for our city in the State Legislature.

I make this report because I trust the Board will give more attention to the league than they have given in the past. If Supervisor Roncovieri feels that he would like to supplement any statement that I am making I would like to have him do so, because he was greatly impressed. Also Supervisor Power.

SUPERVISOR RONCOVIERI: At the suggestion of the chairman of that committee I will say and inform those who have never at-

tended—and this was my first attendance at this meeting—that every member of this Board should attend these meetings annually. The League of California Municipalities I would term to be a clearing house for all the problems of city and municipal government that we have. Every city has similar problems, and it is positively one of the best educations that a city official can receive. Our Health Officer, had he been there, would have learned some things, I am sure, that would have benefited the City of San Francisco. I learned of something in connection with the Health Department of the State or throughout the State. I shall not go into the details, but I gave my report on that particular subject to Dr. Geiger. And so, I say, city attorneys, mayors, city managers and others exchanged views and some splendid and scholarly papers were read. The keynote, I would say, of many of the talks was along the line of taxation and the duplication of services throughout city governments at this time—bureaus established here, and then another one and another one, so that the cost of government has gone up beyond all reason. And these matters were very intelligently discussed by men who know the problems, and I am sure that we obtained a great deal of detailed knowledge which I think will reflect itself in benefit to the City. And at the next convention I trust that every member of this Board will attend. I do not know where it will be held. As I say, the Supervisors who fail to be there will lose something, I am sure, that will benefit the City. I hope everyone will go the next time.

SUPERVISOR McSHEEHY: May I add a word further?—not to take up the time of the Board. Supervisor Power, do you wish to say anything?

SUPERVISOR POWER: I have nothing further to add except I would like to reiterate what my colleagues have already said, and I would also like to offer a word of congratulation to Supervisor McSheehy for the efforts he put in down there on behalf of San Francisco. While Supervisor Roncovieri and I were both present and attended all the sessions, it was Supervisor McSheehy who did all the work on behalf of San Francisco. He made a very fine effort to get the convention for San Francisco, but, as he says, I think San Francisco has been negligent in the past in sending representatives to this convention and that was the main reason why we lost out. We merely lost out by two votes. The vote was 24 to 26 in favor of Santa Cruz, and while it is a sister city of ours and we were glad to see her get it, I think in the future we should make efforts to send representatives down there so that we might get acquainted with the other cities and bring the convention back to San Francisco.

SUPERVISOR McSHEEHY: May I just say another word? Members of the Board and my friends present here today, we realize that we are living more or less in a scientific age, to a great degree, and our governments, our municipalities, our States, are run more or less along, you might say, scientific lines. Some of us, perhaps, do not appreciate that point. Some of us, perhaps, do not give much attention to it, but this League of California Municipalities is made up of a body of men who are giving intensive study to everything pertaining to civic governmental affairs, and each year they appoint a number of men who carefully prepare papers on different phases of our civic activities, and these papers are carefully prepared and they are read to the convention, and if you listen to them you are bound to realize that a great deal of thought is given in the preparation of these papers. They are along scientific lines, showing the faults, if there are any, and I imagine there are a great many in the management of all cities, large or small, throughout our State. They are carefully gone into. I was elated with some of the papers that were presented. The next convention will be held in Santa Cruz, and I feel that this City should make an effort to take an active part in that convention. I am almost positive that we will have the con-

vention here two years from the next meeting. There is a rule of the convention that one year it goes south of the Tehachapi and the other year it is north of the Tehachapi. Of course, the year following next year it will be some place in the south. Long Beach is making a bid for it. But two years from now San Francisco, I think, will have an excellent chance of having the convention held here in San Francisco. But I feel, members of the Board, that during the interim, especially this year, we should make an effort to prepare, along some good, sound lines, a paper or two papers pertaining to our work here, especially pertaining to the new Charter, showing its good qualities, and, if it has any bad ones, showing them, if we wish to present it in that form. That is what the convention does. It goes into details, and you have the advantages of associating with men some of whom, I am positive, make a real scientific study of civic affairs, and they present papers along scientific lines that are very interesting. I hope in the future this Board will take an active interest. As was said by Supervisor Power, we only lost by two votes. And I felt a little bit surprised, because I thought we were going to win, but when I asked several of the members why they voted for Santa Cruz, they told me that they had made promises to Santa Cruz the year previous and that we were negligent in attending the convention. In fact, I was shown the minutes of the convention for some past ten years, and to my great surprise I was rather nettled when I found that we had not even had a representative at the convention for eight years. So, therefore, losing at this time was not as bad as I originally thought it was, when I found how negligent we all have been in not attending these conventions in the past. So I hope the members of this Board in the future will attend the conventions and I hope that you will all go in a body, if possible. Send five men down there next time and see what our State is doing with reference to the management of the small and the large municipalities. Los Angeles was almost in the same position that we have been in. She has been negligent to some degree, and she was told that in no uncertain language by several of the members, but she realizes her mistake and in the future I think you will find Los Angeles pretty well represented at this convention.

SUPERVISOR McSHEEHY: Mr. Chairman, I would like to receive an authorization from the Board that a transcript be made of the statements of Supervisor Roncovieri, Supervisor Power and myself in reference to our report on the League of California Municipalities. We want to forward that transcript to the directors. It will have a great deal to do with our securing the convention in two years.

THE PRESIDENT: Any objection to transcribing the statements made by the delegates to the League of California Municipalities? There appears to be no objection.

Opening of War Memorial Opera House.

Supervisor Colman, under roll call, referred to the turning over of the War Memorial to the City, and the brilliant and noteworthy inauguration of the opera season under the auspices of the San Francisco Opera Company, Gaetano Merola, general director in the new Municipal Opera House, Saturday night, October 15, 1932, when "La Tosca" was presented as the first of twelve performances comprising the tenth annual season, October 15 to November 1, 1932.

The event, he said, was remarkable in more ways than one. For the first time a radio broadcast of the opera was made from West to East. All the large cities of the East and of Europe listened in and San Francisco obtained invaluable publicity as a center of art, music and culture through full-page notices in the newspapers of these cities. The Opera House, he declared, was a great asset to the City, and that, although the size of the house is smaller than desirable, only seating 3300, the acoustics are perfect.

The chorus of the opera is largely our own municipal chorus, except the principal higher-paid artists.

The labor employed is local labor and the money spent circulates in local channels.

Resolution of the Board of Directors of Agricultural District 1-A.

Supervisor Gallagher presented:

That, Whereas, the Legislature of the State of California, in 1931, appropriated to and for Agricultural District 1-A, the sum of $250,000, on condition, however, that from other sources a site be provided and a like amount in cash be raised; and

Whereas, many of the interested citizens of the Counties of San Francisco and San Mateo, respectively, and representatives of the Board of Supervisors of San Francisco and San Mateo Counties, and representatives of the San Francisco Chamber of Commerce and other civic and improvement clubs, attended the meeting at Sacramento for the purpose of overcoming opposition to executive approval of such appropriation; and

Whereas, intermediate the approval of such appropriation by the Governor and the present time, the Trustees of the District and their friends have canvassed every available source of money without affirmative result except as hereinafter mentioned; and

Whereas, it is represented to the Trustees as set forth in the report by the Secretary this day read, that the Board of Supervisors of the City and County of San Francisco will, between the present time and the 1st day of January, 1933, render available to the District in progressive payments, the sum of $350,000; and

Whereas, in the event that with this money a site be purchased and work upon the construction of the grounds of said District be begun, and when there is added to it the State appropriation, the major part of the contemplated exposition buildings may be completed, and thus a great deal of existing unemployment in Agricultural District 1-A, comprising the Counties of San Mateo and San Francisco, may be relieved; and

Whereas, there is imminent danger that the State's appropriation will be returned to the general fund of the State of California and be lost to this District unless this Board of Trustees take the necessary steps to render the return of said money impossible by immediately accepting the Supervisor's proposal to appropriate the sum of $350,000 and the commencement of work upon the project; and

Whereas, this money is not available until a site be selected; and

Whereas, the Supervisors have dictated that this money be expended within 150 feet of the line of San Mateo and San Francisco Counties; and

Whereas, the only piece of property lying within 150 feet of the county boundary line which is in point of size and topography available as an exposition site, is that property known as the Ratteree piece;

Be It Resolved, That the Board of Trustees of Agricultural District 1-A hereby selects as a site for the exposition, 54 acres of the Ratteree piece, lying to the south of Walbridge avenue, at the price of $1,000 an acre, and that the proposal of the City of San Francisco to finance the exposition project with progressive payments up to $350,000 be and the same is hereby accepted, and that the Board of Supervisors of the City and County of San Francisco be notified by the presentation to them of a copy of this resolution, of the action taken by the Trustees in this behalf.

And It Is Further Resolved, That in the event the Supervisors of the City and County of San Francisco do not formally agree to advance said $350,000 and do not, within 30 days from the date hereof, pay to

the Trustees the sum of at least $100,000, then this resolution be of no effect and no site will have been hereby or otherwise selected.

Dated, October 5, 1932.

W. L. DOUGLAS.

The above and foregoing is a true and correct copy of a resolution of the Board of Directors of Agricultural District 1-A, presented and adopted at a meeting of said Board held on the 5th day of October, 1932, at Room 3, San Francisco Commercial Club, at which time and place pursuant to call, all Directors were present, and that said resolution appears of record upon the minute book of Agricultural District 1-A, as of said date.

In witness whereof, I have hereunto set my hand as Secretary of said Agricultural District 1-A, on this, the 6th day of October, 1932.

W. L. DOUGLAS,
Secretary.

Motion.

Supervisor Gallagher moved that the foregoing be entered in the record and a reply sent to Special Committee to be appointed by the Mayor, as per resolution of Supervisor Havenner.

Subject matter referred to Finance Committee, which is requested to call in advisory committee to be appointed.

Proposition No. 11—Huntington Beach Oil Development.
(Code No. ----)

Supervisor Spaulding presented:

Resolution No. 476, as follows:

Whereas, Proposition 11 on the November ballot provides for the grant by the State of California to the City of Huntington Beach of certain tidelands in front of said city and includes the exploration and (or) drilling for oil as one of the purposes for which said grant is proposed to be made; and

Whereas, said proposal is of interest to the entire State of California because of the possibility of serving as a precedent for further grants of the heritage of the people of the State embodied in its tidelands for purposes having no relation to the use for which they are of the greatest benefit to the people; and

Whereas, there is no emergency justifying the despoilation of tidelands of the State for production of oil, particularly in view of the present over-production and necessity for curtailment;

Now, Therefore, Be It Resolved, That the Board of Supervisors of City and County of San Francisco hereby record its opposition to said Proposition No. 11 and does urge its defeat by the people of California in the November election.

Referred to the Judiciary Committee.

Report of Chief Administrative Officer on Disposal of Garbage in Case of Emergency.

The following was presented and read by the Clerk:

October 17, 1932.

To the Honorable the Board of Supervisors, City Hall, San Francisco.

Gentlemen: On October 3, 1932, the Board of Supervisors passed certain motions requesting the Chief Administrative Officer to furnish at the earliest possible moment his recommendations in writing with respect to the disposal of the City garbage in case of an emergency arising from shutdown of the present incinerator.

There are numerous alternatives open to the City in that contingency.

One method would be to adopt the fill and cover system on lands within the City and County of San Francisco. Attached hereto is a communication addressed to the Honorable J. Emmet Hayden, president of the Board, by the South San Francisco Dock Company. In brief, this proposal places at the disposal of the City a site for fill and cover purposes comparable with the Southern Pacific Company's facilities in San Mateo county. The only objection to this arrangement would be the fact that on November 5, 1929, the electorate voted against fill and cover of garbage within the limits of San Francisco county by 49,467 against and 25,065 in favor.

Another proposal which has been received during the past week is from the Dodge Steamship Company, 112 Market street, under date of October 7, 1932. Said company offers to transport refuse by steamship equipped with modern devices for handling garbage, converting same into fertilizer and depositing the same on agricultural lands outside of San Francisco at a cost of 90 cents per ton. There may be considerable merit to this proposal, but as it reached my office within the past two days, the time for investigation has been negligible.

Other verbal proposals were received from property owners, both within and outside the limits of San Francisco. These parties were requested to put their proposals in writing and submit them promptly.

It is my recommendation that as a temporary expedient the Scavengers' Protective Union be instructed to transport garbage beyond the City limits and there cover the same in conformity with the specifications prepared by the Director of Public Health, the cost for disposal in any event not to exceed $1.00 per ton, and to be regulated

within sixty days, by which time the City Engineer will have sufficient accurate cost data to make an intelligent recommendation.

The cost data which the City Engineer will collect will also be the basis of deciding whether it is more advantageous for the City to engage in the garbage business or to award a contract for disposition during an emergency period to a private individual, firm, or corporation.

Respectfully submitted,

ALFRED J. CLEARY,
Chief Administrative Officer.

Method for Disposal of Refuse.

Resolution No. 475, as follows:

Whereas, the people of the City and County of San Francisco, at an election held on the 14th day of June, 1927, adopted a certain initiative ordinance regulating the collection and disposition of refuse within the City and County of San Francisco, and it was in said ordinance, among other things, provided as follows:

"Section 5. All refuse collected by any refuse collector shall be incinerated at the San Francisco incinerator, located in the block bounded by Alameda, Fifteenth, Rhode Island and DeHaro streets, or at some other incinerator, hereafter designated by the Board of Supervisors in the City and County of San Francisco, or such other disposition, or by any other method designated by the Board of Supervisors, either by dumping at sea, or otherwise as determined by the Board of Supervisors. It is provided, however, that metals may be melted at places other than at said incinerator."

And Whereas, the Superior Court of the State of California, in and for the City and County of San Francisco, is about to issue its order directing the issuance of an injunction restraining the City and County of San Francisco from further using or operating the said incinerator referred to in section 5 of said ordinance, or from further permitting the same to be used, upon the ground that said incinerator as operated constitutes a public nuisance, and is dangerous to the health of a large number of residents of the City and County.

And Whereas, when said injunction is issued the City and County can no longer use or operate said incinerator, or permit the same to be used or operated;

And Whereas, it is necessary for the preservation of the health of the residents of the City and County that the refuse collected by refuse collectors as provided by the above-mentioned initiative ordinance be promptly disposed of in a sanitary manner;

And Whereas, Scavengers Protective Union, a corporation, which said corporation has heretofore been engaged in the operation of the aforesaid incinerator, and has now entered into an agreement with the Southern Pacific Company, wherein and whereby said last-named company has agreed to permit said Scavengers Protective Union to transport all garbage delivered to said Union to a point upon the lands of said Southern Pacific Company in San Mateo, to be there deposited and covered with earth;

Now, Therefore, Be It Resolved, That under and pursuant to the provisions of section 5 of the above-mentioned ordinance, the Board of Supervisors does hereby designate the following method for the disposition of refuse, as defined in said ordinance, to-wit:

That until the further order of this Board, all refuse collected by any refuse collector shall be delivered to Scavengers Protective Union at the Mission Bay yard of the Southern Pacific Company at Sixth and Sixteenth streets in the City and County of San Francisco, to be there received by said Scavengers Protective Union, and by it loaded on cars and, through the agency of the Southern Pacific Company, transported to the point mentioned in the agreement dated September 26, 1932, between said Southern Pacific Company and said Scavengers

Protective Union, and to be there deposited and covered in conformity with the terms of said agreement.

That the charge which said Scavengers Protective Union shall make to refuse collectors for receiving and disposing of refuse, as herein provided, shall be in conformity with the provisions of section 5 of said initiative ordinance, and shall not exceed one ($1.00) dollar per ton.

The authority hereby given to said Scavengers Protective Union may be terminated upon five days' notice given by the Board of Supervisors to said Scavengers Protective Union, and shall, at the option of the Board of Supervisors, be forthwith terminated upon said Scavengers Protective Union failing to handle said refuse in a sanitary manner, and without danger to the health of residents of the City and County, and in accordance with the direction of the Director of Health of the City and County of San Francisco. Should the permission hereby granted to said Scavengers Protective Union to receive and dispose of said refuse be terminated within ninety days from the date hereof for any reason than the failure of said Union to handle and dispose of said refuse in a sanitary manner and in accordance with the terms of the contract with the Southern Pacific Company, then the said Scavengers Protective Union shall be compensated for its costs incurred in the erection or construction of any platform or other device for loading said refuse on cars.

Be It Further Resolved, That the Chief Administrative Officer of the City and County of San Francisco is hereby directed to obtain through the Engineering Department of the Department of Public Works, and to submit to this Board within sixty days from the date hereof, all data as to the cost of handling and disposing of said refuse by said Scavengers Protective Union, so that this Board may determine the advisability of the City and County of San Francisco undertaking the disposition of refuse in the same manner as the same is herein authorized to be disposed of through the Scavengers Protective Union.

Resolution Fixing Rates for Stand-by Service for Automatic Sprinkler Systems.

(Code No. 15.022)

On recommendation of Public Utilities Committee.

Resolution No. 476, as follows:

Whereas, the Public Utilities Commission heretofore caused notice to be published in accordance with the Charter of a time and place for a public hearing on the matter of revising the schedule of rates to be charged by the San Francisco Water Department for stand-by service for automatic sprinkler systems, and the said Commission did, by its Resolution No. 114, after holding public hearings, fix certain rates for the service described, and submitted said rates for the approval of this Board; now, therefore, be it

Resolved, That the action of the Public Utilities Commission of the City and County of San Francisco in fixing rates for stand-by service for automatic sprinkler systems be and the same is hereby approved and ratified, and from and after the passage of this resolution stand-by service charges for automatic sprinkler systems are fixed and the San Francisco Water Department is hereby authorized to charge for said service the following schedule of rates:

(1) The following schedule, which is to apply only to straight automatic fire sprinkler service, to which no connections for other purposes are allowed and which are regularly inspected by the underwriters having jurisdiction and which sprinklers are connected to an alarm system and which are installed according to the specifications of the San Francisco Water Department and are maintained to the satisfaction of the San Francisco Water Department and are protected against theft, leakage or waste of water, which schedule supplements all schedules made previous to October 10, 1932.

First: A monthly service charge on all sizes of $3 per month.

Second: For water delivered, based on monthly readings, "General Use" schedule to apply.

(2) Conditions:

(A) To secure such service consumers shall pay in advance all costs of installation and materials, including pipe, valves, meter, relaying pavements, construction of meter pit and such other expenditures as may, in the judgment of the Public Utilities Commission, be deemed necessary to connect the sprinkler system with the street main from which service is to be obtained. All such work is to be done by the San Francisco Water Department at actual cost of labor and materials plus a reasonable charge for the cost of supervision and administrative service.

(B) Consumers who have been served continuously under prior automatic sprinkler schedules for a period exceeding three years shall be entitled to service under the charge provided in this schedule and shall be considered as having paid in full for the cost of the installation of connections from their sprinkler system to the connecting water main.

(C) Consumers who have been served under the former automatic fire sprinkler rate schedule for a period of less than three years may secure service at rates provided in this schedule upon the completion of three years' service under the former schedule, which is as follows:

First: A monthly service charge based on the size of meters:

Four	(4") inch meter.....	$ 9.00 per month
Six	(6") inch meter.....	15.00 per month
Eight	(8") inch meter.....	24.00 per month

Second: For water delivered, based on monthly readings, "General Use" schedule to apply.

Upon the completion of such continuous service for a period of three years, consumers having had automatic sprinkler service under the prior schedule for less than three years at the time this schedule is effective shall be considered as having paid in full the installation costs and connections to the water service mains.

This schedule supersedes all prior straight automatic fire sprinkler rate schedules.

Privilege of the Floor.

Edward J. Cahill, manager, Public Utilities Commission, referring to the foregoing resolution, and in explanation of the recommendation of the Public Utilities Commission, declared that it was expected that sufficient business would be picked up to offset whatever reduction might be made in the rate. The rate for stand-by service for automatic sprinkler service in San Francisco is excessive compared with other cities and is detrimental to our commercial interests. The reduction, he thought, would result in more general use of the

sprinkler system and a resulting reduction of fire hazard and saving in cost of fire protection.

(Code No. 5.2)

Supervisor Havenner presented:

Resolution No. 483, as follows:

Whereas, there is a movement being fostered by Zane-Irwin Post of the American Legion, to secure for the West Coast U. S. Service Groups a President's Cup, the gift of His Excellency the President of the United States, similar to that awarded East Coast Service Groups for championship football competition each fall; and

Whereas, it is proposed in event of such trophy being also designated for the West Coast to annually hold an inter-service contest, the inaugural event to consist of a championship game on Sunday, November 27, 1932, in Kezar Stadium, San Francisco, between the U. S. Marines and the winner of the Berkeley, California, Armistice Day West Coast Army-Navy Football Game, the proceeds of said November 27th contest to be divided between the competing service groups and the American Legion Relief and Welfare activities; and

Whereas, such a game will bring to San Francisco many thousands of visitors and units of the U. S. (Code No. 5.2)

Supervisor Havenner presented:

Resolution No. 486, as follows:

Whereas, Congress has recently passed the Income Tax Act of 1932,

containing several excise taxes without specifically exempting therein States and State agencies; and

Whereas, Congress has recently passed a law placing a tax of 3 per cent on all electric energy sold for domestic or commercial consumption, said tax to be collected by the vendors; and

Whereas, the present Treasury Department has ruled that these taxes affect every State and State agency and/or every political subdivision or municipality in the United States that owns or operates and distributes from a municipal light and power plant, but the precedent, if established and allowed to stand, will affect every city and town in the whole country, including those that own waterworks, parks, playgrounds, sewerage systems, airports; in short, every State and the United States, by breaking down our dual system of government and by impairing the borrowing power and credit of securities, either issued or contemplated; therefore, be it

Resolved, That we go on record against said ruling and urgently request all Senators and Representatives to pass the following amendments immediately:

1. In the enforcement of the Revenue Act of 1932 the Federal government shall not impose an obligation upon any State or territory or political subdivision thereof, or the District of Columbia, or on the officers or employees of the aforesaid.

Provided further, that fumigations with poisonous gases conducted in warehouses on property other than that of the State of California shall be so conducted as to comply with the safety measures approved by the Department of Public Health, and the person, firm or corporation responsible for such fumigation shall notify the Bureau of Fire Prevention and Public Safety of the San Francisco Fire Department as to the exact location of said fumigation, and the time that said fumigation is to take place.

Section 2. Any person, firm or corporation engaged in any business or calling, or who may hereafter engage in any business or calling, and who may desire to continue in said business or calling, where hydrocyanic acid gas, cyanogen or chloropicrin or any other poisonous, noxious or dangerous gases or fumes dangerous to the life or health of human beings are used shall make written application to the Director of Public Health; shall provide and shall set forth the name of the person, firm or corporation engaged in the use of or who is

desirous of using said gas; the particular character of gas used or to be used, the purposes and place where the same is used and the probable amount thereof which will be used during the existence of said permit, and the name of the person or persons who will have direct charge of the use of said gas. Before issuing any permit for the use of said gas, the Director of Public Health shall himself or through such person or persons as he may designate for that purpose, inquire into the training, experience, character, reputation and general character of the applicant for said permit and of the person or persons who are to have direct charge of the use of said gas; and for the purpose of ascertaining the training, experience, character, reputation and qualification of either said applicant or said person who has, or is to have, direct charge of the use of said gas, the Director of Public Health, or his representatives, may cause said applicant or said persons to appear before him, or them, and propound to said applicant, or to said person or persons, such questions as will show the training, experience, qualifications, character and reputation of said applicant, or of said persons, in regard to the use of said gas, and the regulations governing said use. The Director of Public Health shall have full power and authority to refuse to grant any permit for the use of said above-mentioned gas should he ascertain or determine that the manner in which said gas is to be used, or the place where it is to be used, is dangerous to life or health, or the person under whose direction it is to be used has not sufficient training, experience, character and reputation so that the use of said gas can be entrusted to said person without danger, or probability of danger, to the lives of human beings.

Section 3. Every permit issued under authority of this ordinance shall state the place where said gas is to be used, the character thereof and the probable amount thereof to be used, and the name or names of the person, firm or corporation authorized to use the same, and the name or names of the person or persons in direct charge of said use; provided, however, that when a permit is issued to any person, firm or corporation engaged in the general business of fumigating at places other than a fixed place of business, said permit need not specify the various places where said gas is to be used. Any permit so issued shall remain in force for a period not exceeding one (1) year from the date thereof, provided, however, that the Director of Public Health may issue a permit for a shorter period if the same is requested in said application for said permit.

Section 4. Every person, firm or corporation making application for a permit under the provisions of this ordinance shall accompany said application with a fee of ten ($10) dollars, and every person, firm or corporation making application for the renewal of any such permit shall accompany said application with a fee of five ($5) dollars, which said fees are hereby fixed as the cost of investigating the matter of the issuing or renewing of said permits and shall not be returnable, in the event that said permits are not issued or renewed. All applications for a renewal of any permit shall contain all of the information required for an original permit.

Section 5. Any person, firm or corporation engaged in the business of fumigation, which said fumigation is to take place at any place other than the place of business of the person, firm or corporation holding a permit under this ordinance, shall, at least twelve (12) hours before generating or releasing any of the gases mentioned in this ordinance for fumigation purposes outside of his, or its fixed place of business, make application to the Director of Public Health for a permit to so do, which said application shall state the location of the building or enclosed space to be fumigated and the day and hour when such fumigation shall be commenced, and the name of the person or persons who will be in direct charge of said fumigation. If the person, firm or corporation making application for said permit provided for in this section has already received a permit under the provisions of section 2 hereof, which will authorize him to carry on the business

of fumigation outside of a fixed place of business, and the person or persons in charge of said fumigation have been approved by the said Director of Public Health, a special permit to generate or release said gas for fumigation purposes at the place indicated in said application shall be issued by the said Director of Public Health upon the payment of a fee of one ($1) dollar. Such permit shall be kept on the premises to be fumigated and should the applicant therefor be unable to do the work on the day and hour set forth in said permit, he shall notify the Director of Public Health at least six (6) hours prior to said time, and thereupon the Director of Public Health shall specify a new time for the fumigation of the premises or space specified in said permit.

Section 6. The Director of Public Health shall have power to make and enforce all reasonable rules and regulations for carrying out the purposes of this ordinance which are not in conflict therewith.

Section 7. Any person, firm or corporation who shall violate any of the provisions of this ordinance shall be guilty of a misdemeanor, and upon conviction thereof shall be punishable by a fine not to exceed five hundred ($500) dollars, or by imprisonment in the county jail for a period not exceeding six (6) months, or by both such fine and imprisonment, and each day that any violation of this ordinance shall be continued or suffered by any person, firm or corporation shall be deemed a separate offense hereunder.

Opposing Proposition No. 11 on the November Ballot.
(Code No. 5.3)

On recommendation of Judiciary Committee.

Resolution No. 486, as follows:

Whereas, Proposition No. 11 on the November ballot provides for the grant by the State of California to the City of Huntington Beach of certain tidelands in front of said city, and includes the exploration and/or drilling for oil as one of the purposes for which said grant is proposed to be made; and

Whereas, said proposal is of interest to the entire State of California because of the possibility of serving as a precedent for further grants of the heritage of the people of the State embodied in its tidelands for purposes having no relation to the use for which they are of the greatest benefit to the people; and

Whereas, there is no emergency justifying the despoliation of tidelands of the State for production of oil, particularly in view of the present overproduction and necessity for curtailment; now, therefore, be it

Resolved, That the Board of Supervisors of the City and County of San Francisco hereby records its opposition to said Proposition No. 11 and does urge its defeat by the people of California in the November election.

The foregoing resolution, heretofore, on October 24, 1932, presented by Supervisor Spaulding and referred to committee, was reported favorably by the Judiciary Committee.

Honorary Citizenship Tendered Madame Claudia Muzio.

(Code No. 5.99)

Resolution No. 495, as follows:

Whereas, the City and County of San Francisco on October 15, 1932, completed the War Memorial Opera House, the first municipally owned opera house in America, and has reason to be proud of that structure as a temple of art and music; and

Whereas, the San Francisco Opera Association has given to the people of San Francisco in the new Opera House a series of operas, in which many of the world's most renowned artists have participated; and

Whereas, the music lovers of San Francisco have shown their appreciation, not only of the Opera House but more particularly of the excellence of the various artists, by crowding every performance to capacity, thus reflecting the reputation of San Francisco as a music-loving city; and

Whereas, Madame Claudia Muzio, having come all the way from Italy to San Francisco for the special purpose of opening the first opera, "La Tosca," on the opening night, by her wonderful art, enthralled the audience and insured not only the success of the first opera given, but of every opera in which she has played a leading part; and

Whereas, Madame Claudia Muzio has endeared herself to the people of San Francisco, not only for her appearance at this time at the opening of the Opera House, but on many occasions in the past; now, therefore, be it

Resolved, That Mayor Angelo J. Rossi be and is hereby requested to name Madame Claudia Muzio as an honorary citizen of the City and County of San Francisco in recognition of her genius and of the honor and glory she has brought to the music-loving City of Saint Francis; and be it

Further Resolved, That the certificate conferring honorary citizen-

Urging Stipulations in Award of Contracts by Golden Gate Bridge and Highway District for Local Manufacture and Employment of Local Labor.

(Code No. 12.111)

Resolution No. 497, as follows:

Whereas, the Golden Gate Bridge is purely and entirely a local enterprise—conceived, financed and executed by Californians; and

Whereas, idle local manufacturing plants and unemployment within our own borders can produce all material required and furnish all labor necessary in the erection of the suspension cables in this structure; and

Whereas, the benefits derived through the manufacture of wire for said cables locally, and the employment of our own idle workmen, should be retained and not diverted to eastern localities; and

Whereas, the bid of the John A. Roebling Sons Company of Trenton, New Jersey, to furnish and install said suspension cables is the low bid; and

Whereas, award by the bridge directors on the basis of the low bid, without stipulation, would divert all benefit to manufacturer and labor to Trenton, New Jersey; now, therefore, be it

Resolved, That the Board of Supervisors of the City and County of San Francisco, in regular session duly assembled, on this 31st day of October, 1932, fully sustains and endorses the recommendations and resolutions of the San Francisco Chamber of Commerce, the Down Town Association, and other organizations, and respectfully urges the directors of the Golden Gate Bridge and Highway District to award the contract for furnishing and installing said suspension cables, with the stipulation that at least one-half of the wire required shall be manufactured locally in strict accordance with specifications, and subject to acceptance, and that all labor used in the erection of said cables, as far as possible, shall be local labor.

(Italics indicate new matter.)

EXPLANATORY.

This ordinance provides for the necessary regulation of coin-in-the-slot machines by the Police and Health Departments and the inspection by said departments of each type of machine before it is licensed for operation. Similar legislation has been adopted by many cities in the United States.

The Committee has had this ordinance under consideration for six (6) months, and has held approximately fifteen (15) meetings. With the exception of one or two objectors who contended they could not pay any fee for inspection, no substantial opposition was presented to the committee.

The annual fees anticipated from the enforcement of this ordinance will total approximately $25,000, plus the filing fee required of each permittee.

Heretofore operators have placed these machines throughout the City without regard to legality or location. It is intended that police supervision of distribution and inspection will eliminate undesirable features of this business and likewise justify the fees established in accordance with the general authority of Section 24 of the charter.

The competition offered by the vending machine to the merchants doing business at a fixed place was given serious consideration by the committee and the rates fixed are presumed to be commensurate with the regulation intended.

The business of operating skill and amusement machines requires constant supervision by the Police Department because of its similarity to games of chance and the illegally designed machine.

This matter was first presented to the Committee by a representative of the Retail Grocers Association which desired legislation regu-

lating a machine vending groceries which is now in operation in many large cities.

The ordinance combines taxation on a filing plus a proportionate tax on the number of machines owned and controlled by persons in said business.

There are approximately 100 *operators and distributors owning or controlling* 12,000 *machines in this City and County.*

Amendments.

The following amendment, suggested by the City Attorney, was *accepted* by the Board:

"Section 12. The payment or collection of any fee or charge for the inspection, maintenance or operation of any coin-in-the-slot machine herein mentioned shall not be considered as a license or permission to maintain any so-called coin-in-the-slot machine the use of which is prohibited by law or ordinance, or to use, maintain or operate any of the coin-in-the-slot machines herein mentioned so that such use, operation or maintenance of such machine shall constitute a violation of any law or ordinance."

Also, amendment offered by Supervisor Gallagher:

"Section 5. The Chief of Police shall regulate the distribution of the machines hereinbefore mentioned; provided, that said machines shall not be permitted to operate within 1000 feet of the boundaries of any school."

Privilege of the Floor.

C. F. Shea, 210 Sansome street, and T. Linehan, who opposed filing fee on weighing machines, were heard at length.

Supervisor Havenner raised a point of order against further consideration of the ordinance. He declared that its parliamentary status was not established, since the measure did not have the recommendation of the committee to which it was referred.

Action Deferred.

Whereupon, on motion of Supervisor Peyser, the bill was *laid over one week* (*Special Order for* 3 *p. m.*), the committee to report at that time.

Motion.

Supervisor McSheehy moved that the foregoing matter be postponed for one week and War Memorial Trustees be requested to file a report on adjustment of salaries conforming to that paid in other departments.

Motion *lost* by the following vote:

Ayes—Supervisors Canepa, Havenner, McSheehy, Stanton—4.

Noes—Supervisors Breyer, Brown, Colman, Gallagher, Miles, Peyser, Roncovieri, Spaulding—8.

Absent—Supervisors Hayden, Power, Shannon—3.

Explanation of Vote.

SUPERVISOR HAVENNER: I am going to vote "*no*" as a matter of protest, and as a record of the procedure before this Board. If I am not to be allowed to ask a question of the Board of Trustees of the War Memorial concerning a statement made by their representative on this Board in connection with the matter of the readjustment of the wage scale, and that that matter was to be given consideration, I am going to vote "*no*" in protest.

SUPERVISOR GALLAGHER: I would like to explain my vote. I am going to vote to pass this ordinance so that we won't punish, unnecessarily, people ill able to bear it. My feeling in the matter is this: That without the authority of the Board, and under the Charter, if we want a letter from any of the Supervisors to the Trustees of the War Memorial asking them, "Are you going to readjust wages in the light of the statement made by your Acting Secretary before this Board, are you going to adjust them properly or not?" That question can be asked just as well by any member of this Board, and consequently because of that inquiry being made, I am not going to deny to any of these men their salary, which they can ill afford to lose at this time.

THE CHAIRMAN: Call the roll, Mr. Clerk.

SUPERVISOR McSHEEHY: I wish to state that I am going to vote "*no*," and in doing so I do not agree with Supervisor Gallagher's

statement about serving notice and writing letters. We are establishing a salary now for a year; we are, you might say, putting a budget set-up, forming the tax rate on that portion of it, establishing it for a year. If we write a letter, we will be told in a most nicely couched letter something to this degree, or to this effect, that nothing can be done. This is the proper time, members of the Board, and if you are going to stand like that, and if it is going to be one or two members against the eleven or twelve members of the Board; if that is the stand you are going to take against the various departments, we are going to find ourselves in the position where those departments send in whatever they want to, and we can take it or leave it. I think that a certain amount of courtesy should be extended to us, as we are the only Board which is really responsible to the people, and so I am going to vote "*no*" in protest.

SUPERVISOR HAVENNER: Mr. Chairman, if I may, I would like to point out to Supervisor Gallagher that if the rule which he has just enunciated should be adhered to by us permanently, every department in the City government would have the same authority as the War Memorial Trustees, and could bring in a recommendation for half a dozen employees and could cut the salaries of three, say, and then say to us, "Now, if you don't vote for this, gentlemen, you are going to deprive these other men of the salaries which they need very, very badly, because we must act on the entire ordinance. Now, that is a very adroit and a very harmful and dangerous policy to adopt, and I am going to vote "*no*" in protest. I voted before under protest for the War Memorial amendment because it came in to us just a couple of days before the Auditorium was to open, and it was put up to us, "If you don't vote for it we will have to postpone the opening." We were told at that time by the gentleman representing the Trustees, and I know he was telling us something he believed, that he had every reason to believe the Trustees would adjust these salaries to the minimum wage scale.

SUPERVISOR STANTON: I am going to vote for it, because I feel like Supervisor Gallagher. If there was any way in which it could be held up without the possibility of these men being held up in their pay I would be perfectly willing to do it, but we have one man—an elevator mechanic—and if the Trustees don't come back here and adjust this matter it will mean this one man will suffer, but in the meantime if we held this up it would mean that all of these other men would be held up. In the long run I suppose the City would be the one that would be hurt. I am willing to go along, and have been, and to give any help I could, but when you cut the elevator operators, the janitors, and the watchmen, I don't feel that is just, and I think they should be given the same salaries as the other City employees are receiving, but I don't feel justified in keeping this man off the payroll.

SUPERVISOR CANEPA: Mr. Chairman, in order to save the time of the Board, I wish to make the same explanation as made by Supervisors Gallagher and Stanton.

THE CHAIRMAN: Call the roll.

(Roll called by the Clerk.)

(Eleven "*ayes*," two "*noes*" and two absent.)

Introduced by Supervisor Richard J. Welch, November 12, 1918:

Resolution No. 16241 (New Series):

Whereas, the Board of Supervisors of the City and County of San Francisco has been impressed by the discussion relative to the construction of a bridge across the Golden Gate by the Federal government; and

Whereas, it is evident that the construction of such a bridge would be of incalculable value to San Francisco by connecting it directly with the northern and central counties of the State and with the transcontinental railroad system; and

Whereas, such a bridge would add a feature to the Bay of San Francisco without a parallel in the world; and

Whereas, it is a necessary step to determine by expert examination whether the project involves insurmountable engineering difficulties or prohibitive cost; now, therefore, be it

Resolved, by the Board of Supervisors of the City and County of San Francisco that our Senators and Representatives in Congress be urged to promote the necessary legislation providing for a preliminary survey and report with a view to determine whether the projected bridge is practicable or not.

Adopted—Board of Supervisors, San Francisco, November 12, 1918.

(Italics indicate new matter.)

EXPLANATORY.

This ordinance provides for the necessary regulation of coin-in-the-slot machines by the Police and Health Departments and the inspection by said departments of each type of machine before it is licensed for operation. Similar legislation has been adopted by many cities in the United States.

The Committee has had this ordinance under consideration for six (6) months, and has held approximately fifteen (15) meetings. With the exception of one or two objectors who contended they could not pay any fee for inspection, no substantial opposition was presented to the committee.

The annual fees anticipated from the enforcement of this ordinance will total approximately $25,000, plus the filing fee required of each permittee.

Heretofore operators have placed these machines throughout the City without regard to legality or location. It is intended that police supervision of distribution and inspection will eliminate undesirable features of this business and likewise justify the fees established in accordance with the general authority of Section 24 of the charter.

The competition offered by the vending machine to the merchants doing business at a fixed place was given serious consideration by the committee and the rates fixed are presumed to be commensurate with the regulation intended.

The business of operating skill and amusement machines requires constant supervision by the Police Department because of its similarity to games of chance and the illegally designed machine.

This matter was first presented to the Committee by a representative of the Retail Grocers Association which desired legislation regulating a machine vending groceries which is now in operation in many large cities.

The ordinance combines taxation on a filing plus a proportionate tax on the number of machines owned and controlled by persons in said business.

There are approximately 100 operators and distributors owning or controlling 12,000 machines in this City and County.

UNFINISHED BUSINESS.

Congress Memorialized to Favor Light Wines and Beers.

(Code No. 5.2)

Supervisor Canepa presented:

Resolution No. 511, as follows:

Whereas, the production of grapes, barley and hops constitutes the second largest agricultural industry in the State of California, engaging 25,000 growers, embracing 500,000 acres of land, and representing an investment of $350,000,000 in farms, vineyards and wineries; and

Whereas, of the two million tons of grapes produced annually, there is a surplus of as high as 455,000 tons, which surplus destroys the market for raisin, table and wine juice grapes, resulting in abandoned vineyards, foreclosures and bankruptcies; and

Whereas, through repeal or proper modification of the Volstead Act a large additional market will be made available to California grape growers for the sale of their products; and

Whereas, legalization of light wines, which are nonintoxicating in fact, will promote true temperance; and

Whereas, legalization of light wines will immediately put to work thousands of men now out of employment, not only in production of wine, but also in related industries; and

Whereas, legalization of light wines will add millions of dollars to California farm land values; will add millions of dollars to the annual income of California grape growers, and will provide still more millions in income to related industries for bottles, barrels, lumber, printing, and for transportation, hotel, restaurant and public utility services; and

Whereas, the Congress of the United States will have for its consideration at the coming session, legislation which has for its purpose the repeal or modification of the Volstead Act to permit the sale, distribution and consumption of light wines and beer; and

Whereas, the electorate of the United States has indicated positively and emphatically its determination for prohibition reform so as to permit the sale, distribution and consumption of light wines and beer of an alcoholic content consonant with the fair and true interpretation of these terms; and

Whereas, it is apprehended that, regardless of this plain and forceful mandate issued by the people, an effort will be made by the dry forces to arbitrarily fix the alcoholic content of light wines at a percentage distortive of the true meaning of the term; and

Whereas, if action by Congress upon this subject is accomplished by modification, rather than repeal of the Volstead Act, it is of vital importance to the State of California and to the people of the United States that such modification shall conform to and reflect the true wishes of the people as expressed in their mandate at the polls; now, therefore, be it

Resolved, That the Board of Supervisors of the City and County of San Francisco does hereby memorialize Congress and does respectfully and emphatically urge, if the mandate of the people be effected by modification, rather than repeal, of the Volstead Act, that the full, true, honest, fair and common-sense conception of light wines and beer be given effect; and be it

Further Resolved, That a copy of this resolution be forwarded to all of California's representatives in the United States Congress, as well as to President Hoover, Vice-President Curtis, and Speaker of the House of Representatives John M. Garner.

Adopted by the following vote:

Ayes—Supervisors Breyer, Brown, Canepa, Colman, Gallagher, Havenner, Hayden, McSheehy, Miles, Peyser, Power, Roncovieri, Shannon, Spaulding, Stanton—15.

Supervisor Canepa presented:

Resolution No. 513, as follows:

Whereas, it is a pleasure at this time to record the thirty-third birthday of our esteemed colleague and fellow-member of the Board of Supervisors, Jefferson E. Peyser; and

Whereas, though time and tide wait for no man, it is fully cognizant of the aptitude and ability and geniality of said Jefferson E. Peyser, though hardly half the time apportioned to man has been his to date; now, therefore, be it

Resolved, That the Board of Supervisors of the City and County of San Francisco are happy in the fact of the thirty-third birthday of Jefferson E. Peyser and sincerely wish him double and triple that number of birthdays, to the end that his work for law and order and social justice will be granted the required time for inauguration, improvement and completion.

Restaurant Bureau Approves Board of Supervisors' Petition.

Supervisor Canepa presented the following communication:

"The California Restaurant Protective Bureau, a state-wide restaurant association, expressed its approval of the petition to Congress proposed by Supervisor Victor J. Canepa on the legalization of the sale of light wines and beers. W. Bradford Nelson, president of the Bureau, stated: 'The passage of legislation favorable to the sale of light wines and beers by Congress is of the utmost importance to the restaurant man. It is certain that much of the chaos existent in the restaurant industry can be relieved by the opportunity to dispense these products. Light wines and beers are a profitable source of revenue to the restaurateur. As in pre-prohibition days, these beverages will be inducive to the restaurant man's prosperity.'

Scrip System for Relief.

Adolph Uhl was granted the privilege of the floor and addressed the Board, complaining that relief measures as now conducted deprive the San Francisco retail stores from furnishing food supplies to the 50,000 persons now on relief, and that the loss of these customers will cause many stores to close. He recommended the scrip system for relief, permitting relief money passing through natural channels of trade and thereby obviating this condition.

The Chair called attention to the fact that the Board of Supervisors had nothing to do with the matter, relief work having been delegated by resolution of the Board to a Citizens' Committee and to Superintendent Wollenberg of the Laguna Honda Home, to whom Mr. Uhl was referred.

Dyers and Cleaners.

On motion of Supervisor McSheehy, Samuel Cerf, representing San Francisco dyers and cleaners, was granted the privilege of the floor. He asked the Board of Supervisors to enact an ordinance to prevent cutthroat competition by dyers and cleaners from outside towns who seek work in San Francisco at cut rates.

Referred to Charter Installation Committee and City Attorney.

Delivery of Materials for Golden Gate Bridge.

Supervisor Gallagher moved that the Clerk be directed to write to the Directors of the Golden Gate Bridge asking if it is in their power to direct and in what manner or by what method, millions of dollars of materials which will be delivered to the Bridge Heads on this side of the Bay, and by what route, whether,

First, by land, rail or truck, or
Second, by water.

The Department of Public Works, Police Traffic Bureau and City Planning Commission will have to go in action regulating the direction of this enormous amount of traffic with a view to conserving city streets and protecting life and property.

Motion *carried.*

Unemployed to Clean Garbage from Private Properties.

Supervisor Gallagher moved that the Chairman of the Streets Committee call a conference with the Director of the Relief Committee, Director of the Department of Public Works, and the City Engineer's staff, to the end that the unemployed be put to work, using city equipment, in clearing off garbage that has been dumped on boulevards, streets and private property. There are, he said, about one thousand lots where this nuisance has been created. It can be done for about $5,000.

Referred to Streets and Finance Committees.

Motion *carried.*

George Washington Bi-Centennial Tree Planting.

Supervisor Havenner stated that the Committee of the Board and the Citizens' Committee on the George Washington Bi-Centennial Celebration recommends that additional trees be planted and that the four miles of Alemany Boulevard had been selected for the ceremony. He asked if the plans of the committees to use the unemployed in this

work is favored by the Board of Supervisors, deeming it necessary that the approval of the Board be forthcoming.

Referred to Streets Committee.

Repair of Tower of the M. H. De Young Memorial Museum.

Communication from Herbert Fleishhacker, President, Board of Trustees of the M. H. De Young Memorial Museum, calling attention to the extremely dangerous condition to the public caused by the disintegrating of the ornamentation and cement work on the tower over the M. H. De Young Memorial Museum, where from time to time large portions have fallen off, menacing those below, and requesting that the Board of Supervisors adopt a resolution declaring that an actual emergency exists in regard to doing this particular work, and therefore authorizing the trustees of the Memorial Museum to make the necessary repairs at once by hiring necessary labor and purchasing necessary material.

Referred to Finance Committee on approval of Recreation, Parks and Education Committee.

Request of Youths' Committee of Unemployed Councils.

Communication from C. M. Wollenberg, Director of Relief, in reply to the Youths' Committee of Unemployed Councils, stating that the four demands that are made are such that there is no power to grant same and that it will take both legislative action and increased appropriation to meet them.

Referred to Welfare Committee.

Any sale by a peddler to a dealer, for the purpose of resale, or to a public institution, shall classify him as a wholesale peddler, and in addition to being guilty of a violation of this ordinance, he shall be liable for the difference between that which he paid for a license as a peddler and what he should pay as a wholesale peddler.

Section 3. Each such peddler shall have his name, address and number of his license printed conspicuously on both sides of his truck or other vehicle in letters and figures not less than three inches in height, and he shall always carry the permit hereinafter provided for with him and shall exhibit the same whenever required by any police or other officer authorized by the laws of the City and County of San Francisco.

Section 4. It shall be unlawful for any person to engage in the calling of a wholesale peddler within said City and County without having first obtained a permit from the Chief of Police thereof upon a written application and after a hearing thereon, and without first having filed a bond and paid the license fee provided for in this or other ordinances.

Any permit issued under and pursuant to the provisions of this ordinance shall remain in force for the period of one year from and after the date of its issuance unless revoked, and any person, firm or corporation desiring to renew any permit issued pursuant to the provisions of this ordinance shall make application to the Chief of Police of the City and County of San Francisco for the renewal thereof, which application for renewal shall be made in the same manner as for the issuance of said original permit.

Section 8. Any permit issued pursuant to the provisions of this ordinance may be revoked by the Chief of Police for any violation of the condition of said permit or for any violation of this ordinance by the holder of said permit. Before any permit shall be revoked by the Chief of Police, notice in writing shall be given to the holder of said permit of the time and place of hearing the matter of the revocation of said permit, which said notice shall briefly state the reasons for revoking said permit, and shall be mailed to the holder of said permit at his place of business or residence, as the same appears on his application for said permit, and when said notice is so mailed the Chief of Police shall have power, upon hearing the matter of the revocation of said permit, to revoke the same or make any order in the premises as may be proper.

Section 9. Any person, firm or corporation that shall violate any of the provisions of this ordinance shall be guilty of a misdemeanor and, upon conviction thereof, shall be punished by a fine not to exceed five hundred ($500) dollars or by imprisonment in the County Jail for not more than six (6) months, or by both such fine and imprisonment. Each day or fraction thereof any person, firm, association or corporation shall be engaged in such business without a license shall be considered as a separate and distinct offense.

Explanation of Vote.

SUPERVISOR HAVENNER: I desire to be recorded as voting *no*, on the general theory that in the very difficult problem that is presented to us by the entire question of street railway transportation today, I feel that it ought to be the duty of the members of the Board to, if necessary, bend over backwards in being jealous of the rapidly diminishing service that is afforded the people of San Francisco, and that upon the statement of the general problem of street railway transporation for the city I do not care, except in actual emergency cases, to vote for the curtailment of service, and therefore I want to be recorded as voting *no*.

Protest Against Excise Tax on Public Utilities and Suggesting Amendments to Revenue Act of 1932.

(Code No. 5.3)

On recommendation of Public Utilities Committee.

Resolution No. 487, as follows:

Whereas, Congress has recently passed the Income Tax Act of 1932 containing several excise taxes without specifically exempting therein States and State agencies, and

Whereas, Congress has recently passed a law placing a tax of 3 per cent on all electric energy sold for domestic or commercial consumption, said tax to be collected by the vendors, and

Whereas, the present Treasury Department has ruled that these taxes affect every State and State agency and/or every political subdivision or municipality in the United States that owns or operates and distributes from a municipal light and power plant, but the precedent, if established and allowed to stand, will affect every city and town in the whole country, including those that own water works, parks, playgrounds, sewerage systems, airports, in short every State and the United States by breaking down our dual system of government and by impairing the borrowing power and credit of securities either issued or contemplated; therefore, be it

Resolved, That we go on record against said ruling and urgently request all Senators and Representatives to pass the following amendments immediately:

1. In the enforcement of the Revenue Act of 1932 the Federal Government shall not impose an obligation upon any State or Territory or political subdivision thereof, or the District of Columbia, or on the officers or employees of the aforesaid.

2. The term "political subdivision" includes any district created under the laws of a State or Territory for the purpose of constructing or operating any public utility.

Whereas, a system of distribution and regulation may be necessary under such permission as is granted by the Federal Government and the State; and

Whereas, the manner in which the question of whether beer and light wines shall be purveyed expressly as every other merchandise or shall be confined to hotels, restaurants and groceries, and the question of in what manner the workingman's club may be reestablished and maintained while still holding to the pledge of "no saloons"; and

Whereas, certain officials have indicated on the one hand that persons convicted of violations of the Wright Act may not be eligible to permits under new regulations, and, on the contrary, the Governor of this State, with the approval of prominent legal minds, has indicated that if the only crime a person was convicted of was that of violation of the Wright Act and the Volstead Act, which the people have overwhelmingly repudiated, that no inhibition rest against them because of that fact alone; and

Whereas, the question of licenses must be considered in conjunction with the type or types of places in which such liquors may be sold; and

Whereas, the question of home products and the protection of same to provide the employment of the greatest number of local residents must be considered; and

Whereas, the question of home rule in the manner of regulation may be an issue before the next Legislature, i. e., whether the State shall take complete control or whether the cities, counties and towns shall be left to regulate the product as they see fit; now, therefore, be it

Resolved, That his Honor the Mayor is requested to appoint a committee of citizens to consider some of these questions and to recommend legislation to be repealed and to be enacted at the earliest possible date; and be it

Further Resolved, That said committee shall consist of representatives of restaurants, hotels and members of the Board of Supervisors, a member of the Police Commission, the public at large, groceries and

Report of Delegates to Redwood Empire Association Convention.

The following was presented and *copies ordered sent to members*:

November 21, 1932.

To the Honorable Board of Supervisors, City and County of San Francisco.

Gentlemen: We, the undersigned representatives of your Board, delegated to attend the convention of the Redwood Empire Association held at Eureka, California, Friday, October 21, and Saturday, October 22, 1932, beg leave to submit a short report of the high lights of this convention.

Attendance: Those in attendance included representatives of city, county, State and federal officials, chambers of commerce, farm bureau and Grange representatives, newspaper publishers, State Senators and Assemblymen, mayors and councilmen, county supervisors, hotel, resort, auto camp, garage and service station operators, bankers, lawyers, department store owners, and other political, industrial, commercial and agricultural leaders from the nine Redwood Empire counties, inclusive of the City and County of San Francisco, all of whom were taking time away from their respective lines of enterprise to devote their time, thought, effort and energy to the progressive development of the nine counties in a cooperative fashion. It was the most representative group yet assembled by the Redwood Empire Association to work for the public interest.

The extraordinary friendliness and feeling of good will on the part of northbay leaders in favor of San Francisco is particularly noteworthy. Therefore, from a business standpoint alone, San Francisco has gained materially by virtue of its participation in Redwood Empire Association projects.

This is one of the few conventions on the Pacific Coast that enjoyed not only an attendance equal to that of last year, but the largest attendance in its history, in spite of the depression and other adverse conditions.

Finances: It is rather remarkable that the counties have kept up their respective pro ratas.

This is, indeed, a commentary on the strength and productivity of the association, for had not direct, concrete results been produced of cash value to the taxpayers, these appropriations would not have been made available.

Hence, the association's full-fledged publicity and advertising schedule will continue for the next fiscal year, in which San Francisco will participate 100 per cent.

Following are some of the specific results obtained in the respective departments of fields of operation under the direction of the association:

Highway Improvements: Considerable amount of construction and reconstruction, also maintenance funds were secured in favor of the Redwood Empire system of highways in the current biennium budget, resulting in an extraordinary amount of highway improvements. Up to June 30, 1932, in excess of $40,000,000 of State and federal highway construction, reconstruction and maintenance funds had been applied to the Redwood Empire system of highways. During the current biennium budget approximately $4,000,000 has been allotted, considerable of which has already been spent. The association, through the respective county boards of supervisors and Nine Counties Highway Committee, is now working with the commission to secure similar appropriation for the new biennium budget 1932-1933 in favor of the Redwood Empire system of highways.

This Redwood Empire system of highways leads directly into San Francisco, resulting in greater cash expenditure by outsiders in San

Francisco channels of trade, also resulting in greater purchase of San Francisco goods and services on the part of those who live in the northbay.

Transportation: The association has succeeded in inducing rail and motor coach and steamship lines to nationally and internationally advertise the Redwood Empire, and to include the Redwood Empire in their respective schedules, tariffs, itineraries and promotion matter. In all this effort San Francisco is being featured as the southern gateway to the Redwood Empire, as a result of which San Francisco has become a focal point for tourists and vacationists all over the United States and from abroad, routed by rail, motor coach and steamship. This has resulted in an influx of travel for San Francisco which otherwise would not have taken place. San Francisco's major attractions are specifically featured in the association's publicity and advertising schedule.

Publicity and Advertising: As a result of the past year's publicity and advertising schedule, financed by the nine counties and conducted by the association, the following traffic analysis is of interest: 1931 out-of-state cars accounted for but 17 per cent of the total traffic in the Redwood Empire; 1932 out-of-state traffic was 53.8 per cent of the total, thus indicating effective publicity and advertising in the matter of attracting out-of-state tourists and vacationists. Though the general average decrease in tourist traffic in the Redwood Empire was only 14.5 per cent, nevertheless there was an 83 per cent increase in out-of-state traffic. No other district on the Pacific Coast has enjoyed such an increase in out-of-state traffic.

Stop-Overs: Internal organization groups are being built up to lengthen stop-overs of tourists and vacationists brought into San Francisco and northbay.

Summary: From the above brief high lights it is clear that all channels of trade in San Francisco are enjoying this direct cash return from the association's work, with a comparatively small cash outlay, particularly when you consider the value of improvements to the Redwood Empire system of highways leading into San Francisco, the featuring of San Francisco by transportation companies as a result of the association's efforts, and the increment of out-of-state tourist and vacationist traffic brought about as a result of the association's non-profit, inter-county cooperative publicity and advertising schedule.

Next Year: The San Francisco delegation submitted invitation to the Redwood Empire Association to hold its thirteenth annual convention in the City of San Francisco in the month of October. Selection of the 1933 convention city will be made by the board of directors in the semi-annual meeting in April.

Respectfully submitted,

ANDREW J. GALLAGHER, Chairman.

Board Endorses Proposal That "Golden Gate Air Terminal" Be Established on Yerba Buena Island Shoal.

(Code No. 15.05)

Resolution No. 520, as follows:

Whereas, San Francisco, by virtue of its geographical location, as well as its importance as an industrial and business center, is the logical air transportation center of the Pacific Coast; and

Whereas, commercial aviation, by its rapid advancement in recent years, has now become an indispensable part of our transportation and communication system; and

Whereas, the San Francisco Bay region is now served by four major air transportation companies with transport arrivals and departures approximating 3000, and carrying approximately 10,000 passengers, 70,000 pounds of mail and 24,000 pounds of freight and express each month; and

Whereas, these services, greatly increased as they will be in years to come, to give their maximum benefits to San Francisco, will require one centrally located and quickly and easily accessible terminal for the entire San Francisco metropolitan area, to supplement the splendid independent airports which are now located in the various bay cities; and

Whereas, there lies within the city limits of San Francisco a tract of land which is ideal for this purpose, located on Yerba Buena Island shoal, approximately midway between San Francisco and Alameda counties, and which could be reclaimed at a cost much less than the cost of any other suitable metropolitan air terminal site; and

Whereas, the construction of the sixty million dollar San Francisco-Oakland transbay bridge will soon bring this site within fifteen minutes' average travel time of the business centers of San Francisco and Oakland, thus providing the San Francisco area with potential air terminal facilities unequalled in the world for combined accessibility, size, favorable topographical and meteorological conditions, minimum flying hazards, convenience for both land and sea planes, and general serviceability; and

Whereas, this land now belongs to the State of California, and could be transferred, for the development of such a terminal, to the City and County of San Francisco at no cost to this City, and its ownership could be held by the City and County without expense until construction of the terminal is required in the future; now, therefore, be it

Resolved, That this Board of Supervisors unanimously endorses the proposal that a "Golden Gate Air Terminal" be established on Yerba Buena Island shoal at such time as air traffic requires it, and that the City proceed immediately to take all possible steps to obtain title to this land from the State of California at the coming session of the State Legislature, convening January 2, 1933.

(Italics indicate new matter.)

EXPLANATORY.

This ordinance provides for the necessary regulation of coin-in-the-slot machines by the Police and Health Departments and the inspection by said departments of each type of machine before it is licensed for operation. Similar legislation has been adopted by many cities in the United States.

The Committee has had this ordinance under consideration for six (6) months, and has held approximately fifteen (15) meetings. With the exception of one or two objectors who contended they could not pay any fee for inspection, no substantial opposition was presented to the committee.

The annual fees anticipated from the enforcement of this ordinance will total approximately $25,000, plus the filing fee required of each permittee.

Heretofore operators have placed these machines throughout the City without regard to legality or location. It is intended that police supervision of distribution and inspection will eliminate undesirable features of this business and likewise justify the fees established in accordance with the general authority of Section 24 of the charter.

The competition offered by the vending machine to the merchants doing business at a fixed place was given serious consideration by the committee and the rates fixed are presumed to be commensurate with the regulation intended.

The business of operating skill and amusement machines requires constant supervision by the Police Department because of its similarity to games of chance and the illegally designed machine.

This matter was first presented to the Committee by a representative of the Retail Grocers Association which desired legislation regulating a machine vending groceries which is now in operation in many large cities.

The ordinance combines taxation on a filing plus a proportionate tax on the number of machines owned and controlled by persons in said business.

There are approximately 100 operators and distributors owning or controlling 12,000 machines in this City and County.

Licensing Wholesale Peddlers of Wood, Coal and Charcoal.
(Code No. 3.041)

Bill No. 207, Ordinance No. 3.04117, as follows:

Imposing a license tax on wholesale peddlers of coal, charcoal or wood, defining such wholesale peddlers; providing for the identification of vehicles operated by such licensed peddlers; requiring a permit to be issued by the Chief of Police and a bond to be filed by such licensed wholesale peddlers.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. Every person, firm or corporation engaged in the business of a wholesale peddler, peddling coal, charcoal and/or wood at whole-

sale shall pay an annual license to the City and County of San Francisco in the sum of $500, said license to be paid at the time of issuance thereof.

Section 2. For the purpose of this ordinance a wholesale peddler is defined to be and include all persons, both principal and agent, and all firms, corporations, partnerships or any other joint or singular enterprise engaged in by a person or persons not having a regular fixed and established place of business in the City and County of San Francisco, who travel from place to place or have a stand upon any public street, sidewalk or alley or any other place, unenclosed or vacant lot or parcel of land, and who sells, or exhibits or offers for sale, any of the commodities or products mentioned herein to dealers for the purposes of resale, or to any public institution within the City and County of San Francisco. The person or firm so engaged shall not be relieved from the provisions of this section by reason of association, temporarily, with any local dealer or merchant, or by conducting any temporary business in connection with, or as a part of, or in the name of any local dealer or merchant. Any sale by a peddler to a dealer, for the purpose of resale, or to a public institution, shall classify him as a wholesale peddler, and in addition to being guilty of a violation of this ordinance, he shall be liable for the difference between that which he paid for a license as a peddler and what he should pay as a wholesale peddler.

Section 3. Each such peddler shall have his name, address and number of his license printed conspicuously on both sides of his truck or other vehicle in letters and figures not less than three inches in height, and he shall always carry the permit hereinafter provided for with him and shall exhibit the same whenever required by any police or other officer authorized by the laws of the City and County of San Francisco.

Section 4. It shall be unlawful for any person to engage in the calling of a wholesale peddler within said City and County without having first obtained a permit from the Chief of Police thereof upon a written application and after a hearing thereon, and without first having filed a bond and paid the license fee provided for in this or other ordinances.

Section 5. Upon payment of the license fee to the Tax Collector of said City and County he shall issue a numbered license to such wholesale peddler, but no license shall be issued by the Tax Collector to any such wholesale peddler until and unless the aforementioned permit has been issued and such applicant shall have first filed with the Controller of the City and County of San Francisco, and the same has been approved by said Controller, a liability insurance policy or bond, executed by the applicant, as principal, and a surety company, qualified and authorized to do business in California, as surety, in the sum of $5,000, to adequately protect the interests of said City and County and the public in the particulars hereinafter set forth; which policy of insurance or other bond shall bind the obligors thereunder that such applicant shall fully comply with the provisions of this ordinance and with the provisions of all other applicable ordinances of said City and County and the statutes of the State of California regulating or concerning the sale of the commodities or products in this ordinance mentioned, by peddlers, and shall pay all judgments rendered against such applicant for any violation thereof to the person recovering such judgments, and shall pay all judgments rendered against the applicant for injuries to persons and loss or damage to property resulting from the negligent operation of the business of such peddler within said City and County of San Francisco, and shall pay all judgments recovered by any person against said applicant arising out of any misrepresentation or deception practiced upon any person transacting business with said applicant as such peddler within said City and County; and any person injured by such negligent operation of said business or having a claim or cause of action as herein provided shall have a right of action directly on said policy or bond.

Section 6. Any peddler, as herein defined, who shall engage in the business of such peddling, shall not remain in any one place upon a

street, alley or sidewalk in the City and County of San Francisco, or between the same two (2) blocks on any street in the City and County of San Francisco, or opposite the same block on the same street in the City and County of San Francisco, or within the same block upon any alley in the City and County of San Francisco, for more than thirty (30) minutes at one time while actually engaging in such business of peddling.

Section 7. Any permit issued under and pursuant to the provisions of this ordinance shall remain in force for the period of one year from and after the date of its issuance unless revoked, and any person, firm or corporation desiring to renew any permit issued pursuant to the provisions of this ordinance shall make application to the Chief of Police of the City and County of San Francisco for the renewal thereof, which application for renewal shall be made in the same manner as for the issuance of said original permit.

Section 8. Any permit issued pursuant to the provisions of this ordinance may be revoked by the Chief of Police for any violation of the condition of said permit or for any violation of this ordinance by the holder of said permit. Before any permit shall be revoked by the Chief of Police, notice in writing shall be given to the holder of said permit of the time and place of hearing the matter of the revocation of said permit, which said notice shall briefly state the reasons for revoking said permit, and shall be mailed to the holder of said permit at his place of business or residence, as the same appears on his application for said permit, and when said notice is so mailed the Chief of Police shall have power, upon hearing the matter of the revocation of said permit, to revoke the same or make any order in the premises as may be proper.

Section 9. Any person, firm or corporation that shall violate any of the provisions of this ordinance shall be guilty of a misdemeanor and, upon conviction thereof, shall be punished by a fine not to exceed five hundred ($500) dollars or by imprisonment in the County Jail for not more than six (6) months, or by both such fine and imprisonment. Each day or fraction thereof any person, firm, association or corporation shall be engaged in such business without a license shall be considered as a separate and distinct offense.

Section 10. If any section, subsection, sentence, clause or phrase of this ordinance is for any reason held to be unconstitutional, such decision shall not affect the validity of the remaining portions of this ordinance. The Board of Supervisors hereby declares that it would have passed this act and each section, subsection, sentence, clause and phrase thereof irrespective of the fact that any one or more other sections, subsections, sentences, clauses or phrases be declared unconstitutional.

EXPLANATION.

This ordinance was presented by the San Francisco Retail Coal Dealers' Association. Its provisions are identical with the provisions of the Wholesale Peddlers' Ordinance passed recently by the Board of Supervisors. This ordinance relates only to wholesale peddlers of wood, coal and charcoal.

Privilege of the Floor.

V. M. Price, representing certain coal interests, was heard in protest. He declared that the passage of the ordinance would result in creating a coal monopoly and high prices for coal in San Francisco during the winter.

J. Cal Ewing, representing San Francisco Coal Dealers' Association, disclaimed the idea of creating a coal monopoly and declared that the original idea was to protect San Francisco dealers who pay a city license against competition of those who truck wood and charcoal into San Francisco from other counties and undersell San Francisco merchants. He had no objection to strike "coal" out of the ordinance.

Proposed Constitutional Amendment to License Fire Insurance Companies.

(Code No. 3.041)

The following matter, heretofore presented by Supervisor McSheehy and referred to the Judiciary Committee, was returned by said Committee with a majority recommendation that it do not pass:

Resolution No. 404, as follows:

Whereas, the provisions of subdivision (b), Section 14, Article XIII, of the Constitution of the State of California inhibits the imposition

of a license tax upon fire insurance companies or associations doing business in the City and County of San Francisco; and

Whereas, such companies and associations pay a tax to the said State, the amount of which is based on the rate of $2.60 per hundred on gross premiums, and from which amount is deducted the sum of any county and municipal taxes paid by such companies on real estate owned by them in this State; and

Whereas, the gross receipts of such companies and associations doing business in this State for the past ten years were $407,093,765, and the fire losses paid out during the said period were $172,766,759, a profit of $234,327,006 was earned; and

Whereas, the fire insurance companies and associations doing business in this City and County are the beneficiaries of at least ninety per cent of all services furnished by the Fire Department and the Fire Prevention Bureau; and

Whereas, the maintenance cost of the said department for the fiscal year 1932-33 is $3,285,314, and the cost of the same for the past ten years has been $31,862,984, and the costs of the said bureau amount to $49,000 annually; and

Whereas, said companies and associations, even though benefiting tremendously by the aforesaid services, do not contribute any part of said costs to the said City and County above that which is paid in the form of taxes upon real property situated in the City and County; and

Whereas, cities and counties of the State of California similarly circumstanced are confronted with a like problem of furnishing expensive services without contribution by the largest recipient of the same; now, therefore, be it

Resolved, That the matter of initiating legislation directed toward an amendment of the aforesaid subdivision of Section 14, Article XIII of the Constitution be referred to the Judiciary Committee of this Board, and that the major cities of the State be invited to a consideration of this vital problem.

Withdrawn.

Whereupon, on motion of Supervisor Havenner, seconded by Supervisor Colman, Supervisor McSheehy was permitted to withdraw the resolution.

surance or other bond shall bind the obligors thereunder that such applicant shall fully comply with the provisions of this ordinance and with the provisions of all other applicable ordinances of said City and County and the statutes of the State of California regulating or concerning the sale of the commodities or products in this ordinance mentioned, by peddlers, and shall pay all judgments rendered against such applicant for any violation thereof to the person recovering such judgments, and shall pay all judgments rendered against the applicant for injuries to persons and loss or damage to property resulting from the negligent operation of the business of such peddler within said City and County of San Francisco, and shall pay all judgments recovered by any person against said applicant arising out of any misrepresentation or deception practiced upon any person transacting business with said applicant as such peddler within said City and County; and any person injured by such negligent operation of said business or having a claim or cause of action as herein provided shall have a right of action directly on said policy or bond.

Section 6. Any peddler, as herein defined, who shall engage in the business of such peddling, shall not remain in any one place upon a street, alley or sidewalk in the City and County of San Francisco, or between the same two (2) blocks on any street in the City and County of San Francisco, or opposite the same block on the same street in the City and County of San Francisco, or within the same block upon any alley in the City and County of San Francisco, for more than thirty (30) minutes at one time while actually engaging in such business of peddling.

Section 7. Any permit issued under and pursuant to the provisions of this ordinance shall remain in force for the period of one year from and after the date of its issuance unless revoked, and any person, firm or corporation desiring to renew any permit issued pursuant to the provisions of this ordinance shall make application to the Chief of Police of the City and County of San Francisco for the renewal thereof, which application for renewal shall be made in the same manner as for the issuance of said original permit.

Section 8. Any permit issued pursuant to the provisions of this ordinance may be revoked by the Chief of Police for any violation of the condition of said permit or for any violation of this ordinance by the holder of said permit. Before any permit shall be revoked by the Chief of Police, notice in writing shall be given to the holder of said permit of the time and place of hearing the matter of the revocation of said permit, which said notice shall briefly state the reasons for revoking said permit, and shall be mailed to the holder of said permit at his place of business or residence, as the same appears on his application for said permit, and when said notice is so mailed the Chief of Police shall have power, upon hearing the matter of the revocation of said permit, to revoke the same or make any order in the premises as may be proper.

Section 9. Any person, firm or corporation that shall violate any of the provisions of this ordinance shall be guilty of a misdemeanor and, upon conviction thereof, shall be punished by a fine not to exceed five hundred ($500) dollars or by imprisonment in the County Jail for not more than six (6) months, or by both such fine and imprisonment. Each day or fraction thereof any person, firm, association or corporation shall be engaged in such business without a license shall be considered as a separate and distinct offense.

Section 10. If any section, subsection, sentence, clause or phrase of this ordinance is for any reason held to be unconstitutional, such decision shall not affect the validity of the remaining portions of this ordinance. The Board of Supervisors hereby declares that it would have passed this act and each section, subsection, sentence, clause and phrase thereof irrespective of the fact that any one or more other sections, subsections, sentences, clauses or phrases be declared unconstitutional.

Providing for the issuance of permits by the Director of Health and imposing a fee upon persons, firms or corporations collecting swill in the City and County of San Francisco; providing penalties for the violation thereof, and repealing all ordinances or parts of ordinances in conflict therewith.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 2. Every person, firm or corporation engaged in the business of collecting swill or hauling swill through any street or public place in the City and County of San Francisco shall obtain a permit from the Director of Health to so do, and no person, firm or corporation shall engage in the business of collecting swill in the City and

County of San Francisco, or haul the same through any street or public place therein without first having obtained such permit.

Section 3. The Director of Health of the City and County of San Francisco shall have power to establish rules and regulations governing the collection and disposal of swill in accordance with the United States or State laws or ordinances of the City and County of San Francisco. The permit granted to any person, firm or corporation to collect or haul swill pursuant to this ordinance may be revoked for the violation of any rule or regulation so established by the Director of Health.

ROLL CALL FOR THE INTRODUCTION OF RESOLUTIONS, BILLS AND COMMUNICATIONS NOT CONSIDERED OR REPORTED UPON BY A COMMITTEE.

Six-Hour Labor Day.
(Code No. ——)

Supervisor McSheehy presented:

Resolution No. 534, as follows:

Whereas, throughout our country millions of our citizens who are able and anxious to work are unable to find employment; and

Whereas, improvements in machinery during the past twenty years have displaced countless thousands of those who before the making of said improvements found steady employment; and

Whereas, the only permanent way in which the present economic stress of our country can be removed is by finding employment for all those who are able and willing to work; and

Whereas, the matter of unemployment is of particular interest to the people of the City and County of San Francisco, for the reason that the citizens of the City and County have just voted a bond issue of $6,500,000 for the relief of those in need by reason of unemployment conditions, and if said unemployment conditions cannot be remedied

the City and County of San Francisco will have to continue with the giving of relief to those who are in need, all of which is a heavy burden upon the taxpayers of the City and County of San Francisco; and

Whereas, the most effective way of relieving unemployment conditions will be the shortening of the ordinary work day so that such employment as may be forthcoming will be spread among the greatest possible number of persons; and

Whereas, the surest way to bring about the shortening of the ordinary work day will be to have the national, State and various municipal governments inaugurate a six-hour working day on all public work performed under their respective jurisdictions, thereby showing to others engaged in private enterprise the benefits to be derived from the shortened day of labor; now, therefore, be it

Resolved, That the Board of Supervisors of the City and County of San Francisco does hereby call upon the Congress of the United States to enact suitable legislation limiting the hours during which any particular individual may perform labor or render services on public works under the jurisdiction of the United States to six hours in any calendar day; and be it

Further Resolved, That said Board of Supervisors call upon the Legislature of the State of California, which is to convene on January 2, 1933, to adopt similar legislation in regard to public works under the jurisdiction of the State of California or any political subdivision thereof; and be it

Further Resolved, That at the earliest opportunity the Charter of the City and County of San Francisco should be amended so that on all public works performed under the jurisdiction of said City and County no person shall be permitted to perform labor or render services for more than six hours during any calendar day; and be it

Further Resolved, That in cases of emergency involving the immediate necessary preservation of public peace, property, health or safety of federal, State or county or municipal government the limitations for labor hereinbefore mentioned shall not apply; and be it

Further Resolved, That a copy of this resolution be sent to the Representatives in Congress of the City and County of San Francisco and to the San Francisco delegation in the State Legislature, with a request that any legislation tending to carry out the limitations for labor herein provided be diligently supported.

Referred to Judiciary Committee.

Golden Gate Air Terminal at Yerba Buena Shoal.
(Code No. 15.05)

Resolution No. 520, as follows:

Whereas, San Francisco, by virtue of its geographical location, as well as its importance as an industrial and business center, is the logical air transportation center of the Pacific Coast; and

Whereas, commercial aviation, by its rapid advancement in recent years, has now become an indispensable part of our transportation and communication system; and

Whereas, the San Francisco Bay region is now served by four major air transportation companies with transport arrivals and departures approximating 3000, and carrying approximately 10,000 passengers, 70,000 pounds of mail and 24,000 pounds of freight and express each month; and

Whereas, these services, greatly increased as they will be in years to come, to give their maximum benefits to San Francisco, will require one centrally located and quickly and easily accessible terminal for the entire San Francisco metropolitan area, to supplement the splendid independent airports which are now located in the various bay cities; and

Whereas, there lies within the city limits of San Francisco a tract of land which is ideal for this purpose, located on Yerba Buena Island shoal, approximately midway between San Francisco and Alameda counties, and which could be reclaimed at a cost much less than the cost of any other suitable metropolitan air terminal site; and

Whereas, the construction of the sixty million dollar San Francisco-Oakland transbay bridge will soon bring this site within fifteen minutes' average travel time of the business centers of San Francisco and Oakland, thus providing the San Francisco area with potential air terminal facilities unequalled in the world for combined accessibility, size, favorable topographical and meteorological conditions, minimum flying hazards, convenience for both land and sea planes, and general serviceability; and

Whereas, this land now belongs to the State of California, and could be transferred, for the development of such a terminal, to the City and County of San Francisco at no cost to this City, and its ownership could be held by the City and County without expense until construction of the terminal is required in the future; now, therefore, be it

Resolved, That this Board of Supervisors unanimously endorses the proposal that a "Golden Gate Air Terminal" be established on Yerba Buena Island shoal at such time as air traffic requires it, and that the City proceed immediately to take all possible steps to obtain title to this land from the State of California at the coming session of the State Legislature, convening January 2, 1933.

November 21, 1932—*Presented by Supervisor Miles and referred to Judiciary Committee.*

December 12, 1932—*Recommended by Supervisor Peyser, Chairman of the Judiciary Committee.*

"The Joy of Giving Is the Spirit of Christmas" Campaign Endorsed.

(Code No. 5)

Resolution No. 541, as follows:

Whereas, San Francisco civic and business leaders are again using the slogan, "The Joy of Giving Is the Spirit of Christmas" to develop the age-old custom of giving during Yule season; and

Whereas, when men and women might be discouraged by adverse conditions this joyous festival may be celebrated by Americans of all creeds as a day of bringing happiness to others through gift giving; and

Whereas, the buying and giving of Christmas presents provides employment and work for many people who otherwise might not be employed; and

Whereas, the widespread adoption of the spirit of this campaign,

through the generous giving of Christmas gifts, will spread good cheer and happiness to adults and children; and

Whereas, Santa Claus is a real and kindly personage, and thousands of our children will look forward eager-eyed for the gifts which they have whispered that they wanted; now, therefore, be it

Resolved, That the Board of Supervisors of the City and County of San Francisco does hereby endorse "The Joy of Giving Is the Spirit of Christmas" campaign, and does commend the individuals and organizations responsible for its continuance; and be it

Further Resolved, That this Board of Supervisors does urge San Franciscans and the people of central and northern California to maintain the traditional old-fashioned American Christmas spirit of giving to the greatest possible degree.

Judiciary Committee to Attend Sessions of State Legislature.

Supervisor Peyser requested that the Judiciary Committee be authorized to attend sessions of the State Legislature, which convenes the first part of next year, for the purpose of watching legislative matters affecting San Francisco.

There being no objection, Chairman Hayden authorized the chairman of the Judiciary Committee to prepare the necessary resolution.

Use of Auditorium for Housing Destitute.

Supervisor Brown suggested that steps be taken for housing destitute people in public buildings, such as the Civic Auditorium, where they may have warmth and shelter during the prevailing cold weather.

Supervisor Spaulding added his endorsement to the suggestion of Supervisor Brown.

Supervisor McSheehy moved that the Chairman of the Board appoint a committee of three members of the Board to confer as to the advisability and practicability of the plan for the caring of our indigent poor by housing them for the next three months in our public buildings.

Amendment.

Supervisor Roncovieri moved as an amendment that the entire membership of the Board be appointed on the proposed committee.

Amendment *carried* by the following vote:

Ayes—Supervisors Breyer, Brown, Canepa, Colman, Havenner, Hayden, McSheehy, Miles, Peyser, Roncovieri, Spaulding, Stanton—12.

Absent—Supervisors Gallagher, Power, Shannon—3.

His Honor Mayor Rossi, who was present, got into telephonic communication with Judge Sloss, chairman of the Advisory Committee on Relief, and was told that the Citizens' Committee would be glad to get good, constructive suggestions or criticism. To date he said over two million dollars had been expended in relief work. Officials cooperating fully with the Citizens' Committee.

The Mayor declared that he would call a conference at once with the Citizens' Committee and the membership of the Board, with a view of meeting the emergency which has arisen through the abnormal cold weather prevailing.

Presentation to Captain Ross C. Culp.

His Honor Mayor Rossi, presenting Captain Ross C. Culp, Pacific naval communication officer, declared that for the past three years he had been stationed at San Francisco and had on every occasion demonstrated his love for San Francisco and evinced every desire to serve her interests. He has now been assigned to the U. S. S. "Raleigh" on sea duty, and it becomes my sad duty to say "au revoir," hoping that he returns to San Francisco in the not too distant future.

Thereupon, his Honor Mayor Rossi presented Captain Culp with a desk set as a token of our esteem and as a reminder of the true friendship and gratitude in which he is held by the officials and people of San Francisco.

Captain Culp responded in kind, saying that it was a privilege and pleasure to be here in San Francisco.

Chairman Hayden, Supervisor Peyser and Supervisor Spaulding added their felicitations and good wishes, hoping Captain Culp would soon return to San Francisco.

ADJOURNMENT.

There being no further business, the Board at the hour of 3:30 p. m. adjourned.

Golden Gate Air Terminal at Yerba Buena Shoal.

(Code No. 15.05)

Resolution No. 520, as follows:

Whereas, San Francisco, by virtue of its geographical location, as well as its importance as an industrial and business center, is the logical air transportation center of the Pacific Coast; and

Whereas, commercial aviation, by its rapid advancement in recent years, has now become an indispensable part of our transportation and communication system; and

Whereas, the San Francisco Bay region is now served by four major air transportation companies with transport arrivals and departures approximating 3000, and carrying approximately 10,000 passengers, 70,000 pounds of mail and 24,000 pounds of freight and express each month; and

Whereas, these services, greatly increased as they will be in years to come, to give their maximum benefits to San Francisco, will require one centrally located and quickly and easily accessible terminal for the entire San Francisco metropolitan area, to supplement the splendid independent airports which are now located in the various bay cities; and

Whereas, there lies within the city limits of San Francisco a tract of land which is ideal for this purpose, located on Yerba Buena Island shoal, approximately midway between San Francisco and Alameda counties, and which could be reclaimed at a cost much less than the cost of any other suitable metropolitan air terminal site; and

Whereas, the construction of the sixty million dollar San Francisco-Oakland transbay bridge will soon bring this site within fifteen minutes' average travel time of the business centers of San Francisco and Oakland, thus providing the San Francisco area with potential air terminal facilities unequalled in the world for combined accessibility, size, favorable topographical and meteorological conditions, minimum flying hazards, convenience for both land and sea planes, and general serviceability; and

Whereas, this land now belongs to the State of California, and could be transferred, for the development of such a terminal, to the City and County of San Francisco at no cost to this City, and its ownership could be held by the City and County without expense until construction of the terminal is required in the future; now, therefore, be it

Resolved, That this Board of Supervisors unanimously endorses the proposal that a "Golden Gate Air Terminal" be established on Yerba Buena Island shoal at such time as air traffic requires it, and that the City proceed immediately to take all possible steps to obtain title to this land from the State of California at the coming session of the State Legislature, convening January 2, 1933.

December 5, 1932—*Supervisor Peyser, Chairman of the Judiciary Committee, recommends.*

(Code No. 12.063)

San Francisco, December 15, 1932.

To the Honorable Board of Supervisors, City and County of San Francisco.

Gentlemen: The Streets Committee, after several months' deliberations and negotiations, recommends to the honorable Board, for its approval and declaration of policy, the following letter and offer of Mr. L. Depaoli, through Mr. Jos. J. Phillips, Director of Property, for the acquisition of land for the extension of Theresa street from Cayuga avenue to Alemany boulevard.

CITY AND COUNTY OF SAN FRANCISCO,
REAL ESTATE DEPARTMENT,
375 City Hall.

San Francisco, December 14, 1932.

Honorable Streets Committee, Board of Supervisors, City Hall, San Francisco.

Gentlemen: Complying with your instructions and in accordance with the price agreed on by you, I have received from Louis Depaoli a contract whereby he offers to grant to the City and County of San Francisco the necessary land for the extension of Theresa street for the sum of eight thousand five hundred dollars ($8,500), subject to the following terms and conditions:

It is understood and agreed that the above amount of eight thousand five hundred dollars ($8,500) is to be paid to Louis Depaoli on or before March 1, 1933.

It is further understood and agreed that the public proceedings for the improvement of Theresa street between Cayuga avenue and Alemany boulevard are to be started by the City within thirty (30) days from the date of recordation of the deeds to the above-described parcels of land. The limits of the above-mentioned street work are the westerly line of Alemany boulevard and the easterly line of Cayuga avenue. Said street work is to include street improvements, curbs, sidewalk strip, main sewer, necessary side sewers, necessary catchbasins, manhole and appurtenances at the intersection of Cayuga avenue and Theresa street and at the intersection of Alemany boulevard and Theresa street.

It is further understood and agreed that the adjoining and remaining property of Louis Depaoli will be assessable for the above-mentioned street work up to the maximum amount of three thousand seven hundred and fifty dollars ($3,750).

It is further understood and agreed that an assessment district be formed and the property owners in this district will be assessed for a maximum amount of one thousand two hundred and fifty dollars ($1,250). In the event that the total amount of the said street work is less than five thousand dollars ($5,000), the assessment against Louis Depaoli and the property owners will be reduced in the proportionate amount of three-fourths and one-fourth. In the event that the property owners in this district to be assessed do not agree in writing, within thirty (30) days from date hereof, to assume this above-mentioned assessment of one thousand two hundred and fifty dollars ($1,250), this offer by Louis Depaoli is null and void.

It is further understood and agreed that the City and County of San Francisco shall have the right to extend the slopes of cuts and fills on to the remaining property of Louis Depaoli where necessary.

It is further understood and agreed that all previous agreements, written or oral, made by Louis Depaoli in regard to Theresa street extension are hereby null and void.

If this contract meets with the approval of your honorable Committee we will prepare the necessary resolution.

Awaiting your further instructions in this matter, I am

Very truly yours,

Report of Committee on Legislative Program of California.

The following was presented by Supervisor McSheehy and ordered *spread in the record*:

December 19, 1932.

To the Honorable Board of Supervisors, City Hall.

Gentlemen: By Resolution No. 517 your honorable Board appointed three Supervisors to represent the Board at the California Supervisors' Association Committee on Taxation, to prepare a legislative program to be sponsored by this association at the forthcoming session of the California State Legislature. The meeting was held in Los Angeles on December 8, 9 and 10, 1932.

The first meeting was called on the evening of the 8th in the Alexandria Hotel; the second meeting was an all-day session in the Hall of Records; and the third was held in the Hayward Hotel with a committee of the League of California Municipalities.

A great many bills pertaining to taxation were taken up, but the two which caused intense debate was one giving the Supervisors, the tax-finding body, the right to check expenditures of the School Departments throughout the State, and the other bill was the equalization of the automobile tax now collected by the State, of which two cents is received by the State and one cent by the county. This bill will call for 1½ cents by the State and 1½ cents by the county. In all, about $32,000,000 is collected. San Francisco's portion is about $1,100,000. This increase of ½ cent would mean $500,000 increase for San Francisco.

These two bills are to be presented at the next session of the Legislature. They are very intricate and require intense study on the part of the authors of the bills. Both associations were unanimously in favor of the bills. The lengthy debate was caused by the many ramifications covering the said bills.

The Joint Committee of Supervisors and the League of California Municipalities adjourned to meet in San Francisco on December 20 at the Whitcomb Hotel at 10 o'clock, for the purpose of presenting two bills that would be unanimously agreed on, so that a positive, firm stand will be taken in presenting these bills to the State Legislature during the session of 1933.

Respectfully yours,

JAMES B. McSHEEHY, Chairman;
CARL W. MILES,
J. EMMET HAYDEN,
Supervisors' Committee.

The Board of Supervisors met in regular session.

CALLING THE ROLL.

The roll was called and the following Supervisors were noted present:

Supervisors Breyer, Brown, Canepa, Colman, Gallagher, Havenner, Hayden, McSheehy, Miles, Peyser, Power, Roncovieri, Shannon, Spaulding, Stanton—15.

APPROVAL OF JOURNAL.

The Journal of Proceedings of the meeting of December 12, 1932, was considered read and approved.

SPECIAL ORDER—2:30 P. M.

In re Wage Scale on City Contracts.

Consideration of communication from Civil Service Commission relative to the prevailing wage scale on City contracts.

Committee of the Whole.

The Board of Supervisors resolved itself into a Committee of the Whole for the purpose of hearing all concerned. Supervisor Gallagher in the chair.

On motion of Supervisor Gallagher, it was agreed that the Committee of the Whole sit until 6:30 p. m. and at that time determine the time for further hearings.

Albert Boynton, Industrial Association; Paul Eliel, Industrial Association; Harry K. Wolff, Civil Service Commission; John O'Toole, City Attorney; Frank MacDonald, representing the Building Trades Council; Benjamin Ellsburg, business agent for the Ornamental Plasterers, and D. H. Ryan, representing Cabinet Makers and Carpenter Millmen were heard at length on the pending subject.

At 6:30 p. m. the Committee arose and reported progress and, on motion of Supervisor Shannon, decided to meet again Thursday, December 29, 1932, at 10 a. m.

The following statement was, on motion, made a part of the record:

MR. D. H. RYAN (a representative of the carpenters and cabinet workers): I have waited a long time to tell you this, and I won't be much longer, but I want you to know that in the last four years there has not been a public school, a public war memorial, a health center, a fire house, and with one—only one or two exceptions, a branch library, paid for by the taxpayers of San Francisco, in which

the millmen and cabinetmen have had a chance to do a thing on it. The wage scale was set for it, but through lack of something or other it was not enforced. I want to suggest to this Board some amendments to the prevailing wage scale ordinance. I want to suggest to you that every contractor, before he signs a contract with the City and County of San Francisco, no matter who the awarding officer may be, that he shall lay down before him every subcontractor that he has figuring, to stop the peddling of bids, and to stop these contractors, after they have got the bid, doing what the Pacific Manufacturing Company has done. They told me "We never figure on millwork; we go down and see what our competitor is bidding, and we cut them 20 per cent and get by, and we don't care anything about your wage law." And they have got by with it all over town.

I want to suggest another amendment to the prevailing wage scale ordinance, and that is that every contractor and subcontractor who, under the law, is compelled to keep a list of all his employees, with their rate of pay and so forth, that they furnished a certified copy of their payroll to the employer every week, setting forth the names, classifications and wage scale, so that they will be a matter of public record, so that everyone may go in and know who is employed and what they are getting.

I know of one instance, on the Memorial Building, where they had a 47-year-old carpenter, who laid out all the top floor where we held the hearing, and he was listed on the contractor's list as an apprentice; and that is only one, typical of many more of them; and I got his wage paid from February to November, and which he was docked $4.25 out of his stipulated scale of $9 written into the contract.

I am bringing these things to your attention to make it so that the contractor when he submits his list every week he must be compelled to submit also the classification and wage scale; and that before he gets the contract the name of his sub-bidder, millworker and cabinet worker, and all other subcontractors, be submitted, in order that the awarding officer may see that they do not get out from under by these legal technicalities.

UNFINISHED BUSINESS.

None.

NEW BUSINESS.

The following recommendation of the Finance Committee was taken up:

Directing the Clerk to Advertise the Sale of Relief Bonds, $2,160,000.

(Code No. 19.071)

Resolution No. 553, as follows:

Resolved, That the Clerk of the Board be and is hereby directed to advertise in the official newspaper (Notice of Sale) that on the 9th day of January, 1933, the Board of Supervisors will receive sealed proposals, up to the hour of 3 p. m., for the purchase of the following bonds of the City and County of San Francisco:

Two million one hundred and sixty thousand dollars of Relief Bonds, dated September 1, 1932. Said bonds will bear interest at the rate or rates not to exceed 6 per cent per annum as shall be named by the bidder, interest payable semi-annually March 1 and September 1; comprising 180 bonds of one thousand dollar denomination, maturing each year from 1936 to 1947, inclusive.

The Finance Committee shall fix the terms and conditions of sale.

Motion.

Supervisor McSheehy, seconded by Supervisor Gallagher, moved to lay over on calendar for one week and that in the meantime we get a report from our Controller as to relief finances.

Privilege of the Floor.

Chas. M. Wollenberg, Director of Relief, warned the Board that there was available for relief at this time only $270,000, which will be exhausted on January 15. He insisted that something must be done immediately, as the Controller had advised him that he would not pay the bills if the money was not available and that he (Wollenberg) would not again assume the responsibility of signing notes to cover the expenditures as he had in the past to the extent of $400,000.

Adolph Uhl was granted the privilege of the floor and contended there was sufficient funds available to carry on relief work over a period of three or four months without selling additional bonds at this time.

C. Ross, representing the Controller, supported the statement of Superintendent Wollenberg that the funds should be made available at once.

Whereupon a vote was taken on permitting Supervisor Gallagher to withdraw his second of Supervisor McSheehy's motion, with the following result:

Ayes—Supervisors Breyer, Canepa, Colman, Havenner, Hayden, Miles, Peyser, Power, Roncovieri, Shannon, Stanton—11.

Noes—Supervisors Brown, McSheehy—2.

Absent—Supervisor Spaulding—1.

Excused from voting—Supervisor Gallagher—1.

Motion.

Supervisor Havenner moved as an amendment that the amount of the bond issue be reduced to $1,000,080.

Amendment *lost* by the following vote:

Ayes—Supervisors Havenner, McSheehy—2.

Noes—Supervisors Breyer, Brown, Canepa, Colman, Gallagher, Hayden, Miles, Peyser, Power, Roncovieri, Shannon, Spaulding, Stanton —13.

Explanation of Vote.

Supervisor Miles explained his vote by saying that in view of the fact that 79 other cities in the United States had recently voted relief bonds he was advised and believed it would be to San Francisco's advantage to dispose of the full amount.

Adopted.

Whereupon the foregoing resolution was *adopted* by the following vote:

Explanation of Vote.

SUPERVISOR McSHEEHY: * * * that I am opposed to the proper care of our indigents. I advocated throughout this entire city the sale of six and one-half million dollars' worth of bonds, and I dare say that I talked in more places than any member of this Board, and I went to places and talked to people where I dare say no member of this Board would ever go, in reference to the sale of these bonds, and I went to people and talked to people that others wouldn't attempt to talk to. I did my bit, and I will do it again, because I yield to no man in reference to the proper care of our indigents, but I do feel that it is positively a question of accounting, and that a proper accounting should be given for the moneys handled, and I do feel that there is no need for the sale of these particular bonds at this time.

Final Passage.

The following emergency matters were taken up and *finally passed* by the following vote:

Providing for the investigation by the Judiciary Committee of the Board of Supervisors and the City Attorney of all bills introduced in the 1933 session of the Legislature of the State of California, in so far as said bills affect the City and County of San Francisco, and pro-

Section 3. That the said members of the Board of Supervisors and the said City Attorney be allowed their actual expenses in carrying out the purposes of this ordinance.

Section 4. That many of said measures which may be introduced in the State Legislature may involve the welfare of the citizens of the City and County, as well as the property of said City and County, and that for the purpose of meeting the expense of investigating said measures and reporting thereon the sum of two thousand ($2,000) dollars is hereby appropriated from the 1932-33 Emergency Reserve Fund, from which said sum the Controller is requested to draw his warrant reimbursing any of the members of the above-mentioned committee for their expenses in carrying out the purpose of this ordinance when proper vouchers are submitted to said Controller showing payment of said expenses.

Endorsing "Buy American" Movement.

(Code No. 5.2)

Supervisor Miles presented:

Resolution No. 562, as follows:

Whereas, the United States, all of its citizens and all of its industries are today in the midst of an economic crisis which has thrown

millions of American workingmen out of employment, shut down thousands of its major industries and made itself felt in every home in the land; and

Whereas, foremost economists of the United States believe that the intrusion of cheaply made foreign goods into the American market has been largely responsible for this decreased employment and economic breakdown; and

Whereas, these great Americans, led by Mr. William Randolph Hearst, speaking through the columns of his newspapers, including the San Francisco Examiner and the San Francisco Call-Bulletin, are engaged in a campaign to induce all of our citizens to buy American-made goods exclusively, and thus bring employment to millions of American citizens, revive our industries and take an important step toward the ending of this country's industrial and economic difficulties; and

Whereas, this campaign has gained immediate approval from scores of patriotic labor and industrial organizations throughout the United States, including the San Francisco Posts of the American Legion, which have urged that all of the 10,600 Legion Posts in the United States concentrate in a drive for the success of the "Buy American" movement; now, therefore, be it

Resolved, That this Board of Supervisors extends a whole-hearted endorsement to the movement to induce all citizens of the United States to buy American-made goods to the exclusion of foreign goods made under conditions of cheap labor, and which, in competition with American goods, is destructive of the American standard of living, unfair to the American business man and the source of major economic difficulties; and be it

Further Resolved, That a copy of this resolution be transmitted forthwith to the San Francisco Examiner, the San Francisco Call-Bulletin and to the San Francisco County Council of the American Legion.

Adopted by the following vote:

Ayes—Supervisors Breyer, Brown, Canepa, Colman, Gallagher, Havenner, Hayden, McSheehy, Miles, Peyser, Power, Roncovieri, Shannon, Spaulding, Stanton—15.
